

**MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT  
GOVERNING BOARD OF TRUSTEES  
REGULAR MEETING**

1:30pm, Closed Session, Stutzman Seminar Room, LTC  
3:00pm, Open Session, Sam Karas Room, LTC  
980 Fremont Street, Monterey, California 93940

**TUESDAY, OCTOBER 26, 2010**

**AGENDA**

*The Monterey Peninsula College Governing Board welcomes you to the Governing Board of Trustees Meeting. Documents that are public records and are provided to a majority of the Governing Board regarding an Open Session item on this agenda will be made available for public inspection in the Superintendent/President's Office at Monterey Peninsula College, 980 Fremont Street, Monterey, California, during normal business hours the Wednesday preceding the meeting. If you intend to submit documents at this meeting, the Brown Act requires you to bring enough copies for the Trustees and the audience.*

**1. OPENING BUSINESS**

A. Call Public Session to Order and Roll Call.

B. Comments from Visitors.

C. Closed Session.

*The Governing Board will meet in Closed Session (before the Open Session on regular agenda items) to consider matters appropriate for Closed Session as authorized by Sections 3549.1 and 54956.7 through 54957.7, Government Code and Section 72122, Education Code, and as otherwise provided by law. Required action on these matters will be taken when the Board meets in Open Session (or at the next public meeting).*

Item under discussion:

1) Collective Bargaining with MPCEA: Negotiators Steve Ma and Barbara Lee.

2) Conference with Real Property Negotiator, Parcel E19a.5. Negotiating Party:  
Monterey Peninsula College District, Mr. Steve Ma.

D. Reconvene to Open Session.

E. Reporting of Any Action Taken During Closed Session.

**2. RECOGNITION**

A. Acknowledgement of Visitors.

B. Presentation of Osher Scholarship Awardees, Vice President Carsbia Anderson.

**3. COMMUNICATIONS**

*Note to Audience: Anyone wishing to address the Governing Board on matters within the jurisdiction of the Board may do so now. Please state the matter on which you wish to speak. Matters not appearing on the Agenda will not receive action at this meeting, but may be referred to staff for consideration at a future meeting. Presentations will be limited to three minutes, or as established by the Board. (Persons are not required to give their name or address, but it is helpful for a person to state their name in order that the Board and others present may identify the speaker.)*

A. Comments from Visitors.

B. Written Communications:

- 1) Letter of condolence from Dr. Doug Garrison to Mr. David Talcott Bates on the passing of Peggy Bates / September 28.
- 2) Letter to Board from Student Richard Willis / September 29.
- 3) Email to Board from Monterey County School Boards Association on 2010-2011 training workshops / September 30.
- 4) Letter to Board from Student Jason Patch / October 4.
- 5) Letter from Jackson Booth, President, Monterey Jazz Festival, thanking MPC for donation of parking during Jazz Festival / October 4.
- 6) Letter from Steve Ma to Assemblymember Bill Monning regarding freeway sign for Education Center at Marina / October 7.

MPC All User Emails:

- 1) From Dr. Doug Garrison and PE Division: Passing of Larry Cummins, former instructor, coach, division chair and athletic director / September 23.
- 2) From Gaozong Thao, Veterans Representative: Employment Development Department – Operation Welcome Home at MPC / September 23.
- 3) From Dr. Doug Garrison: MPC Notes / October 1.
- 4) From Caroline Carney: College Success brochure and website / October 5.
- 5) From Dr. Doug Garrison: MPC Notes and State Budget / October 11.
- 6) From Latina Leadership Network: Zapotec Women’s Weaving Exhibition on November 10 / October 14.

Articles published in *The Herald*, *The Californian*, and other publications:

- 1) Your Town Article: “MPC to hold banned books reading” / September 24.
- 2) Article Off 68 Newspaper: “Learning glass-blowing shatters business career” former student Nick Leonoff’s glass artist career / September 24.
- 3) Advertisement: Alumni Association Homecoming Reunion Celebration and BBQ Recognition of 1958 and 1959 football teams / September 26.
- 4) Sports: “West Hills edges MPC in shootout” (football) / September 27.
- 5) Obituary: Lawrence Warren Cummins, passing September 22 / September 26.
- 6) Pitstop Article: “Lobos Legacy, Longtime MPC coach Larry Cummins touched many lives in 80 years of life” / September 26.
- 7) Article: “Salinas teenager chosen for FFA nationals” Student Jorge Razo, Jr. / October 5.
- 8) Popular Science Magazine: “First Complete Census of Marine Life Catalogs Yeti Crab, Darth Vader Jelly, and 6,000 More” Kevin Raskoff, instructor and founder of Hydromedusa (Darth Vader) Jellyfish / October 5.
- 9) Advertisement: “Art” play at MPC October 14-24 / October 13.
- 10) Sports: “MPC volleyball takes care of Hartnell in three sets” / October 14.
- 11) Go! Stage Scene: “What is art? A blank canvas offers a complex view into the nature of friendship in the award-winning drama ‘Art’ opening at MPC” / October 14.
- 12) “Conference win good for what ails MPC” / October 17.

C. Reports and Presentations:

*Routine status reports and announcements regarding campus activities, meeting schedules, conferences attended and recent developments.*

- 1) Institutional Report – Computer Science and Information Systems MBRACE Program; (Monterey Bay Regional Academy for Computer Education), D.J. Singh.
- 2) Superintendent/President Report

- 3) Vice Presidents' Reports
- 4) Academic Senate Report
- 5) MPCEA Report
- 6) MPCTA Report
- 7) ASMPC Report
- 8) College Council Report
- 9) MPC Foundation Report
  - a) Monterey Peninsula College Foundation Donations for September, 2010, totaling \$41,287.00.
- 10) Governing Board Report:
  - a) Community Human Services
  - b) Trustee Reports
- 11) Legislative Advocacy Report
  - a) Community College Bills of Interest
- 12) Special Report - Bond Update Reports, Joe Demko:
  - a) Active Bond/Facility Projects Update
  - b) Cost Control Report
  - c) Master Schedule/Construction Phase Only
  - d) Bond Expenditure Report

4. **CONSENT CALENDAR**

*Items listed under the Consent Calendar are considered to be routine and are acted on by the Board of Trustees in one motion. There is no discussion of these items prior to the Board vote unless a member of the Board, staff, or public requests that specific item(s) be discussed and/or removed from the Consent Calendar. It is understood that the administration recommends approval on all Consent items. Each item on the Consent Calendar approved by the Board of Trustees shall be deemed to have been considered in full and adopted as recommended.*

- A. Routine Business Transactions, Annual Renewal of Programs, Bids, Agreements, Notice of Public Hearings and Proclamations:

BE IT RESOLVED:

- 1) That the Governing Board approves the minutes of the Regular Board Meeting on September 28, 2010.
- 2) That the Governing Board accepts gifts donated to the college with appropriate acknowledgement to donors.
- 3) That the September 15<sup>th</sup> manual payroll in the amount of \$82.00; and that the September 30<sup>th</sup> regular payroll in the amount of \$2,237,202.40; and that the October 8<sup>th</sup> supplemental payroll in the amount of \$76,819.34, for the total payroll of \$2,314,103.74, be approved.
- 4) That Commercial Warrants:
  - Number 12807818 through Number 12807858 - \$615,252.73
  - Number 12808799 through Number 12808866 - \$177,294.06
  - Number 12809900 through Number 12809951 - \$180,318.62
  - Number 12810449 through Number 12810484 - \$802,293.19
  - Number 12811285 through Number 12811329 - \$834,447.11
  - Number 12812614 through Number 12812655 - \$538,278.41
  - Number 12814467 through Number 12814531 - \$494,776.54
 in the amount of \$3,642,660.66, be approved.

5) That Purchase Order #'s 111473 through 111594, in the amount of \$5,957,042.03, be approved.

6) That the following budget adjustments in the Restricted General Fund be ratified:

Net increase in the 1000 (Certificated Salary) object expense category	\$ 16,318
Net decrease in the 2000 (Classified Salary) object expense category	\$ 177
Net increase in the 3000 (Benefits) object expense category	\$ 3,637
Net increase in the 4000 (Supplies) object expense category	\$ 934
Net increase in the 5000 (Other/Services) object expense category	\$ 6,174
Net decrease in the 6000 (Capital Outlay) Object expense category	\$ 4,480
Net decrease in the 7000 (Other Outgo) object expense category	\$ 22,406

7) That the following budget increases in the Restricted General Fund be approved:

Net decrease in the 1000 (Certificated Salary) object expense category	\$ 22,371
Net increase in the 2000 (Classified Salary) object expense category	\$ 15,463
Net decrease in the 3000 (Benefits) object expense category	\$ 2,261
Net increase in the 4000 (Supplies) object expense category	\$ 4,166
Net decrease in the 5000 (Other/Services) object expense category	\$ 4,368
Net increase in the 6000 (Capital Outlay) object expense category	\$ 1,400
Net decrease in the 7000 (Other Outgo) Object expense category	\$ 42,647

B. Administrative Personnel:

- 8) That the Governing Board approves the Administrative personnel items:
- Accept the resignation for the purpose of retirement of Dr. John Gonzalez, Vice President for Academic Affairs, effective February 1, 2011.
  - Approve the recruitment search for a full-time Vice President for Academic Affairs to replace Dr. John Gonzalez.

C. Faculty Personnel:

- 9) That the Governing Board approves the Faculty personnel items:
- Accept the resignation of Mark Bishop, effective June 6, 2011, for the purpose of retirement, and confer upon him the title of Professor Emeritus.
  - Accept the resignation of Dr. Richard Kezirian, effective June 5, 2011, for the purpose of retirement, and confer upon him the title of Professor Emeritus.
  - Accept the resignation of Dr. Caroline Carney, effective June 5, 2011, for the purpose of retirement, and confer upon her the title of Professor Emeritus.
  - Each month individuals are hired as part-time, substitute, and overload. The attached list includes hires for Fall 2010.

D. Classified Personnel:

- 10) That the Governing Board approves the Classified personnel items:
- a. Approve the employment of \_\_\_\_\_, Instructional Specialist, English and Study Skills Center, 18 hours per week, 7 months and 19 days per year, effective \_\_\_\_\_, 2010.
  - b. Approve the employment of \_\_\_\_\_, Instructional Specialist, English and Study Skills Center, 18 hours per week, 7 months and 19 days per year, effective \_\_\_\_\_, 2010.
  - c. Approve the employment of \_\_\_\_\_, Custodian, Facilities, 40 hours per week, 12 months per year, effective \_\_\_\_\_, 2010.
  - d. Approve the employment of \_\_\_\_\_, Instructional Specialist, Supportive Services & Instruction, 18 hours per week, 34 weeks per year, effective \_\_\_\_\_, 2010.
  - e. Approve the correction to Board Agenda and Minutes of September 28, 2010, for Olivia Panopolous, Instructional Specialist, English and Study Skills Center, shown as 18 hours per week, 34 weeks per year, to be corrected to read 18 hours per week, 8.5 months per year.

E. Short Term and Substitute Personnel:

- 11) That the individuals on the recommended list (Short Term and Substitute Employees) employed for short term and substitute assignments subject to future modifications, be approved.

