Monterey, CA 93940-4799

RE: Audit Control Number (ACN): 09-2012-32247
FAC ACN: 09-2012-38736
OPE ID: 00124200

Dear Dr. Tribley:

The U.S. Department of Education (Department) has reviewed a single audit report of Monterey Peninsula College (MPC). This audit report, prepared by Vavrinek, Trine, Day, & Co., LLP, Certified Public Accountants, in accordance with the Office of Management and Budget Circular A-133, covers the period July 1, 2011 through June 30, 2012. This letter advises MPC of the Department's final audit determination concerning the portions of the audit report that relate to the programs authorized pursuant to Title IV of the Higher Education Act of 1965, as amended, 20 U.S.C. §§ 1070 et seq. (Title IV, HEA programs).

The Department has considered the corrective action plan and/or management's response provided with the audit report. MPC's response satisfactorily addressed the auditor's finding. Any supporting documentation submitted with MPC's written response is not included with the final audit determination. However, it will be retained and available for inspection by MPC upon request. Copies of the final audit determination, MPC's response, and any supporting documentation may be subject to release under the Freedom of Information Act (FOIA) and can be provided to other oversight entities after the final audit determination is issued.

Sections .315(b) and .320(c) of OMB Circular A-133 requires MPC to prepare and submit as part of the reporting package a *Summary Schedule of Prior Audit Findings* that reports the status of prior audit findings. In preparing that Schedule, MPC must comment on all actions taken to correct the finding noted in the audit report.

the AMERICAN MIND™

50 Beale Street, Suite 9800, San Francisco, CA 94105-1863
StudentAid.gov

Information provided by MPC and/or the auditor was sufficient to resolve the following finding:

Finding Number 2012-2 – *Inaccurate Federal Pell Grant and Direct Loan Reporting to the Common Origination and Disbursement (COD) System* – Per a phone conversation with MPC on April 29, 2013, it was confirmed that MPC corrected the disbursement dates in COD as soon as the error was discovered. In the Fall semester of 2011, the District stated that it worked with its internal Information Technology staff, and the outside software vendor to develop a solution. The solution was successfully implemented in the Spring 2012 semester. The District's financial aid coordinator can now change the disbursement dates prior to submitting the file to COD so that both records match.

MPC is advised that repeat findings in future audits or failure to satisfactorily resolve the finding of this audit may lead to an adverse administrative action. An adverse action may include the imposition of a fine, or the limitation, suspension, or termination of the eligibility of the institution pursuant to 34 C.F.R. Part 668, Subpart G.

Program records relating to the period covered by this audit must be retained until the later of: resolution of any loans, claims, or expenditures questioned in the audit, 34 C.F.R. § 668.24(e)(3)(i), or the end of the retention period applicable to the record under 34 C.F.R. §§ 668.24(e)(1) and (e)(2).

MPC's continued cooperation throughout the audit resolution process is appreciated. If MPC has any questions about the Department's review, please call Terri Tom of my staff at (415) 486-5616.

Sincerely,

Martina Fernandez-Rosario
Division Director
San Francisco/Seattle School Participation Division

MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

The following findings represent significant deficiencies, and/or instances of noncompliance including questioned costs that are required to be reported by OMB Circular A-133.

2012-1 COD REPORTING

Federal Programs Affected

Student Financial Assistance Cluster - U.S. Department of Education (DOE), Federal Pell Grant Program (CFDA No. 84.063) and Federal Direct Student Loans (CFDA No. 84.268)

Criteria or Specific Requirement

34 CFR Section 690.83: Submission of reports, Disbursements To or On Behalf of Students A-133 Compliance Supplement: Student Financial Assistance Cluster:

For Pell and Direct Loan disbursements, the disbursement date and amount in the Common Origination and Disbursement files must agree to the disbursement date and amount in students' accounts or to the amount and date the funds were otherwise made available to students.

Condition

During our review of the requirements for disbursement to or on behalf of students processed at the District, it was observed that disbursement dates and amounts reported in the Common Origination and Disbursement (COD) files did not match the District's financial records.

Questioned Costs

None noted.

Context

The condition was identified as a result of reviewing the District's compliance requirements for disbursements to or on behalf of students.

Effect

The District is not in compliance with the Federal requirements described in the A-133 Compliance Supplement.

The District can potentially face future financial sanctions or penalties from DOE if the District fails to take corrective actions to remedy the condition identified.

Cause

The District has not implemented policies and procedures to ensure compliance with Federal requirements regarding disbursement to or on behalf of students.

MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

Recommendation

It is recommended that the District implement procedures to ensure that the disbursement date and amount match between the COD files and the students' account records.

Management's Response and Corrective Action Plan

This finding is a carryover from the 2010-11 audit, however, the District has recently implemented a fix. In the fall semester of 2011, the District was working with internal IT staff and the outside software vendor to develop a solution. The solution was successfully implemented in the spring 2012 semester. The District's financial aid coordinator can now change the disbursement date prior to submitting the file to COD so both records match.

2012-2 **SUSPENSION AND DEBARMENT**

Federal Program Affected

National Science Foundation
Marine Advanced Technology Education Resource Center (CFDA No. 47.076)

Criteria or Specific Requirements

Agencies shall establish procedures for the effective use of the List of Parties Excluded from Federal Procurement or No-Procurement programs to assure that they do not expend assistance to listed parties in violation of the Executive Order.

Condition

The District is not verifying that all vendors for which the Federal grant has expended over \$25,000 has been suspended or debarred by the Federal government as required by the Office of Management and Budget.

Questioned Costs

No questioned costs. See context.

Context

The District did not expend any funds to excluded parties; however, controls are not in place to ensure that future Federal funds are not expended to an entity included in the Excluded Parties List.

Effect

Future expenditures to excluded parties can result in the District having to return Federal funds.

MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

Cause

The District has not implemented a control to ensure all vendors are being verified as not being suspended or debarred.

Recommendation

We recommend the District implement procedures to verify all vendors who are providing services to federally funded programs in excess of \$25,000 are not suspended, debarred, or otherwise excluded. The District should also update contracted templates, or purchase orders, for all contract types that exceed \$25,000 to avoid any non-compliance and possible return of Federal monies.

Management's Response and Corrective Action Plan

The Fiscal Services department has implemented an internal procedure to verify all federally funded programs vendor requisitions are checked in the System for Award Management (SAM) website. This will ensure that the vendor is not suspended or debarred by the Federal government and that the vendor is not on the Excluded Parties List. This procedure was taking place, but only for the requisitions that were over \$25,000. Staff is now instructed to check all vendors who have cumulative transactions in excess of \$25,000.

The Fiscal Services department will also update the independent contractor form for the federally funded programs which will have a check box to verify that the System for Award Management (SAM) website has been reviewed and verified that the vendor is not on the Excluded Parties List.

MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT

STATE AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

The following findings represent instances of noncompliance and/or questioned costs relating to State program laws and regulations.

2012-3 ATTENDANCE ACCOUNTING PROCEDURES

Criteria or Specific Requirement

CCR, Title 5, Section 58022, and Chapter Four of the Student Attendance Accounting Manual published by the California Community Colleges Chancellor's Office state that each course using the Actual Hours of Attendance Method that claims attendance on the Annual 320 must provide a tabulation that provides a detailed listing of actual student hours of attendance.

Condition

During the review and testing of positive attendance courses under Instructional Service Agreements and Contact Hours Recalculation we were unable to obtain source documentation that verified students attended and completed the courses to support the hours claimed on the Apportionment Attendance Report Form CCFS-320.

Questioned Costs

Unknown at this time. However, testing has revealed a total of 189 FTES related to positive attendance courses taught under Instructional Service Agreements and an additional three FTES related to other positive attendance courses for which supporting documents could not be obtained.

Recommendation

The District should closely monitor and review attendance procedures related to the execution of positive attendance courses to ensure that there is an adequate system in place to retain attendance records as source documentation to support hours claimed for apportionment.

Management's Response and Corrective Action Plan

The District has taken corrective actions to ensure that proper documentation is generated for instructional services agreements. Staff has notified program directors at the South Bay Police Academy, that paper records be retained pursuant to the adopted Records Retention board policy. Program Directors at the Fire Academy and Pacific Repertory Theater have been notified to verify their existing documentation of positive attendance by validating with daily attendance records and providing instructor certification of such. The District is looking at standardizing the use of attendance forms to improve readability of data input. Signed and authenticated positive attendance records will be retained by Admission and Records, including daily attendance and total hours.

MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT

STATE AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

2012-4 TO BE ARRANGED (TBA) HOURS

Criteria or Specific Requirement

- California Community Colleges Chancellor's Office Legal Advisory 08-02: A clear description of the course, including the number of TBA hours required, must be published in the official general catalog or addenda thereto and in the official schedule of classes or addenda thereto.
- California Community Colleges Chancellor's Office Legal Advisory 08-02: Specific instructional activities, including those conducted during TBA hours, expected of all students enrolled in the course are included in the official course outline. All enrolled students are informed of these instructional activities and expectations for completion.
- CCR, Title 5, Section 58022, and Chapter Four of the Student Attendance Accounting Manual published by the California Community Colleges Chancellor's Office state that each course using the Actual Hours of Attendance Method that claims attendance on the Annual 320 must provide a tabulation that provides a detailed listing of actual student hours of attendance.

Condition

During testing of courses with TBA hours it was noted that there was inconsistency regarding the number of TBA hours attached to a given course when looking at the College Catalog, the Schedule of Classes, and the Course Outline of Record. Additionally, it was noted that the District is unable to provide detailed documentation that supports the completion of TBA hours by the students enrolled in the courses.

Questioned Costs

Unknown at this time. However, testing has revealed that a total of 120 contact hours claimed on the Apportionment Attendance Report Form CCFS-320 for which supporting documents could not be obtained.

Recommendation

We recommend the District modify its Course Catalog, Schedule of Classes, and Course Outlines of Record to ensure that the number of TBA hours attached to a particular course is consistently communicated within all documents. In addition, all District personnel should be made aware of the requirements for the District to maintain detailed documentation to substantiate TBA hours for reporting data on the Apportionment Attendance Report Form CCFS-320.

Dear Clay:

With a change in staff in the MPC Foundation, I am not sure how communication has been regarding our baseball field project. I thought it would be appropriate to update you about the great year the Lobos just completed.

For the first time in 40 years, the Lobos are conference champions. As I sat in the stands watching our team defeat Hartnell College to clinch the title, I thought how fortunate the large crowd was to have the new seating. Thanks to you and 1st Capital Bank this needed upgrade was made possible. Enclosed are some pictures of the seats, the bank sign on the backstop, and the Lobos celebrating the league title.

Clay, you have had quite an impact on the Monterey Peninsula baseball scene this past year with the improvements at MPC and Sollicito Park. Thanks for all you do in the community and for being a great friend to Monterey Peninsula College.

Sincerely,

Certification & Close of File

May 20, 2013

DR. Walter Tribley
MONTEREY PENINSULA COMMUNITY COLLEGE DISTRICT
980 FREMONT STREET
MONTEREY, CA 93940-4799

Project: MONTEREY PENINSULA COLLEGE
Application #: 01-111583
File Id #: 27-C1
Scope: Alterations to 1-Gymnasium Building

Dear DR. Walter Tribley:

The Department of General Services' records indicate that the construction of the referenced project has been completed in accordance with design documents approved by the Department, and that all the Verified Reports covering the construction have been received. Therefore, the Department of General Services Certifies as follows:

This project is in compliance with California State regulations as to the safety of design and construction of public schools, and for the accommodation of persons with disabilities.

As stated in our letter approving the plans and specifications for this project, the Department does not review design documents or construction for compliance with the electrical, mechanical, or plumbing regulations. It is the responsibility of the professional consultants named on the application to verify compliance with appropriate parts of the California Building Code, and to submit Verified Reports documenting compliance.

Sincerely,

Regional Manager

Dr. Walter Tribley
Superintendent/President
Monterey Peninsula College
980 Fremont Street
Monterey, California 93940

Dear Walt:

Thank you for your recent letter accepting a position on the Panetta Institute's *Academic Advisory Committee*. I appreciate hearing from you. I also enjoyed talking with you over lunch and learning of your plans for Monterey Peninsula College (MPC) and the challenges currently facing the college. In addition, I was pleased that you were able to attend the *Leon Panetta 2013 Lecture Series* program, *The Budget Blame Game*, featuring James Carville and William Kristol.

Until we next visit, perhaps at Carsbia Anderson's retirement celebration on Friday, May 31st, my very best wishes and, again, thank you for agreeing to participate on the Institute's *Academic Advisory Committee*.

Sincerely,

A handwritten signature in cursive script, appearing to read "Sylvia M. Panetta".

FIRST MONDAY

CALIFORNIA COMMUNITY COLLEGES CHANCELLOR BRICE W. HARRIS

Memorandum

DATE: June 3, 2013

TO: California Community College CEOs

FROM: Brice W. Harris, State Chancellor

SUBJECT: First Monday – June 2013

Colleagues,

The following are items of interest and importance for our system, and are provided for your information. If you have comments or concerns on any of these items feel free to email me at bharris@cccco.edu or telephone me at 916-322-4005.

1. **Budget Developments:** I will refrain here from going into detail about the budget since I am confident that you have all received news on the Governor's May Revision as well as the proposals by the Assembly and Senate. Needless to say, this is a far better conversation than we have had in several years and the proposed support by the Governor, Assembly and Senate is a clear demonstration of the value our state leadership places in the work you have done during the very difficult past four years. During my more than two decades in California, I have never seen a time when our system priorities of restoring access and improving student success have aligned better with those of our elected leaders. We expect an on-time budget again this year and that means the next few weeks will be critical. I have enclosed a summary of the budget points we made in the Legislature after the Governor's May Revision for your information. As you can see, both the Senate and Assembly picked up on parts of our recommendations. I encourage all of you to keep talking with your elected representatives on the tremendous needs you are facing in restoring access, rebuilding your core budgets (COLA) and improving the success of students. All of us here will be focused on the budget in the coming weeks and if in your conversations with your Assembly members and Senators you learn something you think we should know, please call me or Deputy Chancellor Skinner directly.
2. **Salary Surfer to Be Previewed This Month:** Later this month we will roll out a new online tool to help students explore careers and fields of study as they plan for their future. The *Salary Surfer* tool will be an online method for the public to review the aggregated median salaries of students two years before they complete a given program, degree or certificate, and compare that wage with earnings two and five years after they complete their work. I think you will find some very exciting and interesting information in this new tool, and it will again – as did our scorecard – allow us to tell our own story rather than be defined by our critics. I have enclosed some sample pages of the tool that will be live June 19, 2013. We will be kicking off the new tool at Grossmont College with a statewide press event on June 19th. We expect this on-line tool will generate tremendous interest. In addition to the *Salary Surfer*, enhancements to our existing DataMart tool will allow you to view some of these data for programs at the college level.

