Robin McCrae, Executive Director
Community Human Services
PO Box 3076
Monterey CA 93942-3076

Dear Robin,

I understand that the Community Human Services Board of Directors is holding a retreat on May 11, and I wanted to express my support to you and the Board for the fine job that you have done as Executive Director. All of us in public service professions have been challenged in the last few years by the extraordinary fiscal conditions in California. You have responded to those challenges with leadership and courage. You have made the tough decisions to maintain CHS' financial status yet never lost sight of the "hope-help-here" vision.

Success like this requires strong leadership skills that promote loyalty within the organization and strong collaborative relationships with other organizations. CHS is very well served by having you as Executive Director, and we truly appreciate the support provided to the students and staff at Monterey Peninsula College.

I wish you continued success.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Garrison", is written over the typed name and title.

Douglas R. Garrison, EdD.

California Community Colleges Board of Governors Regulation Proposal Would Stop Unnecessary Repeat Enrollment in State-funded Courses

Move designed to make better use of scarce resources and help prioritize course offerings

SACRAMENTO, Calif. – The California Community Colleges Board of Governors today heard regulatory changes that would make better use of state funds by preventing students from repeatedly enrolling in courses that they have already completed successfully.

The changes primarily focus on physical education, performing and visual arts classes that students had been allowed to take up to four times.

“Budget cuts have forced us to ration education, and we are currently turning away hundreds of thousands of students from our campuses that want to pursue a degree, transfer to a four-year university or get job training so they can get back into the workforce or advance in their current career,” California Community Colleges Board of Governors President Scott Himmelstein said. “It doesn’t make sense for us to allow students to take the same physical education course four times on the taxpayer’s dime while we are closing our doors on those looking for a degree or seeking job skills.”

The recommended changes are intended to support the California Community Colleges Student Success Task Force goal of better aligning courses with student education plans and needs. By not allowing students to needlessly repeat courses, colleges are able to focus course offerings directly to a student's degree requirements.

"Restricting students' ability to repeat state-subsidized courses in physical education and other classes will help all of us focus on the priorities of providing basic skills in English and mathematics, certificate and degree attainment and transfer preparation," Chancellor Jack Scott said. "It used to be we could be all things to all people. Those days are gone, and now we have to focus on those with the greatest need."

The new regulations, which were drafted with extensive input from the Academic Senate for California Community Colleges, will prohibit a student who successfully completes a class from repeating it, except under certain circumstances. Students can repeat courses if it is required for transfer to the University of California or California State University, related to participation in intercollegiate athletics or is required for vocational or licensure reasons.

In July 2011, the board of governors adopted regulations that limited the number of times a student could repeat a class to make up for a substandard grade to three times. The new regulation changes focus on retaking classes that have already been successfully completed.

The regulation changes will go before the California Community Colleges Board of Governors for a second reading in July, and if approved then will take effect in the fall of 2013.

The California Community Colleges is the largest system of higher education in the nation composed of 72 districts and 112 colleges serving 2.6 million students per year. Community colleges supply workforce training, basic skills education and prepare students for transfer to four-year institutions. The Chancellor's Office provides leadership, advocacy and support under the direction of the Board of Governors of the California Community Colleges. For more information about the community colleges, please visit <http://californiacommunitycolleges.cccco.edu>.

###

Notes to Editors:

- **Photos** from the board item will be available shortly for media use and can be found at: <http://californiacommunitycolleges.cccco.edu/Newsroom/PhotoGallery.aspx>
- Supplemental information available in an background/fact sheet below.

California Community Colleges Course Repeatability Statute Changes

(May 4, 2012)

PROPOSED POLICY CHANGE:

- On **Monday, May 7**, the California Community Colleges Board of Governors will consider a system-wide regulation change to the current course repeatability policy.
- The changes will primarily affect physical education, visual arts classes or performing arts classes in music, theatre and dance.

- The California Community Colleges Chancellor’s Office is recommending that the Board of Governors approve a policy change that would prevent a student from repeating a course that he/she has already successfully completed.
 - If a student gets a passing grade of A, B, C or “Pass” in a course then he/she would not be allowed to take it again.
 - Previously students could take certain courses such as PE and performing arts up to four times – regardless of whether or not they received a passing grade.
- The recommended policy change **would allow repeatability** of classes in the following areas –
 - 1) Courses required by UC or CSU for transfer (ex. If a student needs choir, band, music, etc. to transfer to performing arts major at UC that requires participation for more than one semester.)
 - 2) Legally mandated courses (ex. For many occupations employees are required to take CPR courses annually in order to work in a specific field.)
 - 3) Intercollegiate athletics (ex. An intercollegiate football player is required to take a conditioning class each session in order to maintain their physical shape and play on the team.)
 - 4) Change in industry or licensure standards
- In July 2011, the Board of Governors adopted regulations that limited the number of times a student could repeat a class in order to alleviate a substandard grade to three times.
 - This policy before the BOG next week however, deals with students repeating courses that they have already successfully completed.

BENEFITS:

- The new policy will redirect taxpayer dollars to courses that are “in demand” and will help students reach their higher education goals.
 - Under the new recommended policy, colleges will only be allowed to claim state apportionment funding one time for each student taking any course that is not repeatable.
 - The recommended change is intended to support the California Community Colleges Student Success Task Force goal of better aligning courses with student education plans and needs. By not allowing students to needlessly repeat courses, colleges are able to focus course offerings directly to a student’s degree requirements.

BUDGET CLIMATE & BACKGROUND:

- Chronic and severe budget cuts have left California community college officials struggling to meet student demand and do more with less.
- Since 2008-09, the California Community Colleges budget has been cut by **\$809 million**, or **12 percent**, and total enrollment has gone down by **300,000** students at a time of increased demand.
- On top of the **\$502 million** cut that the California Community Colleges system took in 2011-12 academic year, colleges are being hit with an unexpected revenue shortfall of **\$149 million** because property tax and student fees are lower than original estimates.

- The state budget cuts have forced campuses to reduce course offerings by roughly **15 percent** at a time when more students than ever are seeking admission.
- Students are pouring on to campuses seeking many different types of services. The unemployed are in search of career training. Displaced students from the University of California and California State University are seeking general education courses to transfer. Returning veterans are hoping to supplement their skills with a college degree or certificate.
- In 2009-2010, **fifty-one percent** of all California community college students repeated a course (for a variety of reasons) –

Course Repeats	5+ Times	4 Times	3 Times	2 Times	1 Time
All Courses	84,512	117,420	305,331	200,000	800,000

TIMELINE:

- The proposed policy change will be submitted by the California Community Colleges Chancellor’s Office to the Board of Governors for a first hearing on Monday, May 7, 2012.
- If the course repeatability policy change is approved, the second hearing will take place at the July 9/10 Board of Governors meeting.
- Once the item is passed the policy change will take effect in fall 2013.