5. **NEW BUSINESS**

- A. BE IT RESOLVED, that the 2010-2011 Monthly Financial Reports for the period ending September 30, 2010, be accepted.
- B. INFORMATION: 2010-2011 Community College Budget Analysis.
- C. BE IT RESOLVED, that the Board declares as surplus classroom furniture being removed from the language laboratory in Humanities, and twenty-seven football helmets from the Athletics Department, and direct the disposal of these items in accordance with Board guidelines and Education Code requirements.
- D. BE IT RESOLVED, that the Governing Board receives the Monterey Peninsula College Foundation's Annual Audit Report for the year ending December, 2009.
- E. BE IT RESOLVED, that the Monterey Peninsula Community College District Governing Board does hereby express its sincere appreciation and gratitude to Peter Baird, Steve Emerson, Elinor Laiolo, and Sondra Rees for their service as members of the Citizens' Bond Oversight Committee.
- F. BE IT RESOLVED, that the appointment of J. Stewart Fuller, Niels Reimers, J. Alan Fagan, and Antron Williams as members of the Citizens Bond Oversight Committee, effective November, 2010, be approved.

- G. BE IT RESOLVED, that the following courses be approved:
- 1) AUTO 115 Hybrids and Alternative Powertrains
  - 2) LETP 222 Child Victims Interviewing
  - 3) WRLD 408 Late Renaissance and Reformation (1520-1600)
  - 4) WRLD 409 Fountains of the Modern World (1600-1690)

Mr. David Talcott  
525 Loma Alta Road  
Carmel, CA 93923

Dear Mr. Talcott:

It was with so much sadness that we learned of your mother's passing. She was a very special friend to Monterey Peninsula College for all the reasons noted in the presentation of the 2008 President's Address recognizing her with the prestigious President's Award that year.

Additionally, Peggy served for many years on the Academic Excellence Awards committee of the MPC Foundation. In this role, every semester, she would review proposals from faculty and staff of the college requesting funds for professional development, instructional materials or anything else that would enhance the student's experience in the classroom. Because of her passion and experience, she added so much to the discussion. She will be sorely missed.

Peggy was also one of the founding women having started the Women Support Women Fund at MPC. Over ten years ago, a group of women asked one hundred women to donate \$100 thereby creating a fund of \$10,000 for emergency expenses for female students at MPC. But it didn't stop that year. Today, that fund has over \$100,000 at the Community Foundation for Monterey County and about \$40,000 here at the MPC Foundation. Our fund is not an endowment. It is meant to help students now. From bus pass money to rent to utility and medical bills—these funds have enabled innumerable women, and some men, to continue their studies.

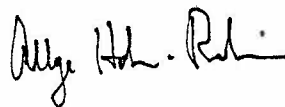

In honor of your mom, the MPC Foundation is making a gift of its unrestricted funds to the Women Supporting Women Fund. We are also adding a tile with her name in front of the Library and Technology Center. These gestures are small but meaningful to us as we remember all that Peggy did to help this college and the Foundation.

Please know that our thoughts and prayers are with you and your families.

Sincerely,

Dr. Douglas Garrison  
Superintendent/President

President  
CSUMB  
Seaside, CA 93955

**PERSONAL AND CONFIDENTIAL—FORMAL ACADEMIC/ADMINISTRATIVE COMPLAINT**  
*Via Hand Delivery to MPC, CSUMB – 29 September 2010*

To Whom It May Concern:

After former notification to CSU Systemwide and CCC Systemwide and no apparent response and/or action from either administration, within the 180 days allowed under statute and/or regulation, formal complaint alleging discrimination based upon protected classes of age and ethnicity/race is filed against CSUMB and MPC based upon the “Al Gore” event at the Golden State Theater in May 2010, sponsored by CSUMB and recruited to involvement through MPC.

During this event, at least two older Caucasian volunteer docents, who had been previously advised on guaranteed seating as a result of extended volunteer service and training for the event, were removed from the theater. At the same time, younger ‘volunteers,’ some of whom had no academic connection to MPC and/or CSUMB, including extended family members (clear nepotism) remained for the event, either longer or to its conclusion. The further participation of the City Manager of Monterey (against whom valid pending multiple complaints had been timely filed with eventual concession on issuance of business licenses to this complainant, as required under state statute) is problematic related to this event.

It is further alleged that unsafe and/or unhealthful conditions were perpetrated on student participants through restriction of public exits, blockages of required open passages, and restroom malfunction. Additionally, privacy of students was directly violated through picture taking and/or video/audio recording to which no release was executed by this student and this student was harassed on public thoroughfare by demonstrators and media.

Knowledge of these behaviors went to the level of Ms. Panetta and the MPC lead faculty based upon direct recognition of event exclusion from these students/volunteer participants.

Claims are asserted against MPC and/or CSUMB along with associated faculty with regard to this alleged unlawful action which apparently violates not only each campus policy of inclusion and non-discrimination but also campus safety/health policies and federal as well as state statutes and/or regulations concerning discrimination practices.

Good day.

A handwritten signature in black ink, appearing to read "R. Willis", written in a cursive style.

Richard J. Willis

OCT 04 2010

**October, 2010**

**From: Jason N. Patch**

**To: Monterey Peninsula College**

**Attn: Governing Board of Trustees**

**Regarding: Massage Therapy Program – To Good to Be True?**

I have been involved in the Massage Therapy Program off and on for the past 15 years - once to do the practitioner program (1996) and a second time to compete a massage therapist certificate (2009) during which time I served as an assistant (additional office hours) to Lynda Johnson, who has a secondary profession as a Computer or Business Skills teacher at Monterey Peninsula College.

When I returned to complete my Massage Therapy Certificate I wrote a letter to the director of the program, Paul David Tuff, writing I thought the way the program is structured in appropriate way, and numerous people would superficially agree, but that was before I did a lab or really thought about it. It doesn't seem like anyone but Paul really takes the program seriously. I don't think many students would agree to work without any amenities such as water or sheets. It's easy to get frustrated by the number of people doing massage. It seems like anyone and everyone is picking up a table these days and calling themselves a massage therapist. On the other hand, it seems like massage can be done for general health, but also because someone has a special condition such as Asperger's Syndrome – which are both reasons why I came back in 2009 was that I was provisionally diagnosed in 2008. After going through the program I felt it really did nothing for me. Taking an aspirin seemed to do more than massage. I wasn't satisfied after working with numerous students. The soft science nature of massage makes it controversial.

I really don't know what the answer is, but the current program is not sustainable. The way the money is being spent doesn't seem to be appropriate. I know numerous people such as the public and faculty try to benefit from the program, but it seems difficult to measure success. In other words, the way it is set up there is too much room for abuse. As a result, I think it's difficult to be taken seriously.

Thank you for your time and attention to this matter, Sincerely,

*Jason Nathaniel Patch*

Dr. Douglas Garrison  
President, Monterey Peninsula College  
980 Fremont Street  
Monterey, CA 93940

Dear Doug:

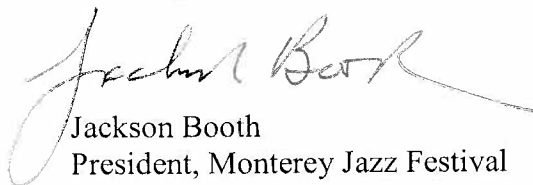

On behalf of the Monterey Jazz Festival, I want to extend my thanks to you and Monterey Peninsula College for donating your parking areas to our Festival patrons again this year.

This year, as in the past, we continue to receive wonderful comments from our patrons and volunteers who appreciate the ability to park in an area so convenient to the Festival and just a short shuttle ride to the Fairgrounds entrance.

We would also like to express our sincere thanks to everyone at MPC who worked closely with our MJF staff to plan the logistics of the parking on Festival weekend and ensure a safe, secure and enjoyable experience for our Festival attendees. Our event brings thousands of visitors to the Monterey Peninsula who patronize all our local businesses and the excellent parking facility at the college is an important part of their Monterey experience.

The Festival Board and staff are extremely appreciative of our partnership with Monterey Peninsula College and look forward to working with you and your staff again in 2011.

Best Regards,

Jackson Booth  
President, Monterey Jazz Festival

October 7, 2010

Assemblymember Bill Monning  
27<sup>th</sup> District  
99 Pacific Street, Suite 555D  
Monterey, CA 93940

RE: Education Center at Marina– Freeway Sign

Dear Assemblymember Monning:

I am contacting you on behalf of the Monterey Peninsula College District in regards to our new Education Center at Marina. We have been operating out of portable buildings for the last two years while we complete construction on our new permanent facility scheduled to open in the fall of 2011. This facility is much anticipated in the community and will provide new educational opportunities for North Monterey County. We fully expect to attain 500 Full Time Equivalent Students by next fall. This educational center is master planned for approximately 1,200 FTES.

The college's ability to attract new students will be directly tied to the marketing of our new educational center. I have been in contact with Caltrans to locate permanent freeway signs to increase exposure and to provide directional assistance. We have called Caltrans' District 5 office to inquire about steps necessary to have the signs installed. Caltrans staff (Steve Senet and Mark Bewely) directed us to Vehicle Code Section 21375 (attached) which explains the criteria for the installation of freeway signs for public postsecondary education institutions. The code stipulates that the institution must attain 1,000 full-time students before Caltrans will consider installing the sign. The other condition is that private donations are available to fund the work.

In light of the importance of this new education center to the community, the Monterey Peninsula College District is prepared to pay for two signs before we reach 1,000 full time equivalent students. In explaining this to Caltrans staff, they have indicated the code does not permit this option and offered no recourse. I find their response short sighted given the importance of public education to this community. I respectfully ask that your office assist us in facilitating this matter with Caltrans.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen G. Ma", written over a horizontal line.

**Subject:** Passing of Larry Cummins, September 21, 2010

### ***FROM OUR FRIENDS IN THE PE DIVISION, AND ON BEHALF OF DR. DOUG GARRISON:***

It is with a feeling of loss and sadness that we in the Physical Education Division learned of the passing of Larry Cummins on Tuesday, September 22. Larry served the college as an instructor, coach, division chair and athletic director from 1960 to 1993.

Larry was raised in the Northern California town of Willows where he was a legendary high school athlete. Upon graduation, he signed a professional baseball contract with the St. Louis Cardinals with whom he played six years reaching Triple-A level. Larry returned to college following his baseball career and earned a degree in Physical Education from Chico State University. He began a successful high school coaching career at Clarksburg High School near Sacramento, eventually moving to Gustine High School. Larry became acquainted with the Peninsula by bringing his basketball teams to the Carmel High Tournament. His successful high school teams caught the attention of then MPC Athletic Director George Porter and President Fred Huber who hired Larry in 1960 to coach basketball and baseball.

Larry had a successful coaching career at MPC with both baseball and basketball. He achieved over 200 wins in basketball and was inducted into the California Community College Basketball Coaches Hall of Fame. Under his leadership, the Lobos captured conference championships in both basketball and baseball. Athletes he coached included Carsbia Anderson, Sal Cardinale, Mel Mason, Lyndon Schutzler and his sons Mike and Mark, both of whom are successful baseball coaches. Larry also coached Charlie White, who in 1963 became the first African American to play basketball for Oregon State University.