3. **Enrollment:** I know the vast majority of you have been adding summer and fall classes to your schedules as you begin to restore the access we have lost over the past few years. We all understand that each of our colleges will have differing abilities to add classes back depending on local demand in their given area. While we are in this “enrollment trough” and as we work to turn our system from rationing to restoring access, our enrollment will be less predictable and stable than normal. We expect many colleges to combine their efforts to improve students success with access restoration by offering student success courses with the added funding for additional courses. Your enrollment managers and academic leaders will have their hands full balancing student demand and available resources. Thank you in advance for what you will do to quickly and carefully restore the classes our students need to complete their educational goals.
4. **The Foundation’s Career Pathway Student Assistant Program – Partnership in Workforce Development:** As we continue to implement our approach to workforce development through our “Doing What Matters for Jobs and the Economy Program,” the Foundation for California Community Colleges is partnering with us in several ways. The Foundation has an innovative paid student internship program named the Career Pathway Student Assistant Program. This Program is a terrific fit for our Doing What Matters Program because it provides students with valuable technical and much-needed soft skills training while removing barriers for employers who might otherwise not be interested in setting up and maintaining the back-office infrastructure necessary to implement a student internship program. The Foundation’s program, not only saves employers money it also appeals to them because the Foundation handles the administrative and human resource burden normally involved in recruiting, hiring and paying college interns. The program also helps fill existing and future workforce skill gaps by creating a pipeline of well trained workers by matching paid internship opportunities for students in their fields of study. The Foundation is also continuing to explore new opportunities to work with the Chancellor’s Office and interested colleges, districts and consortia in developing effective, cohesive, and scalable statewide work-based learning and job placement systems that will help meet local and regional needs. We are excited to be partnering with the Foundation in this important effort, and if you are interested, please contact Greg Thomas, the Foundation’s Human Resources Director at gthomas@foundationccc.org or 916-325-1857.
5. **Chancellor’s Office Oversight-Related Issues:** Since assuming this post in November I have seen numerous examples of the wonderful work our colleges are doing daily with students. I have had the opportunity to visit a dozen of our colleges and talk with many of you on system-related issues. Unfortunately, I have also had the opportunity to review several issues related to the “oversight” responsibilities of the Chancellor’s Office. These issues have been related to attendance reporting, accreditation, facilities funding and several others. It is the nature of this job that we will periodically disagree with the colleges as we work to interpret – and in some cases enforce – the many laws of the state. In most of the cases I have reviewed thus far I have upheld the original decision of the Chancellor’s Office and in every case the CEO involved has been very understanding although they have obviously disagreed with my decision. I want to assure you that I take each appeal of a decision made by our office very seriously, and I attempt to carefully review the claim before I make a ruling. Although my purpose here is not to encourage you to challenge the rulings of my staff who I think do a fabulous job in a terribly understaffed environment, I do want you to know that if you question our decisions your appeals will be carefully reviewed and the response will be professional and timely. Having served as you now do as a local CEO, I can understand that you may sometimes feel as if we do not listen or understand. I can assure you that is not the case and our office much prefers to tell you “yes” rather than “no.” However, like all of you, we sometimes must make difficult decisions that put us at odds with the very people we are trying to support and serve. Thanks for your understanding.

-end-

California Community Colleges

Priorities for New Funding

While we are grateful for the funding proposed in the May Revision, we understand there is a possibility of even additional more resources becoming available for Proposition 98 purposes given the LAO's revenue estimates. With that in mind, we thought it would be useful to articulate funding priorities for the California Community Colleges should additional resources be provided. This document is consistent with the System Budget Request approved by the Board of Governors in the fall and is the product of collaboration between the Chancellor's Office and key system stakeholders. Thank you for considering these options.

Current Year – If the final budget assumes the higher revenues estimated by the LAO, the CCCs would stand to gain significant increases in one-time revenues. Assuming an 11% split of the CY P98 increase, CCCs would be in line to receive about \$99M in new funds. Also of note is that the community colleges are funded below the 11% split in the Governor's current year proposal (10.55%). The colleges would benefit from the availability of additional 1-time resources.

Priorities – We believe the best uses of 1-time funds are for 1-time purposes. It is ultimately unfair to use 1-time funds on items such as compensation, as there is no ongoing source to sustain the compensation into the future.

Given that, here are our top priorities for current year funds:

- **Deferred maintenance (40%)** - The deferred maintenance program's purpose is to keep the existing community college physical plant in operational condition and to prevent any degradation in instructional services caused by facility conditions. By properly maintaining our facilities and replacing major building components at their scheduled time – roofs, utilities, windows, etc. - we will extend the useful life of our buildings and we can focus more of any capital outlay bond funds on meeting the system's growth needs. Nearly half of our facilities are 40 years old and our backlog of needs is close to \$1 billion.
- **Instructional Equipment and Materials (40%)** - Currently, community colleges cannot adequately fund instructional equipment, library materials, technology, or workforce development upgrades. Funds for these vital programs have been drastically reduced since 2008-09 due to the elimination of state funding for the Instructional Equipment program. The community colleges have had no state funding available to repair, replace or augment their instructional equipment and library materials inventory for the past three years. In an era of rapid technological change and growing dependence on technology and computers, it is critical that students and staff work with up-to-date facilities and equipment used in the work place. In addition, the disinvestment in instructional materials has the potential to be an accreditation issue.

- Professional Development (20%) - High quality professional development for faculty and staff is essential to supporting the effective operation of our colleges. Unfortunately, due to budget cuts, dedicated funding for this purpose was eliminated from the state budget several years ago and local funding is very limited. Dedicating one-time funds for professional development for faculty and staff in the areas such as student success, institutional effectiveness, and online education would be a high-yield investment in our colleges. These funds will help our colleges to implement effective practices in these areas.

Budget Year - If the final budget assumes the higher revenues estimated by the LAO, the CCCs would stand to gain significant increases in budget year revenues. Assuming an 11% split of the CY P98 increase, CCCs would be in line to receive about \$176M in new funds.

Priorities – Priorities for additional funding are consistent with our position throughout the spring to balance available resources among student success and support programs, access, and rebuilding the purchasing power lost due to the foregone COLAs of recent years.

With this approach in mind, we suggest the following priorities for additional funding in the 2013-14 fiscal year:

- Categorical Restoration (\$48.4M)-
 - EOPS - \$15M
 - DSPS - \$15M
 - CalWORKs - \$12M
 - Part-time Faculty Office Hours/Health Insurance - \$4.2M
 - CARE - \$2M
 - Academic Senate - \$149K

The revised 2009-10 budget reduced ongoing funding for student support programs by \$313 million or an average of 42 percent. Cuts varied by individual program and ranged from no cut to total elimination. Many of these programs provide critical support services to students, such as counseling, orientation, and tutoring, which are vital in enhancing student success. Other categorical programs provide funding to support specific instructional programs or specific disadvantaged populations. In order to preserve core student support programs, we request that the state begin the process of reinvesting in student services by partially restoring funding to key categorical programs. As detailed above, we propose significant funding increases for DSPS and EOPS, CalWorks, and the CARE program. Additionally, we recommend full restoration of the Part-time Faculty Office Hours and Part-time Faculty Health Insurance programs to true up key compensation areas that support our part-time faculty. We also recommend full restoration of support of the Academic Senate to enhance efforts to improve student success, approve SB 1440 degrees and continue progress toward developing common course IDs.

- COLA Restoration (\$88M - balancer) – Due to the deteriorating economic situation, the state did not provide COLAs to the colleges beginning with the fiscal year 2008-09. The price index specified by law for the community college COLA calculation is identical to that specified for K-12 education, the state and local government price deflator published by the federal government. Cost-of-Living-Adjustments have not been received since 2007-08, and have now grown to a cumulative loss of purchasing power totaling 18.3 percent, or \$994 million. This represents a significant loss in purchasing power to the colleges, as they experience rising expenses in the form of utility bills and health care costs, among other expenses. While the May Revision proposes to fund the 2013-14 COLA of 1.57%, this allows CCCs to keep pace with this year’s rise in costs, but it doesn’t address the loss of purchasing power accumulated over the last several years. We note that K-12 tracks a “deficit factor” to account for the foregone COLAs in their system, strongly implying intent to catch up to the true cost of funding services provided. CCCs have the same need to restore purchasing power to appropriately serve students.
- Access (\$20M) – While the May Revision proposes to restore access by 1.63%, increasing this number would allow CCCs to make further progress toward serving the populations that missed out on higher education in recent years due to the severe budget reductions brought on by the recession. Our headcounts are down by approximately 470,000 since the 2008-09 fiscal year, and more funding for access would allow us to serve more of these individuals before they place higher education into their rear view mirror. These additional funds would allow us to serve approximately 9,000 more students. Data indicates that students with some college education earn more and are much more likely to be employed, so this investment would yield great benefits to the state.
- Student Success and Support (\$20M) – Additional investment beyond the Governor’s proposed level would allow for even faster progress toward improving student success rates by providing students with more counseling, advisement, orientation, assessment, education planning, and other supports. In concert with the funding proposed in the May Revision, these additional funds could also address basic skills and transfer issues.

Summary of CCC Funding Priorities

	<u>Current Year</u>	<u>Budget Year</u>
Maintenance (40%)	\$40,000,000

Yves Walter -

We wanted to let you know how much we enjoyed the 7th Annual President's Address to the Community last Friday at the Portola Plaza. The Turn-out was great and the energy in the room was fabulous.