MORE INFORMATION:

- The California Community Colleges Board of Governors agenda for the May 7/8 meeting can be found at:
http://www.cccco.edu/ChancellorsOffice/BoardofGovernors/BoardofGovernorsMeetingSchedule/2012_May_Board_Agenda/tabid/2080/Default.aspx
- The board meeting can be watched live via webcast at: <http://www.3cm mediasolutions.org/>
- Course repeatability is item 3.1 on the board agenda and was heard before lunch on Monday, May 7 (around 11 a.m.)

**California Community Colleges Board of Governors Honor
Four State Lawmakers for Support of Community College System
*Sen. Alan Lowenthal (D-Long Beach) Receives Lifetime Achievement Award***

SACRAMENTO, Calif. – California Community Colleges Chancellor Jack Scott and members of the California Community Colleges Board of Governors today honored four lawmakers for their leadership in improving the state's 112 community colleges.

Sen. Alan Lowenthal (D-Long Beach) received the board's highest honor, the Lifetime Achievement Award, for his work on a variety of bills, including his leadership in authoring a measure that would implement several recommendations made by the Student Success Task Force. Senator Carol Liu (D – Pasadena), and Assemblymembers Susan Bonilla (D – Concord) and Gil Cedillo (D – Los Angeles) also were honored for their consistent support of community colleges and higher education.

"Because of the hard work of lawmakers such as senators Lowenthal and Liu and assemblymembers Bonilla and Cedillo, our students have a better chance of reaching their educational goals, and we all benefit when that happens," Board of Governors President Scott Himelstein said.

On April 18, Lowenthal's SB 1456, the California Community Colleges Student Success Act of 2012, passed unanimously out of the Senate Education Committee, of which he is the chairman, and is scheduled to be heard by the Senate Appropriations Committee. The bill will focus funding on support services to increase student success as measured by degree attainment, transfer to a four-year institution, earning a certificate or reaching career advancement goals.

Lowenthal, who also served in the Assembly, is a retired professor of community psychology from California State University, Long Beach.

“Sen. Lowenthal has always been a staunch supporter of higher education in California and the students, faculty and staffs at our community colleges, as well as the board of governors, are indebted to him for his work to make sure our system continues to lead the country,” Himelstein said.

Liu was given the Board of Governors Senator of the Year Award for her work on SB 1143, the law that created the California Community Colleges Student Success Task Force in late 2010. Like Lowenthal, Liu is a former educator and has been a tireless supporter of higher education. She is chair of the Budget Subcommittee on Education and Human Services and sits on the Senate Education Committee. Liu also is the author of SB 1062, which would implement a task force recommendation that would strengthen leadership in the Chancellor’s Office.

Bonilla was awarded the Board of Governors Assemblymember of the Year Award. Bonilla also is a former educator and, although she is relatively new to the Legislature, she has already begun to make her mark, especially in education. Her support for California’s community colleges on a variety of issues is appreciated. Bonilla is the chair of the Assembly Budget Subcommittee No. 2 on Education Finance.

Cedillo, who also has been a state Senator, was given the Chancellor’s Distinguished Service Award for his more than a decade’s worth of advocacy for community college students. That advocacy has been aimed at improving the lives of the working class and immigrant communities. Most recently he authored and championed the passage of Assembly Bill 130 and Assembly Bill 131, the California DREAM (Development, Relief, and Education for Alien Minors) Act package, which allows some non-resident college students – including some undocumented students – to receive public and private financial aid. Cedillo’s legislation was a key policy change in making college affordable for all California students, especially those who attend community colleges.

“I’ve known Gil a long time and he always has our community college students on his mind and continues to work hard as an advocate for them, and for all of higher education,” said Chancellor Scott, who is a former Assemblymember and state Senator. “Even though he is leaving the Legislature later this year, I know he will continue to serve the students because he knows they are the future of this great state.”

MPC
Active Bond/Facility Projects Update
May 9, 2012

Humanities / Old Student Services / Business Humanities – The project is receiving State matching funds. Phase 1 (Old Student Services Building) construction has been completed. Construction on Phase 2 (Humanities Building) will begin in January of 2013 with completion scheduled for November of 2013.

Theatre – Work is focusing primarily on the electrical and mechanical systems. As of this date, no significant unforeseen conditions have been discovered that could impact budget and schedule. Work is progressing as scheduled and completion is still scheduled for February 2013.

Life Science / Physical Science Buildings – There are two phases in this project with the First Phase being the Life Science building, and once it is completed the renovation of Physical Science will commence. HVAC duct work has been installed. Exterior painting has been completed. The casework and cabinets have been installed. Work on Life Science is progressing as scheduled with completion in June 2012. The Life Science building will then be occupied, and the Physical Science departments will be relocated to interim housing that the Life Sciences have vacated.

Gym First Floor – Wall framing is nearing completion, and electrical and plumbing rough installation continues. The project is on schedule and anticipated to be completed in November 2012.

Swing Space – The “Swing Space Village” is located adjacent to and south of the Theatre, and classes are being conducted in the building. The General Classrooms Building has been modified to accommodate the Life Science and Physical Science programs, and Life Science classes are being conducted in the building. The General Classrooms building will be converted to accommodate the Physical Science department this summer (construction on the Physical Science building is scheduled to begin late summer once the Hazmat litigation has been completed).

Infrastructure – Site work (directional kiosks, lighting, parking lots, sidewalks) will be ongoing for the next few years.

Pool/ Tennis Courts – Work can only begin after the gym first floor work has been completed in Dec. of 2012.

Student Center – The Architect has prepared schematic drawings for available space options. Planning meetings have involved student representatives and ASMPC has reviewed and approved the schematic drawings. The Architect will begin the Design Development drawings (this stage of the Architectural process involves determining and engineering the most cost-effective electrical, mechanical and structural systems).

Arts Complex – The Arts Complex project is comprised of the Art Studio Building, Art Ceramics Building and the Art Dimensional Building. Preliminary design work has been completed, and the architect is now working on the design drawings. Once the Construction Drawings are complete (anticipated this summer), plans and specifications will then be submitted to DSA for review and approval.

Music Building – Initial meetings have been scheduled with the Architect and Music department representatives to investigate different options that could be pursued.

Facilities Committee – The Committee meets on a regular basis to review project budgets and schedules. A report will be forthcoming on the Committee’s recommendations.