Larry served as the Physical Education Division Chair from 1970 until 1983. He was instrumental in the construction of the current gymnasium. Prior to that construction, MPC basketball teams practiced in the Armory (now DA Building) and played their home games at Monterey, Seaside or Carmel High Schools. Larry was Athletic Director from 1989 until his retirement in 1993.

Larry enjoyed his retirement which included weekly golf matches with his long-time MPC colleagues Luke Phillips and Chris Pappas. Larry was an easy going person with a great sense of humor. He was committed to the college and the students he coached. He made a lasting contribution to MPC, the Physical Education Division and the community.

**A service honoring Larry will be held at 2:00 PM, Wednesday, September 29, at Shoreline Community Church on Garden Road in Monterey.**

**Subject:** Employment Development Department-Operation Welcome Home at MPC

Dear MPC Faculty and Staff,

The Employment Development Department, Operation Welcome Home, will be coming onto the MPC campus every Wednesday starting September 29, 2010 until the end of the semester to provide veterans and their dependents with referrals to jobs, supportive services, unemployment benefits, etc. They will be located in the Student Center in the Almaden room from 9am-3pm starting next Wednesday. Please contact the Veterans Workforce Specialist, Fahn Bryant, with any questions by phone (831) 233-0819 or email [fahn.bryant@edd.ca.gov](mailto:fahn.bryant@edd.ca.gov).

# You served, now let us serve you.

California veterans have sacrificed much and have served our country well protecting the freedoms we all enjoy. The Operation Welcome Home Initiative was launched to help California veterans transition to civilian life once their military service ends.

As part of Operation Welcome Home, the California Employment Development Department has hired a significant number of veterans to serve in the CalVet Corps. CalVet Corps members have been deployed throughout the State to help veterans learn about the benefits and services available to them.

CalVet Corps members can assist or provide veterans with information on **Unemployment insurance, Health care and education benefits, Employment services, Counseling referrals, Job referrals, U.S. Department of Veterans Affairs benefits, Housing programs, Employment benefits such as Veteran's Preference Points, Workshops and training opportunities.**

To speak to a CalVet Corps member, find your local One-Stop Career Center at [www.edd.ca.gov/Office\\_Locator](http://www.edd.ca.gov/Office_Locator), or complete a Reintegration Form online at [www.calvet.ca.gov/VetService/reintegration.aspx](http://www.calvet.ca.gov/VetService/reintegration.aspx) and a CalVet Corp member will contact you.

EDD is an equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities.

## **MPC Notes October 1, 2010**

As we enter October, we have settled well into the fall term. Everyone is busy, but I wanted to take a moment to update you on some important developments.

**Budget:** Well, we still don't have one from the state. Recent news reports indicate that the Legislature is closer to an agreement though little detail is available. At present, we have heard nothing that undermines MPC adopted budget, and in comparison to other state supported functions, community colleges appear to be treated fairly well. There may even be a growth factor available. As soon as a budget is passed, information will be shared through the Budget Committee, College Council, and the advisory groups. In the mean time, the need to monitor expenditures carefully continues.

**Retirements/Resignations:** At this point in the fall term each year, faculty members who are retiring present their letters and planning begins within their divisions to consider replacement positions. To date, four letters of retirement or resignation have been received from Mark Bishop, Gail Fail, Richard Kezirian, and Sarah Mawhirter, all effective the end of the spring term except Sarah who leaves at the end of fall. Additional letters may still come in before the Academic Affairs Advisory Group meets to recommend faculty replacement positions in mid-October. In addition, Vice President John Gonzalez has announced his intention to retire at the end of the fall term. A search process is being started this month, and planning for addressing Academic Affairs issues in the interim is being developed. We recognize and appreciate the collective contributions of all these colleagues and wish them well. Watch them carefully. You might notice a lighter step as they move about campus.

**Institutional Goals:** The College Council, co-chaired by Alan Haffa and Brenda Kalina, is in the midst of assessing how well the college achieved its 2007 – 2010 Institutional Goals and will be using the results of that review to develop the 2010 – 2013 Institutional Goals. The Council will also review the college Mission Statement. Input on both will be sought from our governance structure and through open forums. Specific dates for opportunities to join in this dialogue will be announced.

**Becoming a Multi-Site College:** Last year, the MPC Public Safety Training Center opened in Seaside, the site of our Fire Academy and Police Academy. Currently, the first phase of the Education Center at Marina is under construction. If you drive by the site on 3<sup>rd</sup> Avenue and Imjun Road, you'll see the buildings beginning to take shape with occupancy no later than fall 2011. The opening of these two permanent college facilities formalizes the multi-site status of Monterey Peninsula College. Having multiple permanent sites in the district is very different than having one campus and several rented

or temporary sites. With permanent sites, the college must examine budget structures, staffing patterns and job descriptions, organizational relationships, policies, and procedures. In an effort to raise some of the important questions associated with this important institutional change, I drafted a report this summer called *Becoming a Multi-Site College: An Outline for the Future of Monterey Peninsula College*. This document has been reviewed initially by the PVP group and the Dean's Council and is being reviewed now by the advisory groups and the Academic Senate. After collecting their feedback, an updated version will be distributed to College Council, and an open forum will also be held to provide an opportunity for those not involved in the governance process to learn about this important institutional change. Finally, this document will be presented to the Board of Trustees at a study session designed to give them an extended opportunity to consider these issues.

**Distance Education Task Force:** One of the recommendations from the Accrediting Commission resulting from our visit last March addressed the need to enhance our distance education program. To that end, a Distance Education Task Force has been formed chaired by Dr. Judee Timm. This institutional task force includes faculty, classified and administrative members. Their tasks are to examine our distance education program, recommend changes to enhance its effectiveness in compliance with accrediting standards, and draft the follow up report to ACCJC due in October 2011. We thank all the task force members for their willingness to serve.

**Importance:** High

From Caroline Carney

You will find in your campus mailbox a new “College Success” brochure which lists campus resources to support students achieving their goals.

Just a reminder about our College Success tab on the front page of the MPC website <http://www.mpc.edu/GotSuccess/Pages/default.aspx> . When you click on it, you will find campus resources on the left hand side, including a “For Faculty” link to answers to common questions instructors have and teaching resources <http://www.mpc.edu/GotSuccess/Pages/ForFaculty.aspx> . On the right hand side are listed helpful strategies for students.

This month the focus is on:

- Tutoring and Learning Resources <http://www.mpc.edu/GotSuccess/Pages/AcademicSupportServices.aspx>
- Reading Strategies <http://www.mpc.edu/GotSuccess/Pages/ReadingStrategies.aspx>
- Healthy Lifestyles <http://www.mpc.edu/GotSuccess/Pages/HealthyLifestyles.aspx>
- Test taking <http://www.mpc.edu/GotSuccess/Pages/TestTaking.aspx>

Please explore the site yourself and take a minute and tell your students about it.

Also, remember that this site is public with no password required, so share the information with high school students and others in the community!

P.S. If you have any suggestions for improvement or additional resources, please contact Caroline Carney [ccarney@mpc.edu](mailto:ccarney@mpc.edu)

## MPC Notes October 11, 2010

A few brief updates:

- Budget News:** Well, we finally have a state budget. And, as is often the case with state budgets, it offers a mixed bag. The budget provides for 2.2% growth system-wide, the first time growth has been included for a couple of years. However, since the budget was not passed until mid-October, few colleges will be able to promote any growth for the fall term. In fact, many colleges cancelled their summer sessions. This situation leaves only the spring term to try to achieve the funded growth, which may be challenging for all but the biggest colleges. MPC adopted a strategy of replacing off-campus, non-credit FTES with on-campus, credit FTES. As a result, the fall and spring terms have been structured to gain growth in the credit program that will replace the non-credit courses – but not necessarily result in growth overall. We will review the spring schedule to see if any additional growth is possible. Any growth funds would be received in the 2011-2012 budget year. The state budget also includes funds for categorical areas, economic and workforce development, and career technology programs. We do not yet know the amounts that MPC will receive in these categories, but none of those funds will be paid out until July 2011. So, again, the impact is in the 2011-12 budget, not this year. And then there is the other side of story. The state budget is based on two questionable assumptions: 1. The federal govt. will provide \$5.3B in funds – but only \$1B has been funded so far; 2. The state economy will grow providing \$1.4B additional revenue in taxes. These assumptions will be tested over time. My concern is that the new governor and legislature who inherit this budget in January may re-open the document and make changes based on the validity of these assumptions at that time. The message from the Chancellor's Office is to prepare for the growth funds and be aware that mid-year budget cuts may occur. MPC's approved budget for 2010-2011 was built on sound principles, and no changes are necessary at this time. The performance of the state economy and the decisions of the federal government are beyond our reach. We've worked hard to remain fiscally stable, which has allowed us to weather these challenges. We will weather whatever budget conditions appear in the spring as well.
- SB 1440 – The Student Transfer Achievement Act:** You may have seen coverage in the newspapers, on-line, or on television recently about Senate Bill 1440, which was signed by the Governor. The statute establishes a transfer associate degree for those students who have completed 60 transferrable units that include general education and major preparation courses. Community college students that obtain the associate degree designated for transfer will be admitted to the CSU with junior standing.

However, there are numerous details that need to be clarified, including the correction of some CSU regulations that negatively impact some community college students, including students from MPC. As a result, a state-wide task force has been formed to work through these details. I am happy to announce that Vice President Carsbia Anderson has been named to this state-wide group and will be representing our interests. The full membership of the task force includes:

Pamela Deegan, vice president of instructional services, MiraCosta College  
Carsbia Anderson, vice president for student services, Monterey Peninsula College  
Daniel Nannini, transfer center coordinator, Santa Monica College  
Jane Patton, president, CCC Academic Senate  
Michelle Pilati, vice president, CCC Academic Senate  
California Community Colleges student representative

Thank you, Carsbia, for volunteering to serve.

**MPC to hold banned books reading**

The public is invited to attend a reading of excerpts from banned books 1 to 3p.m. Wednesday at Monterey Peninsula College.

MPC's Creative Writing Club is sponsoring the event in the Sam Karas Room of the campus Technology & Learning Center.

Student club members, faculty and staff members will read from books banned or challenged at U.S. schools or libraries.

A raffle of banned books will accompany the event. The raffle is Monday through Thursday in the garden outside the Technology & Learning Center.

## Learning glass-blowing shatters business career

BY DEE MYERS • FOR OFF 68 • SEPTEMBER 24, 2010

When Nick Leonoff, a former resident of the Highway 68 corridor, was a student at Monterey Peninsula College pursuing a business degree, he worked as an apprentice to renowned Carmel Valley stained-glass artist, Alan Masaoka.

In 2000, Leonoff put glass aside and went on to earn his

bachelor's degree from Pepperdine University. His first job was in the banking field in southern California, but soon his enthusiasm for the business world waned, and he returned to the Peninsula, once again assisting in the glass studio.