John Mahoney was a great person to honor. We have respected and admired John for quite a while and the video gave us a broader understanding of him in a more personal way. Terri and Steve did a splendid job of conveying his spirit and qualities.

Another highlight beside your informative presentation, was the inspirational story of Shannon Barbour. What an articulate young woman! No wonder she has accompanied you to Rotary meetings! Great move on your part and a good suggestion by John. The student you selected to speak at the President's Circle reception was also very good. He also brought tears to my eyes. Hopefully, these students are causing community members to donate to scholarships.

In closing, we wanted to say "Bravo" to you, the Board, staff, and others who work so hard for our students and community.

Sincerely -

Huko and Victoria Phillips

Dear Walter:

Thank you for meeting with me recently. I am always glad to have the opportunity to meet with educators in the District. The information you provided is crucial to the work I do as a Member of Congress. I appreciate your taking the time to share information and your thoughts. Of course, if there is ever anything I can do for you in the future please do not hesitate to contact my office.

Sincerely,

Subject: FW: Internships for Students
Attachments: Summer 2013 Message to Faculty and Staff.docx

Sent on behalf of Dr. Pinet, Vice President for Academic Affairs.

A recent study published in the Chronicle of Higher Education found that “an internship is the single most important credential for recent college graduates to have on their resume in their job search among all industry segments ...”^[1]

Did you know that MPC’s Cooperative Work Experience Education (COOP) program can assist students in finding internship opportunities or leveraging their current employment to supplement their program of study, career-readiness, and competitive edge in the job market?

As the Spring term draws to a close and students make plans for summer, please encourage students to consider summer internships to

- Establish a work history
- Enhance their resumes
- Explore a potential career field
- Gain greater clarity about career aspirations
- Build a network of professionals
- Boost self-confidence
- Prepare for life after graduation.

Additionally, students can utilize their current employment to advance their skills and accomplish new goals while earning academic credit through COOP.

Students can contact Kathleen Clark, COOP Program Coordinator, at kclark@mpc.edu or at 646-4074 to receive help finding an internship.

Subject: Nominations for Special Recognition Awards

Dear MPC,

I am pleased to request nominations for two special recognition awards that will be presented at the annual Employee Recognition BBQ on May 24. Since 2006, the MPC Foundation has sponsored the annual Classified Recognition Award, and in 2008, the Foundation added support to recognize "Difference Makers" at MPC who have had a significant impact at the college. Descriptions for each award are provided below, and I ask for your nominations in each category. Please email your nominations to me with an explanation about how the nominee meets the criteria for the award. Nominations for both types of awards must be received by **Tuesday, May 14, by 5:00 PM**.

Thank you,
Walt

MPC Classified Recognition Award Sponsored by the MPC Foundation

Who: MPC Classified Employees

What: An annual award presented to one MPC Classified employee, including a modest monetary award

When: Presented at the Annual Employee Recognition BBQ on May 24

Criteria: Award will be presented to an employee who exemplifies excellence in job performance and "goes the extra mile". Award will be based upon:

1. Attendance
2. Attitude
3. Friendliness/all-around good person
4. Effect of their work will be campus-wide

Process: President will solicit nominees from all employees. Nominees will be reviewed by the President and Vice Presidents and one employee selected to receive the award.

Deadline: Nominations are due **Tuesday, May 14, 2013, 5:00 PM**. Email your nominations with an explanation about how the nominee fulfills the above criteria to: wtribley@mpc.edu.

MPC Difference Makers

Monterey Peninsula College will continue the tradition begun in spring 2008 to recognize the College's Difference Makers. MPC Difference Makers are classified, faculty, and management employees who have made a significant impact on the college during the academic year. Examples of "significant impact" can be defined as:

- "Going above and beyond the call of duty" to ensure student and/or instructional needs are met
- "Going above and beyond the call of duty" to help MPC realize its institutional goals
- "Going above and beyond the call of duty" to help plan or facilitate outreach activities

The names of the Difference Makers and their contributions will be announced at the Employee Recognition barbecue on May 24. Recipients will receive a modest monetary award. The Monterey Peninsula College Foundation is underwriting the financial award.

Nominations may be made by any supervisor at MPC. A nomination is comprised of an email detailing the employee's contribution(s) over the previous academic year. **Nominations are due by Tuesday, May 14, at 5:00 pm (send to: wtribley@mpc.edu).** A committee comprised of two administrators, two faculty members, and two classified staff members will review nominations and select up to three honorees.

Dear MPC-

Please join me in welcoming Ms. Rebecca "Beccie" Michael as the new Executive Director of the Monterey Peninsula College Foundation.

Beccie served as Director of Development at Columbia College in Sonoma, CA where she served as Executive Director of the Columbia College Foundation and administered the college's grant writing activities. Under her leadership, the Foundation tripled their annual donations and successfully completed a scholarship fundraising campaign. Ms. Michael has worked as a resource development professional in the California community college system for the past eight years.

Ms. Michael attended Santa Barbara City College before earning a Bachelor of Arts degree with Highest Honors from the University of California, Santa Barbara in 2001. She is currently pursuing a Master of Science degree in Community Development from Kansas State University.

Beccie's hiring is an important step forward in further developing a strategic partnership between MPC and MPCF.

Welcome Beccie!

Subject: Budget Update - Open Forum this Friday at 8:00 AM

Dear MPC-

Good morning. As many of you know, we are facing more difficult challenges related to funding. During Flex Day to start the term, we reported that the District was operating with a \$1,500,000 structural deficit. This was based on the assumption that MPC would make our enrollment goal (apportionment cap) of Full Time Equivalent Students (FTES) for 2012-2013, hire all 7 vacant full-time faculty positions, and that wage concessions would expire at the end of this fiscal year. We have compiled our P2 report and we know that we will not make our apportionment FTES cap for 2012-2013. While P2 reporting of FTES is not the final counting of FTES for the District in 2012-2013, we are currently shy 337 FTES and this level of shortfall cannot be generated from this point forward. We did not make this cap in 2011-2012 and therefore have two consecutive years of low enrollment and the state will adjust our funding down in proportion to our FTES shortfall. This will contribute to our structural deficit considerably.

MPC has made some very impressive efforts to meet this cap. Many of our efforts have yielded increased enrollment in some areas. We will continue to focus on the goal of financial solvency and FTES generation as one of the ways we approach that goal.

There will be an open forum 8:00 – 9:00 AM this Friday in LF 103 to provide more information about the budget shortfall and listen to your inputs.

As always, our MPC community will come together and meet these challenges with grace and an eye on keeping our institution great.

Regarding the classified employees week activities:

Classified employees, please consider attending as many of the activities as you can. Please work through your supervisors to cover time away from your assignments.

Supervisors, please accommodate your employees' requests to participate to allow maximum involvement in these events while still maintaining coverage of department functions. The two workshops on Thursday are part of the classified employees' staff development program and release time is allowed for them – once the employee has requested to attend and you have approved it.

Thank you and let me know if you have questions or if I can assist.

Subject: Hungry and Homeless in Paradise: Toward a Whole Community Approach to Issues of Poverty

Dear All-

MPC hosted a symposium on Saturday, May 21, entitled "Hungry and Homeless in Paradise: toward a Whole Community approach to issues of poverty," with over 250 people in attendance. The event was organized by members of the Social Science Division, Counseling, Trio Student Support Services, and the Nursing office, with outstanding support from many classified employees in security, maintenance, and media. The plenary address by County Supervisor, Jane Parker, outlined the difficult economic situation our local population faces, with jobs in hospitality and agriculture unable to pay enough to afford housing. While the county is working to improve affordable housing and healthcare for the needy, much more needs to be done. The waiting list for assisted housing is five years long and the number of chronic homeless in Monterey County is at least 3,000, many of them women, children, and veterans. After the plenary address, there were productive discussions led by several MPC faculty, including Alan Haffa, Elias Kary, Kendra Cabrera, and Joseph Anderson, with other facilitators from the Mediation Center at the Monterey School of Law.

This event brought together all the community stakeholders including non-profit providers, faith based groups, local policy makers and staff, businesses, residents, and the homeless themselves. It is hoped that this will help to forge collaborations that will identify positive and effective solutions. The event received media coverage by *The Monterey Herald*: http://www.montereyherald.com/local/ci_23275211/monterey-symposium-examines-homelessness

In summary, holding a forum at MPC and enriched by our MPC faculty is another example of how MPC adds value to our communities. A special recognition for Alan Haffa who made this event possible and who's passion and expertise made it so successful.