Cost Control Report

5/9/2012

Old Student Services / Humanities / Business

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,280,000	\$ 1,100,000	\$ 180,000	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 4,780,000	\$ 4,110,000	\$ 670,000	Actual bid amount.
C.O. Contngcy.	\$ 478,000	\$ 411,000	\$ 67,000	
Test & Inspect.	\$ 240,000	\$ 231,000	\$ 9,000	
Cnstr Mgmt Fee	\$ 383,000	\$ 330,000	\$ 53,000	
Equipment	\$ 132,000	\$ 132,000	\$ -	Equipment partially State funded
Other	\$ 397,000	\$ 300,000	\$ 97,000	Includes hazmat, demolition and IT
Total	\$ 7,690,000	\$ 6,614,000	\$ 1,076,000	

Summary: It is important to recognize that this is a State "match" funded project (State will fund \$3,318,000 and MPC will fund \$3,296,000). The original budget of \$3,845,000 that MPC was to contribute has now been reduced to \$3,296,000 due to the bids coming in lower than the budget. This results in a potential savings to the MPC bond budget of \$549,000 which may be allocated in the future to a contingency fund. Phase 1 (Old Student Services Building) is within budget and ahead of schedule. Phase 1 of the Student Services building is completed and occupied. Phase 2 (Humanities Building) construction will begin in January of 2013. The gap in the construction phasing was planned for the most cost effective use of Swing Space.

Life Science / Physical Science

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 2,600,000	\$ 2,500,000	\$ 100,000	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 9,400,000	\$ 7,352,350	\$ 2,047,650	Actual bid amount.
C.O. Contngcy.	\$ 940,000	\$ 735,000	\$ 205,000	
Test & Inspect.	\$ 350,000	\$ 350,000	\$ -	
Cnstr Mgmt Fee	\$ 650,000	\$ 624,250	\$ 25,750	
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.
Other	\$ 560,000	\$ 938,400	\$ (378,400)	Includes hazmat, demolition, IT and future allowance.
Total	\$14,500,000	\$12,500,000	\$ 2,000,000	

Summary: The current projection anticipates a \$2,000,000 savings to the budget as a result of the bids being substantially lower than the bid budget. The savings may be allocated in the future to the contingency fund. The Life Science building is on schedule to be completed in June of 2013, and this phase of the project is within budget. Construction on the Physical Science building will begin in the summer of 2012.

Theatre

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 880,016	\$ 995,400	\$ (115,384)	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 6,900,000	\$ 7,783,055	\$ (883,055)	Actual bid amount.
C.O. Contngcy.	\$ 690,000	\$ 778,000	\$ (88,000)	
Test & Inspect.	\$ 250,000	\$ 250,000	\$ -	
Cnstr Mgmt Fee	\$ 385,000	\$ 385,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.
Other	\$ 200,000	\$ 200,000	\$ -	Includes hazmat, demolition and IT
Total	\$ 9,305,016	\$10,391,455	\$ (1,086,439)	

Summary: The current projection anticipates an overage of \$1,086,439 (largely due to the low bid being \$883,055 over the bid budget). This shortfall may be mitigated by using funds saved from the projected savings of the Old Student Services / Humanities / Business and the Life Science / Physical Science projects.

Gym First Floor				
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 341,600	\$ 341,600	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 3,063,583	\$ 3,063,583	\$ -	Actual bid amount.
C.O. Contngcy.	\$ 326,000	\$ 326,000	\$ -	
Test & Inspect.	\$ 149,917	\$ 149,917	\$ -	
Cnstr Mgmt Fee	\$ 168,900	\$ 168,900	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.
Other (Hazmat)	\$ 150,000	\$ 150,000	\$ -	Asbestos abatement
Total	\$ 4,200,000	\$ 4,200,000	\$ -	
Summary: The budget for change orders will be closely monitored. Typically, most change orders result from unforeseen conditions, and exposure is greatest when demolition begins and under floor utilities are installed. Some unforeseen conditions occurred (such as electrical conduits were not in the locations and at the depth indicated in the original building as-builts). These conditions have been rectified within budget and without impact to the schedule.				
MPC Education Center at Marina				
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,044,000	\$ 1,044,000	\$ -	Includes Architect, DSA fees, etc. for permanent facilities
CEQA/Design	\$ 286,500	\$ 286,500	\$ -	Temporary facilities design and environmental services
Constructn bid	\$ 4,309,949	\$ 4,309,949	\$ -	Actual bid amount for permanent buildings
C.O. Contngcy.	\$ 430,994	\$ 430,994	\$ -	At this time the forecasted change order contingency appears adequate
Test & Inspect.	\$ 275,000	\$ 275,000	\$ -	
Cnstr Mgmt Fee	\$ 288,000	\$ 288,000	\$ -	
Equipment	\$ 366,000	\$ 366,000	\$ -	Furniture and equipment
Site demo	\$ 782,800	\$ 782,800	\$ -	Includes hazmat, demolition and haul-off of six existing buildings
Utility Services	\$ 725,000	\$ 725,000	\$ -	Also included are contingencies for MCWD, PG&E and AT&T
Site work	\$ 287,000	\$ 287,000	\$ -	Includes parking lot
Temp Facilities	\$ 304,757	\$ 304,757	\$ -	Relocatable buildings used during construction
Other	\$ -	\$ -	\$ -	
Total	\$ 9,100,000	\$ 9,100,000	\$ -	
Summary: The project is currently under budget. Work is completed. The past projection anticipated a \$1,900,000 savings to the budget (the original budget was \$11,000,000). The savings have been transferred to a Contingency line item in the Master Budget. The budget of \$9,100,000 appears to be more than adequate as the costs are becoming more defined as the final costs are being reconciled. Additional savings will be transferred to a contingency once all costs are compiled.				

Infrastructure Phase III / Miscellaneous				
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 386,000	\$ 386,000	\$ -	Design includes Architect, Const. Mgmt., DSA fees, printing, etc.
Constructn bid	\$ 5,400,000	\$ 5,400,000	\$ -	Projected.
C.O. Contngcy.	\$ 540,000	\$ 540,000	\$ -	
Test & Inspect.	\$ 140,000	\$ 140,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.
Other	\$ -	\$ -	\$ -	
Total	\$ 6,466,000	\$ 6,466,000	\$ -	
Summary: Infrastructure Phase III includes Parking Lot J, the PE Elevator, Greenhouse, data cabling, parking lots B & C and other site work (sidewalks & lighting, etc.)

MONTEREY PENINSULA COLLEGE

Celebrates

The Week of the Young Child

April 22-28, 2012

You're Invited!

April 24th

Touring Tuesday

9-12pm

Come on down to the Child Development Center for our annual
Open House and Touring.

Classroom tours will be guided by children!

April 26th

Concert in The Yard...

9:30am

Join us for a morning Bagpipe Concert in our Big Yard!