Leonoff had always focused on business and never took an art class in high school or college. Masaoka taught him how to blow a bubble in molten glass and, thus, form the basic shape of a vessel. Leonoff's passion for glass-blowing was ignited.

He became intrigued with the process of glass-blowing and the intensity of working with a molten medium that can quickly take form in a solid state. There is an urgency to create in that moment of time that requires both patience and spontaneity as the glass is heated, blown and sculpted into its final form. The finished products are luminescent in an array of colors and forms.

In 2005, Leonoff took his first course at the Bay Area Glass Institute in San Jose. Since then, he has studied glass technique at some of the most prestigious glass centers in the country, among them the Corning Museum of Glass in New York, the Haystack Mountain School of Crafts in Maine, and the Pilchuck Glass Studio in Washington.

In only five years, Leonoff's work has matured. His portfolio includes functional and sculptural vessel forms, wall sculpture, custom lighting, and decorative fruit, pumpkins and hearts. Currently, he is preparing hundreds of pumpkins of various sizes and colors for the Glass Pumpkin Patch, an annual benefit for the Palo Alto Art Center and the Bay Area Glass Institute that features the work of many glass blowers.

Locals may see his work at Art in the Pastures of Heaven, today, Sept. 24, at Episcopal Church of the Good Shepherd or at Harvest Farm-to-Table Festival at Quail Lodge this weekend.

**Southern Comfort**  
BBQ & LIVE AUCTION  
South County's Best BBQ & Live Auction

Leonoff also participates in the annual American Craft Council Show at Fort Mason in San Francisco, art festivals in Marin, Mill Valley, Millbrae and Los Gatos, as well as the Carmel Valley Christmas Fair and Carmel Homecrafters' Marketplace.

His work is also exhibited at the Masaoka Design Gallery in Carmel Valley Village. He is becoming known on the East Coast after a private showing in Manhattan.

Most people think of glass as strictly utilitarian; it keeps the rain from coming in, allows us to see ourselves in mirrors, drink conveniently from glasses and view the world clearly through spectacles. But glass is one of the oldest forms of art, dating back about 3,500 years ago, possibly to Phoenician times, eventually brought to North America by the settlers of the Jamestown colony.

In 1962, the Toledo Museum of Art presented two workshops where Harvey Littleton, Dominick Labino and Marvin Lipofsky started experimenting with melting glass in a small furnace and creating blown glass art. They are credited with being the first to make molten glass available to artists working in private studios.

### More Off 68 Headlines

- Arson suspected in Sept. 15 vehicle fire in Las Palmas Ranch II
- Toro Bulls win two of three games against Carmel
- Olivia Yates: Therapeutic camps help children heal, families bond
- First Monterey Green Fest scheduled for Oct. 9

This approach to glassblowing blossomed into a worldwide movement, moving glass art from the factory to the individual studio which created room for individualism rather than mass production.

So, rather than the confinement of an office in a suit and tie, Leonoff works in the fresh air with a blow pipe, three furnaces, a few tools and molten glass, making one-of-a-kind works of art with continuing enthusiasm and inspiration.

An art show patron wrote this accolade, "Many gifted artists come here to show their talents. At first, you think a pumpkin is a pumpkin is a pumpkin, but soon you start to realize that all pumpkins are not created equal. One maker last year, Nick Leonoff, is the pumpkin artist. When you see his, all the rest become just the 'other' pumpkins."

## West Hills edges MPC in shootout

By DAVID COFFIN  
Herald Correspondent

Posted: 09/26/2010 01:34:38 AM PDT

Updated: 09/26/2010 01:34:39 AM PDT

Two failures to execute in the red zone resulted in a pair of Eduardo Ochoa field goals and eventually cost Monterey Peninsula College a 39-34 loss to visiting West Hills College of Coalinga Saturday night, negating a furious fourth-quarter rally led by sophomore quarterback Daniel Connors.

The Lobos were down 21-3 at the half and 27-6 entering the final period when they showed a spark that might just carry into Coast Conference play.

MPC has been using a two-quarterback system, but Connors took over in the fourth quarter and completed a total of 18 or 29 passes on the night with no interceptions for 186 yards and three touchdowns and ran in another in himself from seven yards out.

Connors, out of Pacific Grove High, and sophomore Bret Chernetsky out of Palma were on the same page much of the night and the 6-foot-2, 222-pound receiver hauled in nine passes for 157 yards and one score. Chernetsky proved to be the most sure-handed of the Lobo receivers and consistently got open. Five of his grabs went for first downs and he had receptions of 47, 15, 24 and 39 yards among his nine catches.

"We didn't finish drives in the first half," said MPC coach Mike Rasmussen, whose Lobos fell to 1-2 while West Hills won its first game in three tries.

Another huge factor was the Lobos' inability to stop West Hills runners once they reached the secondary, resulting in several long TDs.

"We had some missed stops," understated Rasmussen. "But in the second half we executed

better (on offense)." That gave MPC some hope for the future. "The difference was the two field goals (instead of TDs because we didn't finish drives."

MPC had a first-and-goal at the 4-yard-line in the opening period and a first down at the West Hills 11 in the third period before having to settle for field goals in both cases that made the score 21-6.

"We didn't really do any different in the second half except we executed better," Rasmussen concluded.

Kyle Graf, a freshman from Benson, AZ, was again the workhorse in the backfield with 22 carries for 77 yards.

## Lawrence Warren Cummins

July 9, 1930 ~ September 22, 2010

CARMEL, CA – Larry Cummins, 80, passed away peacefully surrounded by his family on September 22, 2010. Larry was born in Willows, CA on July 9, 1930, the only child of Louise and Lawrence Cummins. He graduated from Willows High School in

1948 where he was a three-sport star athlete. Upon graduation he signed a professional contract with the St. Louis Cardinals baseball team and he played eight years in the minor leagues. Later, he graduated from Chico State College.

Upon retirement from professional baseball Larry embarked on a 30-year career as coach and educator. His first stop was Clarksburg High School, followed by Gustine High School and his final stop was Monterey Peninsula College where he coached both basketball and baseball until his retirement in 1992. He is a member of the California Community College Basketball Coaches Hall of Fame.

Larry touched many lives during his lifetime and was known for his quick wit, friendly smile and kindness to all. He enjoyed his retirement by playing golf with his best friends, traveling, cooking, and spending time with his family.

Larry was preceded in death by his parents; his aunt, Kathryn Earhart; and his first wife, Marilyn Thompson, with whom he had two sons who followed in their father's profession of teaching and coaching.

He is survived by his current wife, June Bug Cummins; son, Mike Cummins and wife, Velma of San Carlos and their children, Lawrence Cummins (Idaho), Patrick Cummins (Oakley, CA), Vanessa Cummins and Marilyn Cummins; son, Mark Cummins and wife, Lisa of Morgan Hill and their children, Andrew Cummins (San Jose), Matthew Cummins (San Francisco), Katrina Luscher and Kyle Luscher; step-daughter, Abbi Smith of Santa Fe, NM and her son, Kevin Ayapan-Smith; and step-son, David Smith of Monterey and his daughter, Lucy Smith.

The family would like to express their gratitude to the following doctors and their staff: Dr. Eftimie, Dr. Centurian, Dr. Shaheen, Dr. Tamler, Dr. Inlow, Dr. Poggemeyer, Dr. Hightower, Dr. Gorelick, Dr. Katz, Dr. Verlender, Dr. Light, Dr. Housdorf, Patricia McDermott, Dr. Sato, Dr. Dimitrus and to the staff and nurses of East Main at the Community Hospital of the Monterey Peninsula.

A celebration of Larry's life will be held at 2:00pm on Wednesday, September 29, 2010 at Shoreline Community Church located at 2500 Garden Road in Monterey. As a thank you to the pastors and staff at Shoreline Community Church, in lieu of flowers, please make any contributions to the church.

# LOBOS LEGACY

LONGTIME MPC COACH LARRY CUMMINS  
TOUCHED MANY LIVES IN 80 YEARS OF LIFE

Special to The Herald

Larry Cummins, right, and Chris Pappas, left, coach the MPC baseball team in the 1970s.

Larry Cummins left the world a little better place. "Wouldn't it be nice if we could say that about everyone we came in contact with?"

Larry's peers at Monterey Peninsula College, where he coached baseball and basketball, and those in the California Community College Basketball

Cummins

Coaches Hall of Fame, of which he was a member, all used words like classy, respect, caring, teacher/mentor, blessing to others and so on in describing the genial man of integrity, who placed his role

as educator higher than that of coach.

Cummins, who passed away this past Wednesday (Sept. 22) at the age of 80 touched hundreds, if not thousands, of lives along the

way. He took great pride in turning youngsters who came to MPC into young men and women of character.

"There are 100s of guys he influenced in positive ways," said Chris (Pappy) Pappageorgas (Pappas), who was Athletic Director (and an assistant football coach) for decades at MPC before he retired. "He took personal interest in helping kids grow p right.

"He was not a person of

Xs and Os with all his kids. Whether they were second or third stringers, to him, they were all the same. He had a great interest in kids; he got the most out of his players."

## David Coffin

depitstop2@es.com  
Pitstop

Luke Phillips, who was a legendary football coach at MPC and could be volatile both on the practice field and come game time, held Larry in the utmost respect.

"He was a low key, quiet, calm, patient type of coach," Phillips said. "He was controlled, reserved and he never lost his temper - he was the opposite of me. He was a gentleman and conducted himself that way. He earned your personal respect with his honesty. He

## Service

► A Memorial Service for Larry Cummins will be held Wednesday (Sept. 29) at 2 p.m. at Shoreline Community Church, 2500 Garden Road in Monterey. The family suggests in Lieu of flowers contributions in Larry's name be made to the Church.

was a role model for his athletes.

"Larry was admired and respected in coaching by his peers. He replaced Pete Newell (another legend who went on to fame at USF), who was his mentor.

"And, he was a devoted family man. He was very proud of his two boys (with his late first wife, Marilyn

Please see **Cummins page D4**

# Cummins

From page D1

Thompson) who followed in his footsteps. Mike is the head baseball coach at San Francisco State and Mark is the (long time and successful) baseball coach at Live Oak High."

Larry had an opportunity to be involved in raising a second family when he married June Bug Cummins, who survives him, as do step-daughter Abbi Smith and step-son David Smith and their children.

A sterling example of Larry's devotion to helping young people turn their lives around and mature into productive human beings is Mel Mason, perhaps the greatest player to come out of Monterey High and MPC.

Mason played his freshman year at MPC in the 1960-'61 season, then enlisted in the U.S. Air Force. After three years, he left with, by his own admission, a less than honorable discharge. "I came back with a different (dangerous) lifestyle," Mason said.

"In 1965, he talked to me about coming back to college," Mason added. "We talked several times and I told him I was not interested."

Mason said he had become involved in drugs, alcohol and fighting. He was headed down a dangerous road.

"Larry found out how I was living," said Mason, who added other schools were interested in him just as a basketball player.

"Then his emphasis became getting back into school and away from a life of danger. He focused on me (as a person).

"He enlisted the help of my mom (Eloise Wells) and (late) step-father. He was a great human being. What he did for me was beyond the normal. He got me back into basketball when my life could have gone a different way. I came back and set records that still stand (Mason was a scoring and rebounding machine)."