On Course Workshop

**August 19 and 20 (Monday and Tuesday of Flex Week) 9
am to 4 pm each day with a FREE LUNCH**

More details to come, but if you have talked to any of your colleagues who participated last flex week, you know it is a tremendously positive experience. Comments from MPC faculty about our January On Course Workshop:

"After the training I recognized active teaching as an art rather than as a job that could be mastered. This is not a new idea for me, but after the training was the first time I really believed it possible."

"I felt empowered with the approach to teaching. I appreciated the presenter using the engagement techniques on us, while we were learning the material...I appreciated being able to use the techniques right away, and in multiple ways, applying it to my classroom content. It made me feel excited about using the strategies that we were taught!"

"It helped to remind me of two things: First, our students often have challenges that I never had to face which greatly impact their ability to learn. Second, they are able to change, and we can help them do it through maintaining a balance between understanding and holding to firm academic

principles which are important for them to recognize and strive for."

If you know now you want to come to the workshop in August, email Caroline Carney ccarney@mpc.edu to reserve your place. We will be sending out more information soon.

Subject: Fall 2013 Flex Day Lunch - Reminder

Sent on behalf of the Flex Day Committee

Hello MPC,

Back by popular demand, the Flex Day Committee has arranged with Sandy Im, from the Peninsula Café, to provide a pre-paid lunch for Fall Flex Day, Thursday, August 22, 2013. The cost is \$7.50 per person and consists of your choice of Teriyaki Chicken or Teriyaki Tofu, with rice, vegetables, pot stickers, cookie and beverage.

Lunch will be held in the Caroline Page Garden from 12:00 – 1:20 p.m. and all faculty and staff are welcome to participate. Brown-bag lunchers are also welcome.

If you are interested in purchasing a lunch, please see any Instructional Division Office Manager, Shawn Anderson, Leslie Procive, Sandy Nee, Joanne Hagerty or Stephanie Perkins. Checks only (no cash please), made payable to *Peninsula Café*.

The deadline to place an order is by noon on Friday, May 31st.

Thank you,

The Flex Day Committee

Hello MPC,

The Flex Day Committee has added a technology workshop to the Fall Flex Day schedule called "Tips and Tricks": Would you be interested in discovering those little treasures that could make your life in front of a computer more efficient and less annoying? In this workshop you will learn those little nuggets of gold disguised as "*tips and tricks.*"

Please click on the link below to a survey that will take just a few minutes to complete. This will help the presenters ensure a worthwhile workshop! The deadline for completing the survey is May 31st.

Subject: MPC Brochure

Dear MPC,

Please see the brochure that is being used to attract interest in MPC! This one was spearheaded by professor Boynton, massaged by colleagues and at least one high-school-aged group, and relayed to me by Dr. Pinet. Thank you for this work Diane and Celine.

You may have read the book "The Power of One." The symbolism there is that each of us can make a difference. Imagine if we all brought one additional student to MPC. It can happen. You can make a difference and this brochure may help you achieve that end.

Well, it is getting late, almost 6:45 AM, and I think Carsbia may be getting those grills fired-up for us. I am going over to the amphitheater to help, and hopefully gets some treats.

You are all treats.

See you later today at our recognition ceremony!

Go Lobos!

Need Financial Assistance?

College seems expensive and sometimes out of financial reach, but help is available. MPC can help you apply for various forms of financial aid, including fee waivers, loans, and scholarships.

MPC: A Wise Financial Choice

Are you prepared for the financial cost of higher education? California community colleges offer students an excellent opportunity to reduce costs and fulfill financial goals. Check these figures out:

Full-time California resident student's annual tuition and fees (housing, books, transportation, and living expenses are not included).

Source: Legislative Analyst Office

Getting Started

Getting started at MPC is easy—really! Steps include:

1. Apply for admission. Simply complete an application. In most cases, you will receive a student identification number within 48 hours.
2. Apply for financial aid (if needed).
3. Make an appointment to assess your reading, writing, math, and/or English as a Second Language skills.
4. Enroll in PERS 10, a .5-unit course to help you maximize your experience at MPC.
5. Complete a Student Education Plan.
6. Register for classes.
7. Set up an MPC student email account to ensure you receive college-related information.

Check out www.mpc.edu and follow the links!

Discover new horizons
at Monterey Peninsula College,
a place where instructors and staff
help you determine and achieve your
educational and career goals

MONTEREY PENINSULA
COLLEGE

Excellent Educational Opportunities

MPC is a remarkable community college, well known for its excellent faculty and staff. At MPC you can pursue:

- An Associate in Arts or an Associate in Science degree in preparation for transferring to a university, including
 - Administration of Justice
 - Anthropology
 - Biology
 - Business
 - Computer Science
 - Dental Assisting
 - Early Childhood Education
 - English (including both Creative Writing and Great Books)
 - Graphic and Fine Arts
 - Medical Assisting
 - Music
 - Nursing
 - Psychology
 - Theatre
- A Certificate of Training or Achievement, including such programs as
 - Auto Technology
 - Business/Office Technology
 - Fashion
 - Hospitality
 - Interior Design
 - Massage Therapy

Excellent Student Services

MPC provides a variety of services to help students complete their academic and career training goals. Our services include:

- Career/Transfer Resource Center
- Child Development Center
- Counseling/Academic Advising
- Financial Aid
- Learning Assistance Centers, including
 - Academic Support Center
 - Business Skills Center
 - English & Study Skills Center
 - Math Learning Center
- Library & Technology Center
- Student Health Services

Subject: FW: ASIST TRAINING

Sent to you on behalf of Student Health Services. Please direct any questions you may have to Laura Shipley, at #4018.

Monterey Peninsula College Student Health Services presents:

Applied Suicide Intervention Skills Training

At MPC in Monterey June 12th and 13th

ASIST is a two-day practice dominated workshop that trains professionals and other community providers in suicide "first-aid". Participants are trained how to recognize and assess the potential risk of suicide. This workshop also equips the participant with the intervention skills to keep the person safe until the appropriate level of ongoing help can be accessed.

ASIST is a valuable training for any caregiver, but essential for mental health providers, school personnel (including counselors and staff), EMT's, police, ER staff, caregivers from non-profits and corrections, as well as substance abuse prevention practitioners. Upon Completion of the training, participants will be able to recognize how attitudes about suicide can affect an intervention, identify suicide factors and estimate risk and intervene with a person at risk to help keep him/her safe.

World Class Training

ASIST is the most widely used, acclaimed, and researched suicide intervention training in the world. In addition to learning the knowledge and skills of suicide intervention, participants report improved comfort, confidence, and competence doing interventions. ASIST is not therapy. It is "first-aid" designed to keep a person safe until they can receive further intervention.

June 12th and 13th, 2013 from 8:45am to 4:45pm

Monterey Peninsula College
980 Fremont St.
Monterey, CA
Sam Karas room in the LTC (Library)
*Registration is required

Register on-line at bluelotussuicideprevention.net

Cost: \$150.00 (includes materials and snacks)

This ASIST brought to you by Blue Lotus Suicide Prevention Services in collaboration with Student Health Services.