We are excited to introduce Wesley Donhauser, thirteen year old brother of MPC CDC student, Bayleigh Donhauser. Wesley began playing the Scottish Bagpipes at the age of nine when he was introduced to the ancient instrument in a music class in school. He has since joined a bag piping band, enjoys marching in parades and performing for younger children so they too see the fun and fulfillment of learning an instrument.

We will end the concert with a Child-Led Drumming Circle!
(With a little help from Ms. Melissa)

Keep Your Eyes Peeled!

We'll be walking around campus throughout the week passing out Poppy Flower Packets, Blowing Bubbles, and Spring Planting with the ASMPC and touring the Library, Art Gallery and running on the Field.

If you see us, join
us!

Subject: MPC Foundation: Pavers and Tiles on Campus
Attachments: Paver Order Form.pdf; Wall of Honor FORM - 6 x 6 Tile.pdf; Wall of Honor FORM - 12 x 12 Tile.pdf; Wall of Honor FORM - \$500 pledge.pdf

FROM: Robin Venuti, Executive Director, MPC Foundation

The MPC Foundation is ready to place another order of pavers and tiles and invite you to become a permanent part of MPC. You may do this one of two ways: an etched Stone Paver at the Library and Technology Center or a personalized tile at the Stadium Wall of Honor!

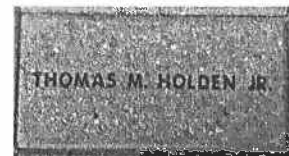

MPC Library and Technology Stone Pavers

Purchase one of the grey paving stones that mark the arbor grand entrance to the Library and Technology Center. These paving stones will be etched with your name or a brief two-line message. This is a great way to show your support for the college, or remember a friend or loved one. These paving stones measure six inches by twelve inches and each can accommodate a name of up to 18 characters per line (maximum of two lines).

Prices

- Option 1: One Line - \$150
- Option 2: Two Lines - \$200

Half the proceeds support the Faculty and Staff Advancement Awards and the other half supports the Library and Technology Center.

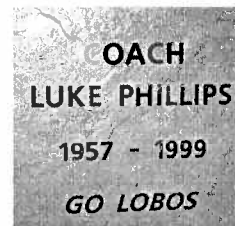

MPC Community Stadium Wall of Honor Tiles

The MPC Community Stadium Wall of Honor is an opportunity for MPC fans to display their loyalty for MPC and Lobo Athletics. Leave your legacy with a personalized tile on the Wall of Honor! Tiles can be personalized with individual or company names, dates and special messages or a company logo. Each tile is permanently displayed in the stadium.

Prices

- Option 1: 12" x 12" - \$5,000
- Option 2: 6" x 6" - \$1,500
- Option 3: One of eight names on a 12" x 12" tile - \$500

Tiles can also be purchased as a pledge; we are more than happy to work with you to develop a payment plan that works for you.

All proceeds directly benefit the MPC Athletic programs.

Please contact the MPC Foundation at (831) 655-5507 or gbianchi@mpc.edu for further information.

For your convenience, we have attached an order form for both the pavers and the tiles.

Sincerely,

Robin

Subject: Board Actions on Superintendent/President Search Process

At the April 25, 2012 regular meeting, the Governing Board took two actions regarding the Superintendent/President search process:

1. Awarded the contract for administrative search services to Professional Personnel Leasing, Inc. [PPL] and authorized the Vice President for Administrative Services to finalize the contract details for subsequent ratification by the Board of Trustees.
2. Appointed members of the Superintendent/President selection committee based on recommendations of the MPC Academic Senate, MPCEA, and Administration:

Members

Diane Boynton, MPC Division Chair, Humanities
Jamie Dagdigian, MPC Instructor, Graphic Arts
Atanasio "Chicha" Guzman, MPC Groundskeeper
Gaozong Thao, MPC Matriculation/Counseling Specialist
Rosaleen Ryan, MPC Director of Instructional Research
Barbara Lee, MPC Associate Dean, Human Resources
Birt Johnson, MPC Citizens' Bond Oversight Committee
and MPC Foundation Board Member
Honorable Dean Flippo, MPC Foundation Board Member
Daniel Cervantes, MPC Student Trustee
Dr. Loren Steck, MPC Governing Board Chair

Representing

MPC Faculty
MPC Faculty
MPC Classified

The Re-entry and Multicultural Center presents

An Afternoon with Riane Eisler

Interview by Kate Daniels, Executive Editor of The WIP

Wednesday, May 16, 2012

3:30pm -5:00pm, Lecture Forum 103

Event is free and open to the public

Dr. Eisler, a social scientist, evolutionary theorist, and cultural historian, is best known for her bestselling book, *The Chalice and The Blade: Our History, Our Future*. She is president of the Center for Partnership Studies and has received many honors including honorary Ph.D. degrees and the Nuclear Age Peace Foundation's 2009 Distinguished Peace Leadership Award. She is featured in the award-winning book *Great Peacemakers* as one of twenty leaders for world peace, along with Mahatma Gandhi, Mother Teresa, and Martin Luther King.

For more information please contact the Re-entry and Multicultural Center at (831)646-4276

Many students in Iran are being denied access to higher education, simply because of their religion. Governmental, religious and academic leaders all over the world have sent strong protests to the Iranian government denouncing this condition. Find out what's going on and what simple things you can do to help. The documentary to be shown, "Education Under Fire," was co-sponsored by Amnesty International. No funds will be requested, and none can be accepted.

Subject: MATE Monterey Bay Regional ROV Contest at MPC this Saturday!
Attachments: Invite_2012.pdf