Mason, who later went on to get a bachelor's and master's degrees as well as some other honors, made JC All-State and All-American.

But, aside from the basketball honors, "Larry had a lot of influence on me not just as a coach, but because I was a human being," said Mason, who later worked as an assistant coach with Cummins (from 74-76).

"It really was one of my joys when I worked with him as an assistant coach because of his interest in the players as human beings," Mason said. "Not many get (basketball) scholarships, but they do get an education ... and become a professional at something else."

Mason is a past two-term president of the local NAACP from 2002-2006 and was elected state vice president from 2007-'09.

Larry's influence is still visible in the "Village Project," which he and his wife started, "As a resource for young people," Mason said. "Larry and June have been big supporters with us since 2008.

Cummins' friendship with Pappas and Phillips was something to be envied.

"Chris and I and Larry played (golf) maybe 30 years three times a week at Old Del Monte," Phillips said. "We were very competitive; we never gave any strokes."

At the same time, "The three of us were like brothers," Phillips said. "We had a strong bond we shared. A lot of other coaches complimented us and said they wished they had that same thing.

"He was kind and gentle. He was competitive but he kept it under control."

I covered Larry through much of his coaching career and he was always the same. Win or lose, he was always gracious in his interviews. He always sought to come up with the positive. He was a man of dignity and very honorable.

Phillips agreed and noted, "Everybody loved him."

Of the three, Phillips probably had the strongest sense of humor. He told Larry, "He could have been a stand in for Jimmy Stewart (there were a lot of similarity in looks and demeanor).

"We had a wonderful life together. We may (all) be in Heaven right now and not even know it. All three of us valued the experience of living on the Monterey Peninsula."

"On the court and the baseball field, he was quiet and unassuming," Pappy said. "He was introspective and reflective. He was a Bill Walsh type (ironically, Cummins and Walsh became friends).

"The three of us were very competitive, but we never questioned each other. Luke did tease Larry a lot."

When we played golf, "It was four hours of great companionship. The golf was incidental."

Phillips is the eldest of the three (he'll be 83 next month), Larry passed at age 80 and Luke said Pappy is "the kid" of the threesome at 79.

Pappas concluded, "It was a blessing to know Larry."

"He left a great legacy at MPC," Luke said. "He was a man of Principles."

## Salinas teenager chosen for FFA nationals

### Alvarez grad learned dedication to landscaping from father

BY GRISELDA D. RAMIREZ •  
gramirez@thecalifornian.com • October 5, 2010

Ten years ago, Jorge Razo of Salinas began his own business designing and maintaining gardens and lawns. He would take along his son Jorge Razo Jr., then 8, to translate for him with clients. But his curious son grew eager to learn how to manage the tools and machinery used to landscape.

Now, Razo Jr., a 2010 graduate of Everett Alvarez High School, is one of four people in the United States chosen to compete for a National Future Farmers of America award in Indianapolis, Ind., this month. The Proficiency Award in Landscape Management and Entrepreneurship recognizes outstanding student achievement in agribusiness gained through hands-on experience.

"I like working with plants and being able to design something to make it look beautiful for someone," Razo Jr. said. "It's a good feeling."

Razo Jr. has since made a name for himself throughout the Salinas region as a residential and commercial landscaper, including working at bank-owned foreclosure properties to prevent neighborhoods from becoming run-down.

He said the early father-and-son bonding taught him about responsibility, hard work and hands-on design as he developed techniques of trimming trees, mowing lawns, planting trees and flowers, fertilizing lands and customer service.

### Family, FFA proud

Razo Jr.'s work earned him first place at the state competition in Fresno in April, where judges reviewed pictures and descriptions of his landscaping. He said he also filled out a tough application, presented financial records of his father's co-owned business, the number of hours worked on landscaping projects and the management skills learned on the job.

"I have to admit I was kind of nervous to go on stage

for the interview process," Razo Jr. said. "I was shocked when I won."

His high school horticulture instructor, Felicia Rush, and FFA adviser and senior teacher, Janice Souza, said Razo Jr. has all the qualities and work ethic to take him to the top at the national competition. Souza, a science teacher and Alvarez's FFA adviser for 11 years, said she has seen Razo Jr.'s ability to communicate in an interview setting improve over the three years she has known him.

"At the state competition, he was so poised when he explained his landscaping project," Souza said. "I am so proud of him."

His father is also proud.

"I don't have the words to explain how tremendously proud I am of my son," Razo said. "It makes me so happy to see him continuing his education doing what he loves."

Razo Jr. is now a Monterey Peninsula College student who said he plans to get all of his general science education out of the way to transfer to a four-year university — either California Polytechnic University or California State University, Fresno — to study ornamental horticulture and business.

### First trip out-of-state

Razo Jr. said he could not be where he is now without the support of his FFA advisers and parents. Souza and a handful of Alvarez students will accompany Razo in Indianapolis on Oct. 21.

"I've never been outside of California," Razo said. "I'm really excited about this trip."

Meanwhile, he said, he is preparing for the final competition by continuing to work with his father and studying potential project questions.

"I can't stop learning at work with my dad," Razo said. "I learn something new about landscaping every day."

## First Complete Census of Marine Life Catalogs Yeti Crab, Darth Vader Jelly, and 6,000 More

By Dan Nosowitz Posted 10.04.2010 at 5:32 pm

Yeti Crab *Ifremer, A. Fifiis*

The first-ever Census of Marine Life was announced today, the result of ten years, more than 540 expeditions, 2,700 researchers, and 120,000 species documented (of which around 6,000 are new discoveries). And yes, before you ask: There is indeed a jellyfish that looks like Darth Vader's helmet.

The census is the result of an immense, groundbreaking undertaking, totaling about \$650 million over the ten years it took to complete. Never before has there been an attempt to document to the best of our ability the entirety of underwater life. The goal is to provide a sort of base level of total understanding of oceanic life. Discoveries in the future can be compared to this survey, helping us better understand which species are thriving, which are dying, which are changing and in what way.

About 1,650 new species were discovered every year, mostly invertebrates and crustaceans but also lots of new fish. The "yeti crab" pictured above is one of the aforementioned crustaceans, discovered in the Pacific Ocean, just south of Easter Island. The Darth Vader jellyfish, which is unfortunately not really called the Darth Vader jellyfish (it's actually a new subspecies of hydromedusa jellyfish called *Bathycorus bouillonii*), was discovered in the dark, deep waters of the Arctic Ocean. That's it below--see the resemblance? (Photo is via National Geographic.)

Hydromedusa (Darth Vader) Jellyfish: *Kevin Raskoff, Monterey Peninsula College*

The project brought the total number of discovered sea critters up to about 250,000, which is actually sort of low, considering many marine biologists estimate the number of non-microbial creatures at over a million. It also discovered that the populations of many large marine life species, including sharks, tuna, and sea turtles, dropped a whopping 90% due to overfishing, pollution, and rising sea temperatures. But the researchers hold out hope that their study may help preserve the state of marine life.

### Roundup: MPC volleyball takes care of Hartnell in three

BY RYAN WALLACE • [WALLACER@THECALIFORNIAN.COM](mailto:WALLACER@THECALIFORNIAN.COM) • OCTOBER 14, 2010

---

The Monterey Peninsula College women's volleyball team defeated Hartnell in three sets Wednesday evening in Salinas.

The Lobos prevailed 25-8, 26-24, 25-19 to improve their overall record to 12-6 and Coast Conference mark to 1-3.

Leading the way for MPC was Renee Estrella with five kills and two blocks and Heather Posey with four blocks. The Lobos are back in action Friday at home against Chabot.

# What is art?

A BLANK CANVAS OFFERS A COMPLEX VIEW INTO THE NATURE OF FRIENDSHIP IN THE AWARD-WINNING DRAMA 'ART' OPENING AT MPC

By LILY DAYTON  
Herald Correspondent

Despite what the title may lead you to believe, MPC Theatre Company's newest comedic drama is about much more than artistic merit.

When one man spends an obscene amount of money on a white canvas painted with white diagonal lines, his actions threaten the values of his longtime friend.

The two debate the meaning of art — and whether an essentially blank canvas that represents modern art has inherently more value than traditional, representational art that attempts to imitate life.

Though they drag another friend into the debate in an attempt to even out the score, this third friend's vacillations only make

HENRY GUEVARA/MPC Theatre Company

**Serge (James Brady), left, shows off the painting he bought to Marc (Ron Genauer), who looks on in utter amazement in the MPC Theatre Company comedy 'Art,' which previews tonight and opens Friday at MPC.**

matters worse.

As their arguments move from art to economics, friendship, intimacy and the values of society, these three men rattle their 15-year friendship to the core.

"Art" opens Friday night on the Morgan Stock Stage of Monterey Peninsula College, where it will run for two weekends only. There will be a preview performance tonight (Thursday).

Peter DeBono, Theatre Arts Department co-chairman, will direct the production, which stars James Brady as Serge, the modern art aficionado; Ron Genauer as Marc, the defender of representational art; and Michael Lojkovic as Yvan, who mediates between the two.

The creative team includes Dan Beck as technical director, Nichole Bryant-Stevens as scenic designer, Dennis Randolph as lighting designer and Gloria Mattos Hughes as costumer.

Originally written in French by playwright Yasmina Reza, this English language adaptation was translated by Christopher Hampton.

"Art" won the 1998 Tony Award for Best Comedy, the 1998 Laurence Olivier Award for Best Comedy, the 1998 Molière Award for Best Commercial Production and the 1998 New York Drama Critics' Circle Best Play.

DeBono saw the play when it first opened in London in 1996. He was immediately captivated.

"I was taken with it — it was such a revelation," said DeBono. "These are very big issues: What is art? What constitutes art for people?"

But perhaps the fact that this play uses the device of the painting to delve into bigger-picture questions of relationships and identity proves to be the most revealing aspect of this story.

"Art is symbolic of personal identity," said Brady. "What the play is really about is friendship and where personal identity comes from. Do we create our friends in our own image? Do we create our selves in our friends' images? When Serge buys the painting, Marc sees Serge going out of control, moving out of Marc's sphere of influence. He's becoming an individual identity. Moving away."

Brady compared the white canvas in the play to the essence of identity.

"It's almost like we are these blank slates, these empty vessels that are filled by our influences from others. Empty vessels moving through life defined by our relationships."

Added DeBono, "The painting is almost a fourth character. It's an ever-present image that is the crux of the

writing. The author gives us a lot to work with."

Though this looming subtext may be one of the work's challenges, Brady said it is also one of the most enjoyable parts of the play.

"That's what makes acting fun," he explained. "You can do the same 10 lines of dialogue 10 different ways just by your tone, posture, the words you emphasize — don't emphasize."

This subtext is also one of the most rewarding aspects for audiences, according to DeBono.

By the playwright presenting issues to the audience without explaining them, she is trusting the audience's intelligence — and hoping they will ponder these questions, formulate their own answers.

"Like any good artist, she doesn't identify everything," said DeBono. "Hopefully audience will be chewing around all these ideas in the play."