Dear MPC,

Last Friday's Employee Recognition BBQ was a wonderful and warm event, an MPC tradition that brings us all together and honors our most valuable resource, you. I was pleased to have the opportunity to acknowledge all of you for your efforts and service to MPC, particularly this year's retirees and those receiving awards for long service. In addition, it was a time to congratulate and give special recognition to our colleagues:

- **Andres Durstenfeld**, Allen Griffin Teaching Award Honoree for 2013
- **Gary Quinonez**, Sarlo Foundation Endowment Grant Recipient for 2013
- **Ana Garcia Garcia**, Garrison Fund for Educational Excellence Grant Recipient for 2013
- **Paula Norton**, 2013 Classified Recognition Award Honoree
- MPC Difference Makers for 2013 – **Henry Marchand, Eddie Gil de Montes, and Christine Wood**

A shout out to all of the volunteers: Carsbia Anderson, Suzanne Ammons, Shawn Anderson, Pete Benavente, Gina Bianchi, Charles Brown, Carlis Crowe-Johns, Nicole Dunne, Andres Durstenfeld, Kim Fuji, Laura Franklin, Gary Fuller, Michael Gilmartin, Marilyn Gustafson, Jeanette Haxton, Julie Himes, Christine Hunsley, Sandy Im, Rick Johnson, Sigrid Klein, Barb Lee, Steve Ma, Beccie Michael, Michael Midkiff, Song Monroe, Vicki Nakamura, Cathy Nyznyk, Eric Ogata, Pete Olsen & Crew, Julie Osborne, Céline Pinet, Leslie Procive, George Reed, Mike Rasmussen, Rosaleen Ryan, Helmut Schonwalder, Lyndon Schutzler, Loren Steck, Francisco Tostado, Leza Turner, Larry Walker, Segundo Zosa. The BBQ would not have happened without your help and support. Thank you for your good work to feed and celebrate MPC's employees.

Next week is finals weeks and although I will be out of town in Wenatchee to celebrate my daughter's graduation from high school and finalizing the sale of our home, I will be with you in spirit. And I look forward to seeing you at Commencement on Saturday, the culmination of our work together.

Have a great week,

Walt

I want to express my sincere thanks to the campus community for the wonderful celebration on Friday afternoon! A special thanks to the Sigrid Klein, Larry Walker, Patricia Chapman and Vera Coleman for developing such a wonderful event! I'm here until June 28th and hope to have the opportunity to speak with the many who I didn't have the chance to acknowledge Friday!

Go Lobos!

Important books to read

TO: MPC faculty and staff

FROM: Jo Van Dam, Humanities Division

Students often ask for titles of important books that they should read. To that end, I am compiling a list of book titles that we recommend.

Would you please make entries in any of the following categories that appeal to you. When the lists are compiled, you will receive a copy.

THANK YOU!

1. ALL-TIME IMPORTANT BOOK!

2. FICTION:

Book 1

Book 2

Book 3

Book 4

Book 5

3. NON-FICTION:

Book 1

Book 2

Book 3

Book 4

Book 5

4. FACULTY: What is your Field of Instruction?

5. BOOKS SPECIFIC to Your Instructional Discipline:

Book 1

Book 2

Book 3

Book 4

Book 5

6. THANK YOU to staff members and faculty who participate. Please fill in your name and email address. When the list is compiled, you will receive a copy.

Subject: FW: Summer & Fall Course Reserves

Follow Up Flag: Follow up
Flag Status: Completed

Sent on behalf of the Library. Please direct any inquiries to Roseann Erwin at rerwin@mpc.edu

Dear Faculty:

Summer and Fall sessions are just around the corner! Here are a few updates and reminders about using the library's course reserve service:

- If you need to have your materials available to students on the first day of Summer, please bring or send them to the Library by **June 10th**.
- Materials for Fall semester can be submitted any time but should be in by **August 21st** to ensure availability on the first day of Fall semester.
- Course reserve is available at the Marina Education Center, in MA 101. Faculty are responsible for moving their reserve items between the library and the Ed Center if so desired.

If you already have items on reserve, you may use the chart below to determine what will happen to them when the semester ends.

If...	Then
You want to keep your reserve items on reserve for next semester	No action is required; they will stay on reserve.
You have library-owned items in your reserve collection	The items will be returned to the general collection unless otherwise requested.
Your reserve items have not circulated in the past 2 years	Your items will be returned to your division.

You may also check your online collection here:

http://voyager.csumb.edu:8200/vwebv/enterCourseReserve.do?sk=en_US

Please let me know if you have any questions. Thank you!

Need Financial Assistance?

College seems expensive and sometimes out of financial reach, but help is available. MPC can help you apply for various forms of financial aid, including fee waivers, loans, and scholarships.

MPC: A Wise Financial Choice

Are you prepared for the financial cost of higher education? California community colleges offer students an excellent opportunity to reduce costs and fulfill financial goals. Check these figures out:

Full-time California resident student's annual tuition and fees (housing, books, transportation, and living expenses are not included).

Source: Legislative Analyst Office

Getting Started

Getting started at MPC is easy—really! Steps include:

1. Apply for admission. Simply complete an application. In most cases, you will receive a student identification number within 48 hours.
2. Apply for financial aid (if needed).
3. Make an appointment to assess your reading, writing, math, and/or English as a Second Language skills.
4. Meet with a counselor.
5. Enroll in PERS 10, a .5-unit course to help you maximize your experience at MPC.
6. Complete a Student Education Plan.
7. Register for classes.
8. Set up an MPC student email account to ensure you receive college-related information.

Check out www.mpc.edu and follow the links!

Discover new horizons
at Monterey Peninsula College,
a place where faculty and staff
help you determine and achieve your
educational and career goals

MONTEREY PENINSULA
COLLEGE

Excellent Educational Opportunities

MPC is a remarkable community college, well known for its excellent faculty and staff. At MPC you can pursue:

- An Associate in Arts or an Associate in Science degree, including
 - Administration of Justice
 - Anthropology
 - Biology (and other sciences)
 - Business
 - Communications
 - Computer Science
 - Dental Assisting
 - Early Childhood Education
 - English (including certificates in Creative Writing and Great Books)
 - Graphic and Fine Arts
 - Medical Assisting
 - Music
 - Nursing
 - Psychology
 - Theatre
- A Certificate of Training or Achievement, including such programs as
 - Auto Technology
 - Business/Office Technology
 - Fashion
 - Hospitality
 - Interior Design
 - Massage Therapy

Excellent Student Services

MPC provides a variety of services to help students complete their academic and career training goals. Our services include:

- Career/Transfer Resource Center
- Child Development Center
- Academic Counseling
- Financial Aid
- Learning Assistance Centers, including
 - Academic Support Center
 - Business Skills Center
 - English & Study Skills Center
 - Math Learning Center
- Library & Technology Center
- Student Health Services
- Supportive Services & Instruction (disability resources/accommodations)

Sent to you on behalf of the Physical Education Division and the TRiO SSS Programs.

Congratulations Stephen Dorsey!

Monterey Peninsula College freshman Stephen Dorsey won the state decathlon title for MPC, piling up 6,769 points. Stephen graduated from Monterey High School in 2012, and is a participant in the TRiO: Student Support Services program at MPC. He is an excellent student and also a member of the MPC Men's Basketball team. Stephen plans on earning his Associate's degree from MPC Spring 2014, and transferring to a Division I University to further pursue his dreams of competing in the Olympics.

This is an outstanding accomplishment, and Stephen is an outstanding example of an MPC student-athlete.

Subject: Instructor and Program Reflections, Flex Day, and wrapup

June 5, 2013

Friends and Colleagues,

It's been a while since I've written. We've had an active and productive year. I hope your semester is ending with appreciative students and the satisfaction brought by watching some of them graduate or move on to the next phase of their lives.

Special recognition will be given to the person who responds most quickly if any of the links don't work. Based on past experience, I predict 30 seconds or less.

Instructor and Program Reflections
Flex Day Fall 2013
Academic Senate Annual Report
Have a Great Summer

Instructor and Program Reflections

This year we'd like each instructional faculty member to complete an Instructor Reflection, and then for all personnel to participate in the Program Reflections with their groups. These efforts are all part of MPC responding to the ever more accountable world in which we exist and to accreditation recommendations. The schedule for the Program Reflections is on the Flex Schedule.

Instructor Reflections forms with examples in both Word and pdf formats. Download this and use it.
<http://www.mpcfaculty.net/senate/ProgramReflections13-14/InstReflectFall13Example4-24-13.pdf>
<http://www.mpcfaculty.net/senate/ProgramReflections13-14/InstReflectFall13Example4-24-13.doc>

Program Reflections forms in both Word and pdf formats. Download and use.
<http://www.mpcfaculty.net/senate/ProgramReview/ProgramReflectionsS13.pdf>
<http://www.mpcfaculty.net/senate/ProgramReview/ProgramReflectionsS13.docx>

Flex Day Fall 2013

Please put Thursday August 22 on your calendars as the day for the Fall 2013 Flex Day. The schedule is ready to go.