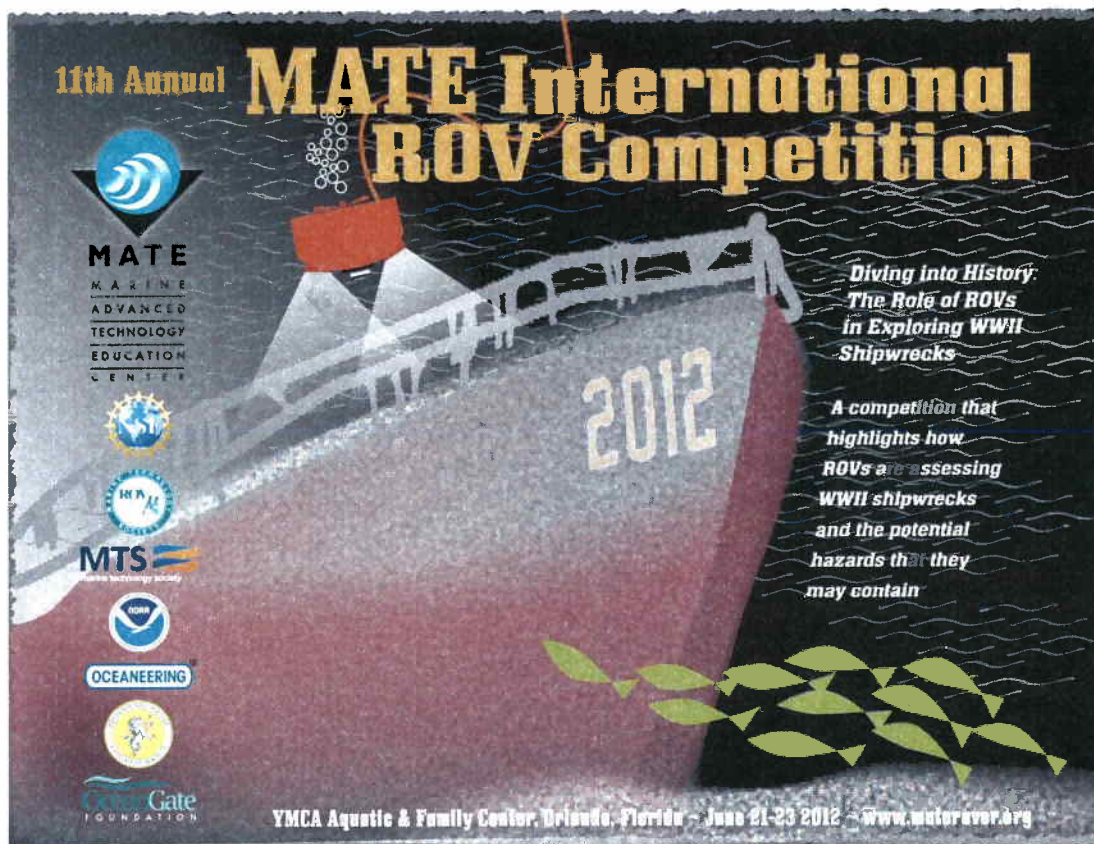

On behalf of Jill Zande, MATE Center; please check out the attached invitation for all details!

The Marine Advanced Technology Education (MATE) Center at Monterey Peninsula College (MPC) invites you to our **12th Annual Monterey Bay Regional ROV Contest**. More than 60 elementary, middle, high, and home school teams from Monterey, Salinas, Pacific Grove, Hollister, San Luis Obispo, Santa Maria, and the San Francisco Bay area have designed and built ROVs (underwater robots) to compete in the event, which takes place **at the MPC swimming pool on Saturday, May 12th from 10:00am to 4:00pm**. The awards ceremony will be held at 4:30pm in the MPC Amphitheater.

The Marine Advanced Technology Education (MATE) Center at Monterey Peninsula College (MPC) invites you to our **12th Annual Monterey Bay Regional ROV Contest**. More than 60 elementary, middle, high, and home school teams from Monterey, Salinas, Pacific Grove, Hollister, San Luis Obispo, Santa Maria, and the San Francisco Bay area have designed and built ROVs (underwater robots) to compete in the event, which takes place **at the MPC swimming pool on Saturday, May 12th from 10:00am to 4:00pm**. The awards ceremony will be held at 4:30pm in the MPC Amphitheater.

This year's contest focuses on WWII shipwrecks and how ROVs are evaluating these wrecks and dealing with any potentially hazardous fuel oil that they may contain. Students are preparing ROVs to survey the shipwreck, remove debris from the wreck site, and collect samples of the oil inside – all simulated at the bottom of the MPC swimming pool!

In addition to the underwater mission tasks, the students will exhibit poster displays that describe their vehicle, its various control, buoyancy, and propulsion systems, and the members of their team. The students will also deliver a presentation about the science and engineering behind their vehicle to a group of professional engineers and ROV pilots/technicians from local organizations, such as the Monterey Bay Aquarium Research Institute. During their presentation, the students will have the opportunity to learn more about these industry professionals and the work that they do – and hopefully become inspired to pursue careers in ocean science and technology! Of course it is also a chance for the students to learn more about MPC.

All total, we expect more than 300 students, instructors, parents, cheerleaders, judges, and volunteers to take part. We encourage you to join us for this fun, exciting, and educational event!

Marcella Colbert Stokes

~ 2012 ~

CARMEL - Marcella C. Stokes passed away April 7, in Monterey. Born in Covington, Kentucky, she moved with her parents to Riverside, California in 1941. Marcella was valedictorian of her class at Riverside Community College and completed her Bachelor's in Art History at the University of California at Riverside.

Marcella and her husband, Richard J. Stokes, lived in Riverside until his retirement. In 1976, the couple moved to Carmel Highlands, drawn to its natural beauty and art culture. There they worked on their new home, traveled and participated in community organizations. Richard died in 1994.

Marcella was a member of the Docent Council of the Monterey Museum of Art for many years. She also was a member of the Oriental Art Society, Ikebana International, Asian Art Museum, Metropolitan Museum, World Affairs Council, and the **Gentrain Society of Monterey Peninsula College.**

An intrepid world traveler, Marcella made several trips to achieve a lifelong goal of traversing the fabled 'Silk Road' trade routes, visiting many Central Asian locales little-known to tourists.

Marcella is survived by her wonderful friends and neighbors in Carmel; her nephew, Christopher (Mary) Stokes of Woodland and nieces, Jennifer (Bob) Burns of Santa Barbara and Bridget Stokes of San Rafael. Her family and friends will miss her joie de vivre, her wit and intellect and the fierce independence with which she lived her life.

Private family services will be held. Please visit www.thepaulmortuary.com to sign Marcella's guest book and leave messages for her family.

Fort Ord getting monument status

DESIGNATION COVERS EASTERN HALF OF MILITARY LAND

By **PAUL ROGERS**
San Jose Mercury News

Fort Ord will become America's newest national monument, the San Jose Mercury News has learned.

President Barack Obama is scheduled to establish the new designation on Friday, making the sweeping former military base only the second national monument he has created since becoming president in 2009.

"Fort Ord's dramatic landscape lives in the memories of thousands of veterans as their first taste of Army life, as a final stop before deploying to war, or as a home base during their military career," Obama said in a statement late Thursday.

"This national monument will not only protect one of the crown jewels of California's coast, but will honor the heroism and dedication of men and women who served

 **on the Web**

our nation and fought in the major conflicts of the 20th century," Obama said.

More details are expected to be released Friday, but a White House official familiar with the plan said about 14,650 acres will be included in the monument. The land on Fort Ord's eastern half doesn't include the campus of CSU Monterey Bay, the oceanfront lands along Highway 1 that make up Fort Ord Dunes State Park, or hundreds of homes and businesses on the property in Seaside and Marina.