It may sound as though this play is full with heavy issues, but the story is not without its own sense of humor.

Much of the humor comes from the cynical jabs Serge and Marc make towards each other as well as the wispy-washin of Yvan waffling back and forth between the two.

According to DeBono, exactly this humor combined with deeper sentimentality makes this play so appealing.

"That's what theater should do: make you think, make you feel something, make you laugh or make you cry. If it can do all four, it's terrific. And I think this comes really close to it."

Lily Dayton can be reached at [montereybaylily@gmail.com](mailto:montereybaylily@gmail.com)

## THEATER OPENING

James Brady  
Serge in "Art"

conflict. The tension comes from what the characters are saying."

Or, as often as not, what the characters are not saying.

"One of the biggest acting challenges of this play is all the unsaid things," said Brady. "Marc and I have this long scene where we're trying to not talk about the painting. Yet we have this rift. He's making little jabs and comments and I'm trying to pretend I didn't notice. It's all in the tone of voice, the rhythm, how you emphasize certain words. It's all there in

DAVID ROYAL/The Herald

Keith Branton ran for two touchdowns against West Valley.

# Conference win good for what ails MPC

By **JERRY STEWART**  
*Herald Correspondent*

Conference play may just be the medicine Monterey Peninsula College was looking for.

Quarterback David Fales threw for a touchdown and running back Keith Branton ran in for two others, and the Lobos defense was huge, as MPC easily defeated visiting West Valley College, 36-9, in what was both squads' Coast Conference opener on a chilly Saturday night.

Entering the game, MPC was 1-4 and coming off a 27-13 loss to Solano College.

"It's an ongoing development of our football team," said Lobos head coach Mike Rasmussen. "It's about us growing as a football team. The intensity escalates with conference play."

The Lobos wasted no time in putting points on the board, putting together a solid 87-yard scoring drive on their first possession that was capped by an 8-yard TD

pass from Fales to wideout Jonathan Gregg.

In the second quarter, MPC's defense got going when defensive lineman Casey Frost scooped up a Vikings' fumble and rumbled down to the West Valley 29. Three plays and a 9-yard run from Gerran Gordon later, MPC upped the lead to 13-0 when Branton, who assumed the No.1 running back spot with an injured Kyle Graf out, scrambled into the end zone from 5 yards out.

West Valley (0-6), which came in allowing over 55 points per game, got a big play of its own with less than a minute left in the first half when Tyler Ippoliti hit receiver Ken Fox for a 42-yard gain. The Vikings, however, tried to make it two big plays in a row, and on Ippoliti's next pass he was intercepted by Seaside High product Chris Nguyen who returned it from the MPC 13-yard line to the

MPC Lobos	36
West Valley Vikings	9

## MPC

From page C1

Vikings' 11. Moments later, Eduardo Ochoa booted a 19-yard field goal to give MPC a comfy 13-0 lead at the half.

MPC's defense, led by front men Kodaro Rainey Ala, Darian Carter and Frost, allowed West Valley a mere 10 rushing yards and only three first downs in the first half.

"Our defense played hard and came up with some big plays," Rasmussen said.

Meanwhile, the Lobos offense kept clicking. MPC opened the second half with a 65-yard scoring drive that was capped by a 1-yard run from Branton.

West Valley got a 42-yard field goal from Dylan Frechette to make it 23-3, but MPC struck back on its next possession when North Monterey County alum Juan Hernandez scored on a two yard run to make it 30-3.

Branton, who hails from Miami, finished the evening with 123 yards rushing on 26 carries.

"Keith grew up a lot today. I was real proud of his effort," Rasmussen said.

Fales, who will be the starter the rest of the year with Daniel Connors lost to injury, completed 17 passes for 168 yards.

## COMMUNITY COLLEGE BILLS OF INTEREST

---

### CHAPTERED

#### **AB 185 (J. Perez) Education: Federal Funds**

**Analysis/Summary:** This bill appropriates \$903,845,000 from the Federal Trust Fund (Fund) to the Board of Governors of the California Community Colleges (CCC), State Department of Education, University of California, and the California State University for the 2010-11 fiscal year. The CCC will be appropriated \$5,000,000 from the Fund.

#### **AB 1713 (Furutani) California Community Colleges: Reporting Requirements (Sponsor/Support)**

**Analysis/Summary:** This bill consolidates the concurrent enrollment reporting requirements, moves the report for career development courses from March to July, and deletes the outdated reporting requirement on adult education and noncredit data collection.

#### **AB 1901 (Ruskin) Postsecondary Education: Master Plan for Higher Education (Support)**

**Analysis/Summary:** This bill adds the report of the Joint Committee for the Master Plan for Higher Education. It also establishes legislative intent that the committee be used as a guide for higher education policy.

#### **AB 2086 (Coto) Public Postsecondary Education: Federal Assistance: Publication of Professional Licensure Examination Passage Rates**

**Analysis/Summary:** AB 2086 requires postsecondary institutions to provide information regarding where the public may access license examination passage rates for the most recently available year, if data is electronically available through a web site of a state licensing or regulatory agency. Postsecondary institutions may choose to place an Internet web site address with the required data on the institution's enrollment, application, and/or program information materials. Responsibility for certification of compliance rests with the postsecondary institution.

#### **AB 2203 (Solorio) Public Postsecondary Education: College Textbooks**

**Analysis/Summary:** AB 2203 requires the California State University Trustees, and encourages the University of California Regents, to review internal transfer policies and revise transfer policies to ensure that textbooks selected for transfer or general education courses may be used by the student for as long as the information in the textbook is current and reflects contemporary thinking in the discipline.

#### **AB 2297 (Brownley) Community Colleges: Nonresident Fees**

**Analysis/Summary:** This bill allows local CCC governing boards to adopt a nonresident fee that is no greater than the average of nonresident fees of public community colleges in 12 states with comparable costs of living, based on a cost-of-living index as determined by the United States Department of Labor or a cooperating government agency.

---

STATE OF CALIFORNIA

CALIFORNIA COMMUNITY COLLEGES CHANCELLOR'S OFFICE

1102 Q STREET | SACRAMENTO, CA | 95811-6549 | (916) 445-4434 | [HTTP://WWW.CCCCO.EDU](http://www.cccco.edu)

**AB 2302 (Fong) Postsecondary Education: Student Transfer (Support)**

**Analysis/Summary:** AB 2302 complements the transfer pathway program established by SB 1440 (Padilla). The Chancellor's Office of the California Community Colleges and the California State University (CSU) are required to collaboratively develop effective methods of advising the public about the new transfer pathway, including use of web sites. The Chancellor's Office is required to establish a process to facilitate the identification of community college courses systemwide that satisfy lower division preparation requirements and to include this process in a report to be submitted to the Legislature. Community college and CSU faculty are directed to consider existing local articulation agreements in developing the new associate degree for transfer.

**AB 2344 (Nielsen) Nursing: Approved Schools**

**Analysis/Summary:** AB 2344 redefines "institution of higher education" for the purposes of approving schools of nursing to include community colleges and for-profit private postsecondary institutions offering an associate of arts or associate of science degree, and clarifies a nursing school that is not an "institution of higher education" may affiliate with an institution of higher education offering either an associate of arts or an associate of science degree.

**AB 2385 (J. Perez) Community Colleges: Accelerated Nursing and Allied Health Care Pilot Program (Support)**

**Analysis/Summary:** This bill establishes a pilot nursing and Allied Health pilot program at up to five campuses under the direction of the California Community College Chancellor's Office. Implementation is contingent on the availability of supplemental funds and the Chancellor's Office is directed to pursue a variety of funding sources. Qualifying programs must provide certified training, include high quality curriculum and have the ability to expand programs as needed. The purpose of the pilot program is to develop innovative models that expand the state's capacity to prepare a qualified health care workforce. Upon implementation of the pilot program, the Chancellor's Office will evaluate the effectiveness of the program and report to the Legislature on or before January 1, 2017.

**SB 82 (Hancock) Community Colleges: Transportation Fees**

**Analysis/Summary:** This bill increases the limits on the transportation fees. Increased fees in transportation will be determined by the Implicit Price Deflator for State and Local Government Purchases of Goods and Services published by the United States Department of Commerce. The bill also repeals the provisions that prohibit a governing board from entering into, or extending a contract for, transportation services provided by a common carrier or municipally owned transit system unless approved by a vote of the students.

This bill follows prior legislation for specified districts and last year's AB 774 (Cook) that authorizes all districts to charge transportation fees to students and employees if approved by a majority of students and employees at the district. SB 82 removes the limit on fees. Several districts have used the current statute to provide mass transit services.

**SB 1075 (Correa) Military Service: Benefits**

**Analysis/Summary:** This bill requires that if a student is called to active, full-time military duty that interrupts the individual's course of study, the institution is required to make arrangements to reasonably accommodate and assist the student in meeting all coursework requirements that he or she

may have missed due to compulsory military service. This would apply to both private and public postsecondary institutions.

**SB 1143 (Liu) Community College Student Success and Completion (Support)**

**Analysis/Summary:** This bill requires the Board of Governors of the California Community Colleges (BOG) to convene a task force to examine best practices and models throughout the nation for improving student success within California's Community Colleges. The BOG is required to report to the Legislature no later than March 1, 2012 on its proposed plan to improve student success and completion.

**SB 1332 (Dutton) Radiologic Technology (Support)**

**Analysis/Summary:** SB 1332 requires the Department of Public Health (DPH) to approve schools that meet the Joint Review Committee of Education in Radiologic Technology (JRCERT) standards. The bill also requires the department to adopt the standards through a specified process before approving schools. Since 1996, JRCERT standards have been accepted in lieu of the California Department of Public Health's Title 17 regulations that were established in 1985. SB 1332 would preclude DPH from suddenly enforcing outdated regulations and use the JRCERT accreditation process utilized by the state over the past 14 years, rather than the 1985 regulations.

Title 17 regulations for Radiologic Technology Programs are widely considered to be outdated and not reflective of current needs. CSU and community college program directors state that compliance with the outdated Title 17 regulations would put their national certification in jeopardy. Even though Title 17 regulations are outdated, DPH has the authority to enforce these regulations. DPH attempted to enforce these regulations in 2007 and numerous college programs as well as clinical placement facilities were put on notice that their programs were deemed out of compliance. This bill clarifies that colleges who meet JRCERT standards are in compliance with the law.

**SB 1440 (Padilla) California Community Colleges: Student Transfer (Sponsor/Support)**

**Analysis/Summary:** SB 1440 establishes the Student Transfer Achievement Reform (STAR) Act. SB 1440 requires a community college district to grant an associate degree for transfer to a student in that student's field of study once a student has met degree and transfer requirements for a particular major. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. The bill prohibits a community college district or campus from adding local course requirements in addition to requirements of the STAR Act, and prohibits the CSU from requiring a transferring student to repeat courses similar to those taken at the community college that counted toward their associate degree for transfer.

**SB 1473 (Wyland) School Facilities Bond Proceeds: Performance Audits (Support)**

**Analysis/Summary:** SB 1473 mandates that all Proposition 39 mandatory performance and financial audits conform to the Generally Accepted Government Auditing Standards (GAGAS). GAGAS standards are promulgated under the leadership of the Comptroller General of the United States, who heads the U.S. General Accounting Office.