<http://www.mpcfaculty.net/senate/FlexF13/Fall2013FlexSchedule.pdf>

We are pleased to announce that Diane Boynton will give the keynote, continuing our strong tradition of having somebody from MPC give the keynote in the fall semester. Her topic is "MPC's Perilous Adventure". We're all excited to see what she has to say.

Please note that the breakout session has six different sessions running concurrently.

A pre-paid lunch will be provided by Sandy Im and the Peninsula Café. If you are interested in purchasing a lunch, please see any Instructional Division Office Manager, Shawn Anderson, Leslie Procive, Sandy Nee, Joanne Haggerty or Stephanie Perkins. Checks only (no cash please), made payable to *Peninsula Café*.

Academic Senate Annual Report

It was a year of rapidly accelerating change. Things are changing faster than I've ever seen in the Community College System. Either that, or I'm finally figuring out what's going on. People that know me well tell me it's probably a little bit of both.

Click here to read more...

<http://www.mpcfakulty.net/senate/GoalsObjectives/AnnualReport2013.pdf>

Have a Great Summer

Have a great summer everybody. I hope it is restful and relaxing, and that you come back in the fall rejuvenated. I'll be out chasing Blue Grosbeaks, trying to convince myself they really exist.

If You've Made It This Far

I've got two fun little tidbits for you here today.

The first shows the joy of geology from a student on one of Leslie Turrini-Smith's field trips. What happens on the bus, stays on the bus, unless it's captured on a 50 second YouTube video.

<http://youtu.be/N0Z87Rt1i3Q>

The second is a photo of an Osprey about to take a bite out of a trout up in Humboldt County where I went to school 30 years ago. If you keep track of your life by the ups and downs of the baseball season (like I do), this photo was taken at almost exactly the same time that Angel Pagan hit his game-winning inside-the-park home run on Memorial Day Weekend.

Heinz Helmuth Hubler

1934 ~ 2013

MONTEREY - Heinz Helmuth Hubler, age 78, passed away May 16, 2013 in Orem, Utah. He was born September 26, 1934 in Biel-Bienne, Switzerland to Gottlieb and Alice Zenger Hubler.

As a young man, Heinz wanted to have a career as a watchmaker, but found that his poor eyesight

prevented this. Heinz served in the Swiss Army Reserves and then moved to the United States, eventually attending Brigham Young University (BYU) to pursue a degree in sociology. It was at BYU where he met the former Carolyn Cartwright, whom he married in 1956. Following graduation from BYU, he en-

listed in the U.S. Army and served for two years, being stationed throughout the United States.

After his military tour of duty, Heinz began working for the Red Cross, eventually finding himself in Vietnam, just shortly before the War. He was then transferred to Monterey to work with the Red Cross at the former Fort Ord. After two years at Fort Ord, he became the new Community Services Director at Monterey Peninsula College (MPC). He was employed by MPC for the next 25 years. His duties included organizing events and entertainment, community classes and curriculum and also starting a travel study program

Following his retirement from MPC, Heinz started a travel business, and guided tours not only to his home country of Switzerland, but to many destinations all over the world. Heinz was also an accomplished performer and singer; and briefly as a young man staged an amazing balancing act as a circus performer. Heinz was also an accomplished photographer and frequently had his work published in travel magazines.

Heinz is survived by his wife, Carolyn; his children, Kenneth Hubler, Colleen (Terry) Fowler, Craig (Tricia) Hubler, Clinton (Lea) Hubler, Alice (Tim) Metcalf, and Brian (Beth) Hubler; 23 grandchildren, six great grandchildren; and a brother, Gottlieb Hubler. He was preceded in death by his parents and two granddaughters.

A Memorial Service will be held Saturday, June 8, 2013 at 10:00am at the Church of Jesus Christ of Latter Day Saints in Skyline Forest at 1 Forest Knoll Road, Monterey.

Subject: with hope on the horizon

Dear MPC community,

I want to say “ thank you“ for the hard work of faculty and staff, bridging over divides and working as a team despite challenges. **With hope on the horizon**, we will continue to come together and find ways to foster the nurturing environment we so care about. MPC and its community will be well served by our continued efforts to improve access and support students towards their educational goals.

Decisions about state funding will start to occur within the next few days and weeks. **With hope on the horizon**, new funding will likely include COLA adjustments, funding for student success initiatives, and restoration and growth in other areas. **With hope on the horizon**, faculty and staff across the college are offering to continue supporting access and grow outreach efforts. Some are taking in more students, some are focusing on retention strategies, some are growing offerings. Some are tweeting; some are on Facebook; some are talking to neighbors, schools, and community groups. These are but just a few example of the many efforts ongoing around campus to foster growth. **With hope on the horizon**, now more than ever, I want to thank you for your efforts and encourage you to continue reaching out to bring in students, one student at a time. This effort includes all of us. Our students will appreciate it, and the college’s fiscal outlook will benefit from it.

THANK YOU FOR ALL YOU DO ON BEHALF OF THE STUDENTS!
Let’s keep hope alive. Together, we can.

Watch it LIVE June 20-22 at www.marinetech.org

The Marine Advanced Technology Education (MATE) Center, the National Science Foundation, and the Marine Technology Society's (MTS) ROV Committee invite you to our 12th Annual International Student ROV Competition.

Fifty-five teams representing middle schools, high schools, home schools, after-school groups, community colleges, and universities from 18 different states and 13 different countries are scheduled to compete in this year's event, which is being held June 20-22, 2013 at the Weyerhaeuser King County Aquatic Center in Federal Way, WA, USA.

This year's competition theme highlights the role that ROVs play in the installation, operation, and maintenance of ocean observing systems, which are collections of high-tech instruments above and below the waves that provide around-the-clock information about what is happening in the ocean. Participating teams will perform a variety of missions, piloting their ROV to install a simulated power and communications "hub" and scientific instruments in order to complete a seafloor ocean observatory. They will also remove biofouling organisms from instruments and perform maintenance on moorings, among other tasks.

Each year the competition challenges students to think of themselves as "entrepreneurs" and transform their teams into companies that design, build, and market their "product" as a way to better understand the breadth of real-world business operations. During the event, a panel of judges – professionals representing industry, science, government, education, and exploration – will evaluate the companies on their ability to effectively communicate their vehicles' design and construction via technical reports, poster displays, and engineering evaluation interviews.

The competition will also feature the Ocean Career Expo, organized by the MATE Center and its partners in the Centers for Ocean Sciences Education Excellence (COSEE).

We encourage you to join us! You can also visit the MATE competition web site at www.marinetech.org where a LIVE videostream (including scores, photos, and video clips) will be hosted during the event.

GENTRAIN SOCIETY LECTURE

Silent Films and the Early Days of Cinemas

Join Gerry Mackenzie for his mini-history of the early days of cinema through the eyes of his grandfather who in 1900 became one of the first professional cinema (moving picture) cameramen in the world and his father who in 1911 became one of the first professional "movie" cameramen at Hollywood's first permanent movie studio. Gerry's presentation will include amazing archival photos from 1906 through the 1920s.

Bill Jones: The healing power of salt water

Bill Jones Dropping In Monterey County Herald

Posted:

MontereyHerald.com

THE HERALD MAY 14, 2013

I was pretty amazed to get a great number of emails about my last column and the healing powers of the ocean.

X I want to thank former MPC football coach and legend, Chris Pappas for starting the ball rolling for Part 2 of the "healing powers of the ocean."

The following quote by Karen Blixen from "The Deluge at Norderney" pretty much sums up my main point for this column.

"Do you know a cure for me?"

"Why yes," he said. "I know a cure for everything. Salt water."

"Salt water?" I asked him.

"Yes," he said, "in one way or the other. Sweat, or tears, or the salt sea."

Coach Pappas called me about the Maui Ola Foundation (www.mauiola.org), which started in Hawaii, but has held camps in Southern California.

"The Maui Ola Foundation began as a group of surfers who banded together to introduce surfing as a natural treatment to people with cystic fibrosis. Since 2007, Maui Ola has taken nearly 1,300 cystic fibrosis patients surfing at nearly 100 Surf Experience Days and has now expanded its reach with hospital visits and other activities that touch the lives of kids with cancer and a variety of other health challenges. In 2010, the Maui Ola Foundation was awarded The Agent of Change Award by SURFER Magazine for its positive contributions and example to the surfing community."