Under most national monuments, oil and gas drilling,

along with mining, is banned. The new monument, which will be supervised by the federal Bureau of Land Management, will include 7,200 acres now run by the BLM and open for hiking, horse riding and bicycling. It will include an additional 7,450 acres where decades of unexploded shells and other ordnance once used for artillery practice are being cleaned up. The work is scheduled to be finished in 2019. That land is under the control of the U.S. Department of Defense.

In the past year, environmental leaders, business officials and politicians in the Monterey Bay Area have pushed hard for the former Army base to become a national monument. Their concerns were two-fold: They wanted the designation to raise the profile of the area to attract tourism and business, and to permanently lock in open space and environmental protections.

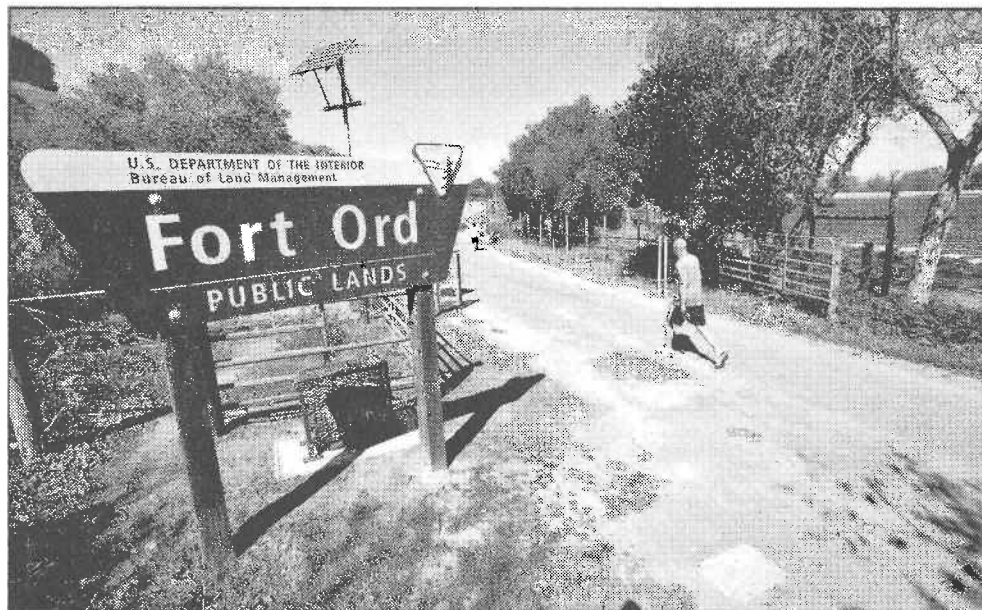

"It's a great day for everybody in Monterey County, that's for sure," said Gordon Smith, a Vietnam veteran who joined others in the past six weeks on regular conference calls with federal officials in pursuit of the national monument designation. "I'm stoked."

Smith was part of a group that took two trips to Washington, D.C., to lobby for the designation, culminating in a brief face-to-face meeting with Obama in March.

The former base, a 28,000-acre site the size of San Francisco, was put on the federal closure list in 1991, ending a storied history that began in 1917.

When the base was closed in 1994, there were 15,000 soldiers and civilians from the 7th Infantry Division, along with roughly 22,000 family members, who were moved to Fort Lewis, Wash.

Panetta, then a Central Coast congressman, pushed

Entering the Fort Ord Public Lands, Creekside Terrace Trailhead area.

hard to establish a new university, and in 1995 CSU Monterey Bay opened on the old base. Today the school has 5,100 students and 150 faculty members.

Toxic cleanup

A long, slow toxics cleanup removed tons of old bullets from firing ranges along the huge dunes on the base between Highway 1 and the Pacific Ocean, and that land, with four miles of oceanfront, became a state park. Hoping to make up for the huge economic hit — schools closed as children left, businesses in Seaside and Marina went bankrupt and local tax receipts fell — state lawmakers created the Fort Ord Reuse Authority to redevelop the base.

Smith said he hopes the national monument designation will "have a positive impact on re-evaluation of the development of Fort Ord," with the priority shifting away from undeveloped land to already blighted areas.

During the past 15 years, the Fort Ord Reuse Authority has helped facilitate deals to build hundreds of new homes and open several large retail outlets on the property. But dozens of

dilapidated old military barracks and other buildings, many contaminated with lead paint and asbestos, remain. They will be torn down when enough money from developer fees is raised, said Dave Potter, chairman of the Fort Ord Reuse Authority board.

"It was devastating when Fort Ord closed," Potter said. "We were a military community. It was the third leg of our economy — agriculture, tourism and the military. Now, 20 years later, we have made progress, but the promise has not been delivered yet for full economic recovery."

Potter said the monument designation will not limit business development on the base because it will only affect the rural, undeveloped eastern half of the property. Local business leaders and local political officials support the idea, he said, because it could help boost the economic renaissance of the base.

"It is an asset," he said. "To have this kind of public space for open space and recreation in your backyard will help entice businesses to come here."

Obama's action will not require a vote of Congress. He will establish the monument under the 1906

Antiquities Act, a law signed by President Teddy Roosevelt. Since then, nearly every president has used the act more than 125 times to provide special protection to federal lands of national importance.

Smith, an Air Force veteran who worked for months on behalf of VFW Post 5888 in Santa Cruz and Keep Fort Ord Wild, said he hopes the new preserve will be called the Fort Ord Soldiers National Monument in honor of the many young men who trained for combat on the military base, shipped out to war and never returned.

One of the people who pushed hardest for the Fort Ord monument said late Thursday that she hopes the planning process that will follow will preserve access for hikers, bicyclists and horse riders.

"This is fantastic," said Henrietta Stern, president of Fort Ord Recreation Trails Friends and a member of the group that met Obama. "We really aren't asking for anything new. We just wanted to make sure that what we're enjoying today will always be preserved for future generations."

Herald staff writer Jim Johnson contributed to this report.

'Dream' clubs open doors for undocumented students

TELL ABOUT AVAILABLE SCHOLARSHIPS

By CLAUDIA MELÉNDEZ SALINAS
Herald Staff Writer

Faithfully following their agenda, students of the Yo Puedo club at Alisal High School in Salinas presented a report during their half-hour meeting during lunchtime Thursday.

As the students munched on sandwiches and chips, club adviser Ramón Anaya gave an update on the previous night's banquet, the club's finances and an

upcoming field trip.

He also talked about the special challenges undocumented students face, and a scholarship they could qualify for.

"If you have friends or know of any other student who could qualify for this, send them my way," he said. "You don't have to go to a four-year university. You could go to a vocational school."