## VETOED

### **AB 194 (Torrico) Retirement: Local Employees**

**Analysis/Summary:** AB 194 would have capped retirement compensation for employees hired after January 1, 2011 under either the State Teachers' Retirement System or Public Employees' Retirement System for any employee at 125% of the compensation of the Governor in 2009 which was \$173,987 (125% equals \$217,483). The cap would not have placed a limit on salary levels, but on pensionable salary.

**Veto message:**

*I am returning Assembly Bill 194 without my signature.*

*The bill limits the salary that retirement benefits are based on for individuals, prospectively after January 1, 2011, to 125% of the Governor's salary, as specified.*

*The current compensation limit imposed by the federal government to determine public employee retirement benefits is \$245,000. Currently, this bill would cap the compensation counted towards retirement at \$217,483. While this two tiered cap that would be created by this bill would make a very small dent in the pension problem California faces, it cannot be considered real pension reform. I am still hopeful that the Legislature will pass an acceptable bill that addresses the real cost issues that have driven up the liability in public pension systems.*

### **AB 827 (De La Torre) Local Public Employees Contracts**

**Analysis/Summary:** AB 827 would have prohibited a local agency contract for "excluded employees"\* executed or renewed on or after January 1, 2011 from containing:

- An automatic contract renewal.
- An automatic compensation increase that exceeds a cost of living adjustment.
- An automatic compensation increase that is linked to a third-party contract, including agreements under the Meyers-Milias-Brown Act or the Education Code's employee relations provisions.
- A severance payment greater than the amount allowed by current law.

The bill also would have required that the results of the performance review for exempt employees be summarized in an open session of the governing board before a compensation increase greater than the consumer price index is approved (any raise after January 1, 2011).

\*An excluded employee is a person who is or will be employed by, and report directly to, the Legislative body of a local governing board that is not subject to the Meyers-Milias-Brown Act and the Public Records Act.

**Veto message:**

*I am returning Assembly Bill 827 without my signature.*

*The scandal with the City of Bell was a disgraceful use of public funds. I share the public outrage expressed over the abuses attributed to the City of Bell's management of employee contracts. Assembly Bill 827 presents good public policy in that it provides transparency with regards to some municipal personnel contracts, but it should be applied to all public employees, including labor union members and state employees. I encourage the Legislature to enact thoughtful and meaningful solutions rather than a rushed proposal that is severely limited in its application.*

**AB 1413 (Fuentes and Coto) Student Financial Aid: Eligibility**

**Analysis/Summary:** AB 1413 would have established the California Dream Act of 2010 for purposes of permitting AB 540 students to apply for the Cal Grant student aid program if they meet requirements for nonresident tuition exemption. AB 1413 specifies that these students would only be able to receive a Competitive Cal Grant A or B award, if funding remains after all other eligible non-AB 540 students have received grants. The bill also broadens the definition of nonresident tuition students eligible for an AB 540 exemption to include graduates of adult education and technical schools provided the individual spent at least one year in a California high school. Enactment of AB 1413 was contingent upon SB 1460 (Cedillo) being signed into law.

**Veto message:**

*I am returning Assembly Bill 1413 without my signature.*

*I have always wholeheartedly supported the policy of making higher education opportunities as affordable as possible for all California's students. Our state's university and community college systems are amongst the finest in the country and should be made accessible to those seeking a better life through higher education. Unfortunately, given the precarious fiscal situation that the state faces, it would not be practical to adopt a new policy that could limit the financial aid available to students that are in California legally, in order to provide that benefit to those students who are not.*

*Since the beginning of the year, I have committed to provide the highest amount of funding for higher education, including for financial aid to needy students, that I believe is prudent given all of the competing interest for limited resources. Given the difficult decisions that are yet to be made to enact a state budget, I am still hopeful that the funding level that I have proposed for higher education will still be enacted. However, with that uncertainty coupled with the ongoing fiscal liabilities California will continue to face in the coming years, the State needs to be especially cautious in even considering enacting a measure like this.*

**AB 1987 (Ma) Public Retirement: Final Compensation: Retirees**

**Analysis/Summary:** AB 1987 would have established minimum standards and requirements for all public retirement systems in California with respect to final compensation, ongoing audits with penalties for noncompliance, and prohibitions against a retiree from immediately returning to employment with the public employer on a part-time or contract basis. This bill would have prohibited members of the Public Employees' Retirement System (PERS) or State Teachers' Retirement System (STRS) who retire after January 1, 2012 from working (including part-time or under contract) for a PERS/STRS employer for 180 days after retirement. The bill also limited what can be included in calculations that determine final retirement compensation. For example, if AB 1987 had been enacted only one year of accrued vacation time is permitted to be included in final compensation calculations versus an unlimited amount of vacation time which is currently allowed. This legislation is "double-joined" with SB 1425 (Simitian) and would only have been operative if both bills were signed into law.

**Veto message:**

*I am returning Assembly Bill 1987 without my signature.*

*The practice of pension-spiking is a serious one that deserves significant attention by the Legislature in curbing the unacceptable manner in which individual workers are able to artificially boost their retirement payouts. There are numerous examples of public employees taking home larger pension checks in retirement than what they earned in base salary when they were actually working. California does need a consistent standard that is transparent, understandable, and implementable throughout the state. While this bill purports to address this issue by segregating out some of the factors that have allowed pension spiking, in some instances it still allows local pension boards to determine what is ultimately counted in an employee's pension calculation. This does not provide a consistent treatment of all employees. The*

*taxpayers of California deserve better. I am still hopeful that the Legislature can send me acceptable pension reform legislation.*

**AB 1997 (Portantino) California Community Colleges: Student Financial Aid Programs (Support)**

**Analysis/Summary:** AB 1997 would have required the Chancellor's Office to implement a voluntary pilot program at up to 10 community colleges to identify strategies and best practices that increase student participation in both state and federal financial aid programs. The Chancellor's Office would have been required to submit a report to the Legislative Analyst's Office (LAO) by January 10, 2013 regarding strategies and techniques used at the pilot sites. The LAO was directed to issue a report to the Legislature that includes recommendations for statewide expansion of the pilot, a statistical analysis of financial aid applications and awards before and after the pilot, and a summary of the major strategies and techniques employed by participating campuses.

**Veto message:**

*I am returning Assembly Bill 1997 without my signature.*

*This bill is unnecessary. Nothing under current law prohibits the California Community College Chancellor's Office from working with local community colleges to meet the objectives of this bill. Furthermore, the annual budget act was augmented several years ago to provide the community colleges an additional \$34.2 million for financial aid outreach efforts that were expected to assist students with maximizing federal and state financial aid.*

**AB 2682 (Block) Community Colleges: Student Assessments: Pilot Project (Sponsor/Support)**

**Analysis/Summary:** This bill would have required the Board of Governors to establish a pilot project with the goal of creating a set of centralized common assessments in English, Math, and English as a Second Language. Colleges will be asked to use these online, common assessment tools at a fraction of the cost of their current assessments. These assessments would have been used for placement and advising. The Board of Governors would have been directed to convene an advisory committee for the pilot projects and report on specified progress by February 28, 2011.

**Veto message:**

*I am returning Assembly Bill 2682 without my signature.*

*I respect the author's intent to reduce costs and create efficiencies for students and community colleges. However, I have concerns that this bill creates a duplication of the efforts that resulted from the expansion of the existing Early Assessment Program (EAP), which evaluates the college-readiness of high school students. I signed into law in 2008 the bill that expanded the use of the EAP operated by the California State Universities, to include community colleges. Therefore, it is unclear why this bill is necessary.*

**SB 330 (Yee) Public Records: State Agency: Auxiliary Organizations**

**Analysis/Summary:** SB 330 would have added CCC, CSU, and UC foundations to the Public Records Act and adds provisions protecting the confidentiality of fundraising strategies and work-product that could be used by competitors. The bill would have been exempted from disclosure under the act the names, addresses, and telephone numbers of persons who volunteer services or donate to specified entities if those persons request anonymity. This exemption would not apply if a volunteer or donor met specified conditions.

**Veto message:**

*I am returning Senate Bill 330 without my signature.*

*While I am a firm believer in providing openness and transparency when it involves public entities and public funding, this bill inappropriately places private auxiliary organizations that receive private funds,*

*under the provisions of the California Public Records Act. The focus of our attention should be given to greater transparency of how the University of California and California State University systems spend the public funds from taxpayers or students. Instead, this bill would require disclosure of private donors, those generous alumni whose giving, especially in times of decreasing state funding, is helping keep our public universities the best in the world.*

*While the bill attempts to provide a veil of protection for donors requesting anonymity, as crafted, it will not provide sufficient protection for many who rightfully deserve a level of privacy as part of their giving. Often times, these generous private citizen donors do not want to be in the glare of publicity, and I cannot support a bill that makes it more difficult for our public universities to raise private funds to maintain the quality educational experience our students deserve, and parents expect, when they send their children to the University of California and California State University systems.*

**SB 675 (Steinberg) Partnership Academies: Clean Technology and Renewable Energy Job Training, Career Technical Education, and Dropout Prevention Program (Support)**

**Analysis/Summary:** SB 675 would have required the California Energy Commission to set aside \$8 million annually over five years to fund start-up of an estimated 200 new academies in the growing job sectors of clean technology and renewable energy.

**Veto message:**

*I am returning Senate Bill 675 without my signature.*

*SB 675 would allocate funds from the California Energy Commission's (Commission) Energy Resource Programs Account (ERPA) to the California Department of Education (CDE) for developing and maintaining programs that focus on employment and training for energy or water conservation, renewable energy, pollution reduction, or similar technologies. Throughout my tenure as Governor, I have been a staunch supporter of increasing career-tech education opportunities for our young men and women. I continue to believe that career-tech education has a vital role to play in helping to develop and sustain California's students and our emerging green economy.*

*Nonetheless, given the current uses of the ERPA account at the Commission and the precariously low balance in that fund, this bill would require the Commission to increase the surcharge on electricity users throughout California to pay for its provisions. And even after doing so, the Commission would still be required in the future to cut its core programs to pay for this bill, including those related to power plant licensing, renewable energy facility licensing, and energy efficiency.*

*More importantly, I will not support increasing the surcharge on electricity users to fund a K-12 Education program. To do so would start a dangerous precedent for finding unrelated revenue sources to fund, expand, or create K-12 programs outside of the Proposition 98 guarantee.*

*Additionally, the bill only gives a minor role to the Commission in developing the guidelines for the program. Just as the Commission is not an expert in navigating our state's complex education system, neither are CDE employees proficient in the emerging technologies and future of our green economy. As such, the Commission should be CDE's partner in putting together this program so as to provide our students with the right skills to enter our green economy.*

*If the program included in this bill was wholly funded using Proposition 98 dollars and a greater role was given to the Commission to develop guidelines in cooperation with the Department of Education, I would sign it.*

**SB 957 (Price) Student Financial Aid: Cal Grant C Awards**

**Analysis/Summary:** SB 957 would have required the California Student Aid Commission to give priority for Cal Grant C awards to students pursuing training in fields with high employment need, high salary or wage projections, or high employment growth. It also called for a review and update to the areas of occupational and technical training for which students may utilize Cal Grant C awards at least every five years. The Legislative Analyst's Office would have been required to submit a report to the Governor and Legislature on the outcomes of the Cal Grant C program every other year beginning April 1, 2014.