Anaya knows of about 15 students at Alisal High who were brought illegally to the United States by their families, but he suspects there's many more. They likely don't know there are resources to

help them continue their education, such as Assembly Bill 540, which allows them to pay in-state tuition at public colleges.

"It's a very touchy subject," he said. "They're not open about it. Sometimes we don't find out about it

until they fill out some applications."

Undocumented youths are scared to come out of the shadows. Not only could they be rejected by their peers, they may also face an uncertain future with no legal status in a country many of them consider their own.

That's why some educators and activists are encouraging undocumented students to form "Dream" clubs, named after proposed Dream Act legislation that would grant them legal residency in the United States if approved.

The clubs "create a safe atmosphere for undocumented students who would

otherwise be scared," said Ramiro Medrano, DREAM Club adviser and family involvement coordinator with the UC Santa Cruz GEAR-UP Program in Watsonville.

"It's like being gay," he said. "A lot of people are scared of telling they're undocumented. It's important for teachers to know so they can offer support."

And information. Because they don't reveal their immigration status, students don't know they could be eligible to receive in-state tuition when they go on to higher education. Beginning in 2013, they will be eligible to receive state financial aid.

"Part of the vision or mission that these clubs can have is to inform people about what is AB540, what's AB130 and 131, what kind of

Dream events

- The California Dream Act Network will host an all-day live video event for high school counselors, educators, and community members. Information will include how to fill out the California Dream Act application, training for counselors. From 9 a.m. to 6 p.m. at www.collegeweeklive.com/CACFC
- The Dream Teach-In is at 1 p.m. Saturday at the Springfield Grange, 65 Elkhorn Road, Pajaro. For

information about starting a Dream club in schools, and pending dream resolution to the Pajaro Valley Unified School District board. The teach-in will be followed but a fundraiser spaghetti dinner. To register for the Teach-In see tinyurl.com/dreamofspring

- Dream Festival: A fundraiser with music, food, and entertainment too benefit dream students is at noon Sunday at Watsonville High School, 250 E. Beach St.

allows them to apply for Cal Grants.

AB130 cost taxpayers nothing because it provides access to private money. Government officials have estimated an additional 2,500 students will be eligible to apply for Cal Grants at a cost of \$14.5 million, or about 1 percent of the total Cal Grant budget.

Medrano believes the help offered to "dream" students has nothing to do with rewarding illegal behavior, but with investing in the future. These are students who have already been educated in the U.S. system, a condition to obtain the financial aid, he said.

"If they go to college, they're going to improve themselves," he said. "They won't be living off the

system."

Carlos Cervantes, a student at Hartnell College in Salinas, said he would have benefited from a Dream club at Soledad High School, where he graduated in 2007.

"At first, I didn't know I could go to college. I didn't know I was an AB540 student," he said. "It would have been really helpful."

Cervantes is studying nutrition and has been accepted to CSU Fresno, where he will transfer to in the fall.

Anaya said it may be difficult to launch a dream club at Alisal High, but he may explore the idea.

"I know some teachers approached me about it, but we just talked about it," Anaya said.

aid do they give to students," Medrano said.

It's a delicate topic. AB130 and AB131, the "California Dream Act," were strongly opposed by anti-immigrant groups that said financial aid amounted to rewarding

illegal behavior. Together, the bills expand financial opportunities previously not available to undocumented students: AB130, which went into effect this year, allows them to apply for private scholarships, and AB 131

Shirley Thomas

Wife, Mother, Community Activist

1935 – 2012

For everyone who knew her, Shirley Thomas had a dynamic presence and upbeat spirit big enough to light up a room. Her charismatic personality and dramatic style gave great joy to the many privileged to know her. After a peaceful farewell amongst friends and family, Shirley passed into the presence of Her Savior after a long, courageous battle with cancer on April 23, 2012.

Shirley was born in San Francisco in 1935 and was raised in The City, graduating from George Washington High School and attending Lone Mountain College for Women. She was a librarian at the Marina Branch of the San Francisco Public Library where she met a Hastings Law student, soon to be her husband, Donald Thomas. During the 11 years spent in Orland, CA while raising her family, Shirley's activities included sailing with her husband, campaigning for political candidates, founding a local Great Books Discussion Group, leading her parish Youth Group, and becoming one of the first certified lay catechist. The Thomases moved to Carmel-by-the-Sea in 1966. She became immediately active in her new church and community, teaching catechism and volunteering for Girl Scouts, American Field Service, Community Hospital Auxiliary, Forest Theater Guild, Monterey Peninsula Museum of Art, Lyceum of the Monterey Peninsula, Carmel Republican Women, Monterey Peninsula Yacht Club, and the local boards of The American Cancer Society, the Symphony Guild, and Friends of Hidden Valley. She also was appointed to serve on the Presidential Commission for Civil Rights for 6 years. She became the executive director of "Project Worth," a support service for displaced homemakers, was a district supervisor of the 1980 U.S. Census, and associate producer of Samfilm (motion picture and video production company). Shirley also enjoyed traveling with her husband all over the world, and was a voracious reader, a long-time member of a local book club. Her commitment to the arts community of the Monterey Peninsula was passionate, and she was, herself, a gifted Shakespearian stage actress, participating in theater productions at Monterey Peninsula College and Forest Theater. Her other important interest was a commitment to environmentalism as a member of The Sierra Club and the "Save Hatton Canyon" Committee.

Her spiritual involvements included a neighborhood weekly prayer group, bible study at The Carmel Mission, charismatic prayer meetings and various retreats. Shirley took her faith seriously, having a deep personal devotion to Her Lord. She was committed to the Pro-Life Movement as well as the newly formed local Immaculate Heart Radio Station.

Shirley touched and inspired the lives of many, especially giving support and invaluable guidance to those with medical conditions. She will be missed by all. Above all else, she loved her husband, Donald, of over 56 years, and her three children, daughters, Pam and Terri, and son, Don; sons-in-law, Andy Miller and Alex Kent; and three grandchildren Abby, Ian, and Fiona; sister and brother-in-law, Millie and Tom Corsiglia; and many dear nephews and nieces.

The family wishes to thank Wayne Kelley as Eucharistic Minister to the homebound, the Terrace West Nursing Staff at CHOMP, and the VNA nurses, especially Jana Schmidt, for their compassionate care of Shirley during her last days here. We are most grateful to Dr. Jerome Rubin for his friendship, respect and dignified care of Shirley for the past 28 years.

A Visitation Hour and Rosary will be held on Sunday, April 29 at 6:00 PM at The Mission Mortuary, 450 Camino El Estero in Monterey, and a Funeral Mass at Carmel Mission Basilica on Monday, April 30 at 10:00 AM. In lieu of flowers, the family requests that donations be made to a charity of your choice, The Carmelite Monastery, The Carmel Mission Foundation, or Immaculate Heart Radio. Arrangements by Mission Mortuary, Monterey, California.

MPC Storybook Theatre grows with their audience in 'Little Women'

By LILY DAYTON
Herald Correspondent

While a primary goal of community theaters is to attract new audience members, another important goal is to sustain the audience they already have.

But in the case of Monterey Peninsula College's Storybook Theatre — which is geared for children and their families — the audience members mature rapidly year by year.

The majority of Storybook patrons from 10 years ago in middle school or high school today. So with them specifically in mind, MPC Storybook Theatre has decided to offer something new for the older children and adolescents on the

Monterey Peninsula

A stage adaptation of Louisa M. Alcott's 1869 biography, "Little Women," opens Friday at the Carmel Middle School on Carmel Valley Road.

Directed by Laura Coté, the production features Chelsea S. Kennedy, Alisha Gay, Amanda Schemmel and Alyssa Pierce.

In addition, after performing on the MPC stage as a college freshman more than 30 years ago, Faith Collins-Beety will be playing the role of "Marmee," the mother of the four March sisters.

Against the backdrop of the Civil War, the sisters come of age while their father is off fighting in the South. While Meg falls in love, Jo dreams of following her ambitions of someday becoming a writer, Beth is

the caregiver in the family and Amy is the precocious youngest sister on the brink of adolescence. Together, they find heartwarming joy even in the most difficult of times.

"While many Storybook productions are geared toward a younger audience, we decided it was time to offer something for our growing audience to appreciate," said Coté. "Little Women' is over 150 years old, but the themes of family, hopes, dreams and fears are similar to ones we have today."

Coté was attracted to directing this production because she has fond memories of reading this book as an adolescent.

"I think everyone I know loved this story as a little girl," said Coté. "I have a sister and what drew me to

the book was how similar our relationship was to the sisters in the book."

Still, she said that a story adapted to the stage can come across as very different from the original book. For this reason, she read many scripts before choosing the one written by Marian De Forest.

"I settled on the one that was most true to the novel," she said. "The language is elegant and lyrical and it shares much that's in the novel, but it's abbreviated. It starts with the first line of the book and ends with the very last line of the book."

With a script that has many passages verbatim from the book, the challenge for Coté was to bring out the relevant feelings and emotions of today through language of the 1800s. But this is a challenge she's well-suited for, with training in classical theater from Vassar College.

"It's been fun for me to share my classical training with the cast," she said. "We work on voice, movement and staging. The diction is very clear and the movement for the ladies is more elegant. But it was important for me not to alienate the audience from what's familiar for them today."

So she's blended elements of the two centuries — something she said the young cast members in this production have been a big help with.

"Unlike Storybook's fairytale shows, this show has a realistic element," she said. "The audience should leave feeling as if they've observed a real family over a

period of time."

Lily Dayton can be reached at montereybaylily@gmail.com. GO!

Frank Price Myers

July 13, 1928 ~ April 22, 2012

PACIFIC GROVE – Frank died peacefully at Community Hospital of the Monterey Peninsula, following a brief illness. He was born in Cincinnati, Ohio, the only child of Ella Price Myers and Frank Harmon Myers. His father was a notable artist who later became president of the Carmel Art Association. A portrait of Frank at the age of five, wearing a cowboy suit is in the Smithsonian American Art Museum.

In 1941, the family moved to Pacific Grove, California. Frank graduated from Pacific Grove High School in 1946. He earned a B.A. from San Jose State, where he met and married Patricia Clarke; they had one son, Brian.

During the Korean War, Frank enlisted in the Navy and achieved the rank of Lieutenant JG on the destroyer escort, USS William Seiverling. The Navy brought him to San Diego where he earned an M.S. and taught at elementary and middle schools for about 30 years. Then he returned to Pacific Grove and lived in the house where he grew up.

As a high school reporter, Frank attended the formation of the United Nations in San Francisco in 1945. While there he heard the Artie Shaw band, and came home to tell his mother he wanted a saxophone. A passion for jazz stayed with him all his life. In San Diego he played with the bands of Bill Heyne, the Windjammers, Nelson Riddle, and Dick Braun and he managed the Hal Crook Band. He backed such performers as Billie Holiday, Bob Crosby, Frankie Avalon, Lawrence Welk, The Coasters, and The Platters.

In Monterey he performed with the Del Monte Express, John Daly, and the Monterey Peninsula College Alumni Jazz Band. He also played in the orchestra for musicals at Western Stage. From 1960-1970 he was Music Director of La Jolla Junior Theater. In 1985, while sailing the Caribbean with friends, he composed tunes that he later turned into The Dutch Yankee Caribbean Suite for saxophone sextet. Frank also played Renaissance music for many years at San Diego's Olde Globe Theatre and recorded two albums with The Festival Consort.

During his life Frank played music in Sasebo, Japan, in Tijuana, on the HMS Queen Mary, and on top of the Grand Pyramid of Uxmal in the Yucatan jungle.

In retirement Frank enjoyed jobs at Mail Boxes Etc. and at the Smith and Hook winery where he was Tasting Room Manager. He followed Pacific Grove High School football, hiked with the Tuesday wine hike group at Soberanes Ridge, and played with both the Monterey and Canterbury Woods Recorder groups. He loved playing Christmas duets on recorder on Candy Cane Lane with his son. He enjoyed hiking, traveling, theater, dance, daily walks along the ocean, listening to jazz, and spending time with his companion of the past 13 years, Peggy Hansen.

He is survived by his son, Brian Myers and daughter-in-law, Ellen Walkley of Portland, Oregon, and by Peggy Hansen of Pacific Grove and her family.

An informal memorial gathering will be held on Saturday, May 19, 2012 from 3:00-5:00pm at 306 Willow Street, Pacific Grove. In lieu of flowers, memorial gifts are suggested to Monterey Jazz Festival Next Generation, (please write check to Monterey Jazz Festival with "Next Generation" on the memo line), P.O. Box JAZZ, Monterey, CA 93942.

MONTEREY

MPC search panel holds first meeting

The Monterey Peninsula College advisory committee on the president's search is holding its first meeting at 1:30 p.m. Tuesday in the Administration Building's Large Conference Room.

Members of the public and MPC faculty, staff and students are allowed to attend the meeting and have an opportunity to speak for three minutes at the beginning of the meeting.

MPC's Keahi named JC All-American

Herald Staff Reports

Janessa Keahi was named to the Junior College All-American softball team for Monterey Peninsula College.

The sophomore slugger hit .441 in 38 games for the Lobos, with 25 of her team-leading 52 hits going for extra bases.

Keahi scored 36 runs, hit four home runs and drove in 22 for MPC, which reached the Northern California Regionals, posting 26 wins.