**Veto message:**

*I am returning Senate Bill 957 without my signature.*

*I am concerned that this bill could limit choices students or eliminate the possibility of an award for lower income students, simply because the occupational areas that they have chosen to pursue was not deemed a priority by the state.*

**SB 1425 (Simitian) Public Retirement: Final Compensation**

**Analysis/Summary:** This bill would have prohibited members of Public Employees' Retirement System (PERS) or State Teachers' Retirement System (STRS) who retire after January 1, 2012 from working (including part-time or under contract) for a PERS/STRS employer for 180 days after retirement. This bill specified that if a STRS retiree earns compensation in violation of this requirement, his or her retirement allowance would have been reduced by the amount of compensation earned in the prohibited period. This bill also made statutory changes to bring the provisions of the Teachers' Retirement Law (TRL) and the Public Employees' Retirement Law (PERL) into compliance with the new requirements imposed on all public retirement systems by this bill. This bill would have become operative for all active and future members of the retirement systems beginning July 1, 2011, and is "double joined" to passage of AB 1987 (Ma).

**Veto message:**

*I am returning Senate Bill 1425 without my signature.*

*The enactment of this bill is contingent upon the enactment of Assembly Bill (AB) 1987 (Ma). I am vetoing AB 1987 because it does not provide real pension reform. I am still hopeful that the Legislature will pass an acceptable bill that really addresses California's pension problem.*

**SB 1460 (Cedillo) Student Financial Aid: Eligibility**

**Analysis/Summary:** AB 1460 would have established the California Dream Act of 2010 and would have provided that a person who is eligible under AB 540 provisions is limited to eligibility to apply for institutional financial aid and scholarships derived from non-state funds, beginning January 1, 2011. AB 540 students would not be eligible to apply for state aid, i.e. the Cal Grant program. Under AB 540, non-resident fees are waived for students who have attended a California school three or more years, one of these years must be in high school, and graduated from a California secondary school.

**Veto message:**

*I am returning Senate Bill 1460 without my signature.*

*I have always wholeheartedly supported the policy of making higher education opportunities as affordable as possible for all California's students. Our state's university and community college systems are amongst the finest in the country and should be made accessible to those seeking a better life through higher education. Unfortunately, given the precarious fiscal situation that the state faces, it would not be practical to adopt a new policy that could limit the financial aid available to students that are in California legally, in order to provide that benefit to those students who are not.*

*Since the beginning of the year, I have committed to provide the highest amount of funding for higher education, including for financial aid to needy students, that I believe is prudent given all of the competing interest for limited resources. Given the difficult decisions that are yet to be made to enact a state budget, I am still hopeful that the funding level that I have proposed for higher education will still be enacted. However, with that uncertainty, coupled with the ongoing fiscal liabilities California will continue to face in the coming years, the State needs to be especially cautious in even considering enacting a measure like this.*

*Prepared by the Government Relations Division  
California Community College Chancellor's Office*

**MPC**  
**Active Bond/Facility Projects Update**  
**October 13, 2010**

**MPC Education Center (at Marina) Permanent Buildings** – All “tilt-up” wall panels are in place and skeletal steel is being installed. Roof framing has begun and subsequent framing will follow. Work will be completed by late spring/early summer of 2011. Classes will commence the fall semester of 2011.

**Infrastructure** – Site work (lighting, parking lots, sidewalks) will be ongoing for the next few years. Work on the antiquated kilns is necessary, and plans are being designed to quickly address the needs.

**New Student Services Building** – Insulating continues. Drywall has started. Plaza concrete completed. Parking lot patching is in progress. Irrigation and landscape work continues. Completion is now anticipated in January of 2011. There have been some architectural design issues that are being addressed with the Architect (HGA). Discussions continue with the contractor for schedule recovery.

**Swing Space** – The “Swing Space Village” is located adjacent to and south of the Theatre. It is scheduled to be completed by January of 2011. The swing space plan has been modified due to unanticipated State funding for the Old Student Services/ Humanities Projects that may accelerate the master schedule. The Swing Space user groups are being notified of the swing space plan in detail in order to accommodate the program needs with minimal disruption.

**Facilities Committee** – The Committee meets periodically to review construction issues, budgets and schedules.

**Business / Computer Science Building** – The project is progressing ahead of schedule. Drywall is completed. Windows have been installed. Interior and exterior painting will commence in early November. Construction is progressing as scheduled.

**Humanities / Old Student Services / Business Humanities** – On June 14, 2010 the Chancellor’s Office notified MPC that approval was received to submit the drawings to DSA. The project is still on track to receive State matching funds. The Architect (HGHB) has submitted drawings to DSA. The State Chancellor’s Office requires submittals and approvals during the design phase and requires authorization to go to bid and to award the bid.

**Theatre** – The Architect (HGA) continues with the Design Phase drawings, and the drawings are ready to be submitted to DSA in October of 2010. It is anticipated the project will bid in the spring of 2011, and work will commence in June 2011 with completion anticipated in December 2012.

**Life Science / Physical Science Buildings** – The design by the Architect (HGHB) is nearing completion and will be submitted to DSA for approval in November 2010. Dependent upon DSA approval time, construction is anticipated to begin in the summer of 2011. Swing Space needs are being accommodated in the new Swing Space Village and at the General Classrooms.

**Music Buildings** – The Architect (HGA) has prepared schematic drawings with different design options, and the Facilities Committee is reviewing the options and the budgets for the different alternatives.

**Gym First Floor** – The Architect (HGHB) has completed the drawings and submitted to DSA. The Gym first floor work has to be completed before work on the pool and tennis courts can be done. The Swing Space needs are being accommodated. The work is scheduled to begin in January of 2011 and finish in the fall of 2011.

**Pool/ Tennis Courts** – Work will begin after the gym first floor is complete.

**Student Center** – The Architect (HGHB) is preparing schematic drawings for available space options. Planning meetings have involved student representatives.

**Outside Lockers adjacent to the Art Buildings** – The Architect (HGHB) is preparing drawings to be submitted to DSA. The work will be done as weather permits and as not to impact class schedules.

## Cost Control Report

10/13/2010

### MPC Education Center at Marina

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,044,000	\$ 1,044,000	\$ -	Includes Architect, DSA fees, etc. for permanent facilities
CEQA/Design	\$ 286,500	\$ 286,500	\$ -	Temporary facilities design and environmental services
Constructn bid	\$ 4,309,949	\$ 4,309,949	\$ -	Actual bid amount for permanent buildings
C.O. Contngcy.	\$ 430,994	\$ 430,994	\$ -	At this time the forecasted change order contingency appears adequate
Test & Inspect.	\$ 275,000	\$ 275,000	\$ -	
Cnstr Mgmt Fee	\$ 288,000	\$ 288,000	\$ -	
Equipment	\$ 366,000	\$ 366,000	\$ -	Furniture and equipment
Site demo	\$ 782,800	\$ 782,800	\$ -	Includes hazmat, demolition and haul-off of six existing buildings
Utility Services	\$ 725,000	\$ 725,000	\$ -	Also included are contingencies for MCWD, PG&E and AT&T
Site work	\$ 287,000	\$ 287,000	\$ -	Includes parking lot
Temp Facilities	\$ 304,757	\$ 304,757	\$ -	Relocatable buildings used during construction
Other	\$ -	\$ -	\$ -	
<b>Total</b>	<b>\$ 9,100,000</b>	<b>\$ 9,100,000</b>	<b>\$ -</b>	

Summary: Construction began February 24, 2010. The project is currently under budget and on schedule. Completion is anticipated late spring 2011. The current projection anticipates a \$1,900,000 savings to the budget. The savings have been transferred to a General Contingency line item in the Master Budget. The Board approved a revised budget on August 24, 2010.

### New Student Services Building

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,223,000	\$ 1,223,000	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 7,099,000	\$ 7,099,000	\$ -	Actual bid amount.
C.O. Contngcy.	\$ 567,000	\$ 567,000	\$ -	The change order contingency is adequate at this time.
Test & Inspect.	\$ 228,000	\$ 228,000	\$ -	
Cnstr Mgmt Fee	\$ 383,000	\$ 383,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.
Other	\$ -	\$ -	\$ -	
<b>Total</b>	<b>\$ 9,500,000</b>	<b>\$ 9,500,000</b>	<b>\$ -</b>	

Summary: The project costs are within the budget. The construction began July 27, 2009 and completion is anticipated in January of 2011. The Change Order contingency appears to be adequate for the remainder of the project. Discussions have been initiated with the Architect (HGA) regarding design issues and the resultant impact on construction schedule and cost. The Board approved a revised budget on August 24, 2010.

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 386,000	\$ 386,000	\$ -	Design includes Architect, Const. Mgmt., DSA fees, printing, etc.
Constructn bid	\$ 5,400,000	\$ 5,400,000	\$ -	Projected.
C.O. Contngcy.	\$ 540,000	\$ 540,000	\$ -	
Test & Inspect.	\$ 140,000	\$ 140,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.
Other	\$ -	\$ -	\$ -	
<b>Total</b>	<b>\$ 6,466,000</b>	<b>\$ 6,466,000</b>	<b>\$ -</b>	
Summary: Infrastructure Phase III includes Parking Lot J, the PE Elevator, Greenhouse, data cabling, parking lots B & C and other site work (sidewalks & lighting, etc.)				

Auto Technology Building				
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 142,000	\$ 142,000	\$ -	Design for existing building and new addition and DSA fees
Constructn bid	\$ 703,000	\$ 703,000	\$ -	
C.O. Contngcy.	\$ 60,000	\$ 60,000	\$ -	
Test & Inspect.	\$ 50,000	\$ 50,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment is from a separate fund.
Other	\$ 45,000	\$ 45,000	\$ -	Hazmat mitigation
<b>Total</b>	<b>\$ 1,000,000</b>	<b>\$ 1,000,000</b>	<b>\$ -</b>	
Summary: The project has been completed.				

Business / Computer Science Building				
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 297,325	\$ 297,325	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 1,595,000	\$ 1,595,000	\$ -	Actual bid amount, plus demo cost and hazmat removal
C.O. Contngcy.	\$ 159,500	\$ 159,500	\$ -	
Test & Inspect.	\$ 90,000	\$ 90,000	\$ -	
Cnstr Mgmt Fee	\$ 81,675	\$ 81,675	\$ -	
Equipment	\$ -	\$ -	\$ -	
Other	\$ 76,500	\$ 76,500	\$ -	Transferred
<b>Total</b>	<b>\$ 2,300,000</b>	<b>\$ 2,300,000</b>	<b>\$ -</b>	
Summary: The current projection anticipates a \$293,854 savings to the budget. The projected savings of \$293,854 was transferred to a General Contingency line item in the Master Budget.