I have mentioned the Paskowitz Surf Camp (www.paskowitz.com) before as well as the Surfers Healing Foundation (www.surfershealing.org). They are located in Southern California and do great work especially with autistic children.

"We are the longest running surf camp in the United States. Our mission is to continue the Paskowitz legacy of teaching beginners to surf. But we want to instill more than that for most of you will become surfers. We will teach you the correct basic skills to stand up then you will ride waves standing on your own.

"We started the business of surf schools and will always maintain the best surf instructors in the world. The formula for success is simple: Go at your own pace, warm water, sunny beaches, great people in the water and on the beach and delicious food. We are a small, family-run business with a family of staff that are professional, fun and really love what they do.

"For over three decades the Paskowitz Surf Camp has been teaching people how to surf. And in doing so we have given the beginner, the novice and the experienced surfer a sense of self-confidence that can only come from an exuberant interaction with nature.

"Our credo, spread the aloha, is a welcome for everyone; young, middle-aged, mature, woman, man, black, white, fearful or brave, to come and experience the joy of surfing a wave.

"In giving everyone a chance to feel the surge of one of nature's most awe-inspiring forces, the Paskowitz family is following in the beloved tradition of surfing patriarch Paskowitz, who has spread the gospel of Aloha from the shores of Oahu and Kauai to the sands of Cabo San Lucas and San Onofre."

Locally, there is carmelsurfflessions.com.

"Noah Greenberg has been teaching surfing since 1986. He will provide all the equipment and choose a location that is safe for your session. Create your own group, even travel to Hawaii or Costa Rica with Noah, and enhance your surfing experience in warm water."

The last two websites are for surf schools in the Santa Cruz area that have been very supportive of working with veterans, disabled students and the health impaired. Club Ed (www.club-ed.com) is run by Monterey native Ed Guzman and Richard Schmidt (www.richardschmidt.com) is a long-time Santa Cruz surfer.

"Salt water is my cure. It is my mantra, my mistress and my soul," Will Howell said. " It beckons me early in the morning and at sunset to its healing liquid gold. It can't be fully explained, but only experienced."

Bill Jones is a surfer, diver, kayaker and stand-up paddle instructor who lives in Pacific Grove. He can be reached at bjones_surf@yahoo.com.

Philanthropists make gift to support financial aid, faculty development at York

Written by Staff report
May 14, 2013 |

thecalifornian.com

THE CALIFORNIAN "OFF 68" MAY 17, 2013

On May 2, York School announced that philanthropists Peggy Downes Baskin and Jack Baskin donated \$770,000 to York School to be added to the endowments for financial aid for students and for the professional development of the faculty.

The Baskins are the independent school's most generous donors. This gift boosts their total gifts to the school to more than \$1 million.

Peggy and Jack Baskin were honored at a York School assembly. The Campaign for York announced this month has already raised \$2.8 million total for these two endowments. More than 40 percent of the students at the independent school receive need-based financial aid. York School has 225 students in grades 8-12.

"The essence of the York experience is the remarkable relationships between students and teachers, and the generosity of donors like the Baskins and others here today ensures that these relationships will flourish," said Head of School Chuck Harmon.

Jack Baskin's grandson, Elun Gabriel, is a York alum, Class of '89, as are Peggy Downes Baskin's two stepdaughters, Alison Downes Scott ('75) and Kelley Downes Stanley ('73) and her son Scott Dewar ('74). Peggy Downes Baskin's daughter, Cammy Torgenrud, teaches psychology and is director of technology at York, where she has taught for 19 years.

Peggy Downes Baskin's former husband, the late Chuck Downes, was York headmaster from 1966 to 1974.

The Baskins, who live in Carmel and Santa Cruz, are prominent benefactors of community organizations and education, including York School, CSU Monterey Bay and UC Santa Cruz. Jack Baskin is a retired real estate developer whose gifts established the Baskin School of Engineering at UC Santa Cruz, the Community Foundation of Santa Cruz County and the Jack and Peggy Baskin Center for Philanthropy in Aptos. Peggy Downes Baskin, Ph.D., is a retired political science professor who has co-founded the Women's Leadership Forum at CSU Monterey Bay, Women Helping Women at Monterey Peninsula College, and The Women's Fund of the Community Foundation of Monterey County.

For additional information on York School, contact Barry Holtzclaw, communications manager, at 831-373-4438 ext. 118, york.org.

Local sports roundup: MPC's Dorsey wins state decathlon title

The Monterey County Herald Herald Staff Report Monterey County Herald

Posted:

MontereyHerald.com

THE HERALD MAY 18, 2013

Stephen Dorsey won the state decathlon title for Monterey Peninsula College, piling up 6,769 points.

Dorsey, a Monterey High graduate, outdistanced the runner-up by 298 points. Teammate Isaiah Brown placed fifth in the triple jump.

Hartnell's Austin Decker won the state pole vault title while former North County High teammate Aaron Vaughn finished seventh in the 110 high hurdles.

Distance ace Victoria Alcala was third in the 3,000 steeplechase and fourth in the 5,000 for the Panthers while Jessica Mattos placed fourth in the discus and Amy Johnston was seventh in the 1,500.

CCS track & field

Jayla Scholis of Seaside and King City's Jessica Davis will lead a contingent of local qualifiers into next Friday's Central Coast Section track and field finals.

Scholis, the defending CCS 200 meter champion, easily qualified in the 100 and 200 at Saturday's trials in Gilroy while Davis had the fastest time in the 100 hurdles and advanced in the 300 low hurdles, where she is the defending section champion.

Reigning CCS long jump champion Marcus Washington of Palma survived the final cut as did teammate Chase Pacheco in the high jump.

North Salinas' Mario Gonzales had the third best throw in the discus while Monterey distance ace James Welsh is moving on in the 1,600, and Trevor Wason of Salinas in the 300 intermediate hurdles, and Salinas' 1,600 relay team

Alex Lathos lowered her Notre Dame school record time in the 800 to move on, as did Seaside's Tatiana Lee in the 400.

BASEBALL

Sonoma St. 4, CSUMB 1

CCAA regular season champion Cal State Monterey Bay baseball team's season came to an end Saturday in the NCAA Division II tournament playoffs at Bruce Hurst Field.

The Otters were limited to just five hits by Sonoma State in their second elimination game, falling to the Seawolves 4-1. CSUMB defeated CCAA tournament champion Cal State L.A. on Friday, 8-1 in its first elimination game.

CSUMB finished with a 39-17 overall record, 13 wins more than last year's program record.

The Otters got a strong performance all three pitchers beginning with starter Jordan Helmkamp, who kept CSUMB in the game after giving up only three runs in five innings. Junior Rickey Guerrero threw two shutout innings in relief, relinquishing only one hit while junior NCBWA and Daktronics west region first team selection A.J. Quintero closed the game in the eighth.

CSUMB threatened in the opening frame with a pair of two-out singles by senior Brian Haggett and junior Mark Hurley but wasn't able to execute a run.

Health care, public policy, shelter among topics

By DENNIS TAYLOR Herald Staff Writer Monterey County Herald

Posted:

MontereyHerald.com

THE HERALD MAY 19, 2013

There are 2,500 to 3,000 homeless people in Monterey County. Half are classified as "chronic homeless," meaning they have a documented disability or have been without a residence for a year or longer. The county has about 250 homeless families.

"These are the people we can find, and the people who fit a very strict definition of 'homeless,'" said Supervisor Jane Parker, keynote speaker at United Way Monterey County's "Hungry and Homeless in Paradise" symposium Saturday at Monterey Peninsula College. "If you start to think about the number of families who are living in a garage, or crowded into one bedroom at the home of a friend or relative, or sleeping on a couch, the numbers go much higher very quickly."

The ugly truth in "paradise" is that the majority of locals who are fortunate enough to be employed are also in dire straits: More than half the jobs in Monterey County pay minimum wage or less — a fact that brings up another dismal set of statistics.

"There's a table in the weekly home report that shows how many hours a person earning minimum wage must work to afford an apartment in Monterey County," Parker said. "To live in a studio apartment in our area, a person earning minimum wage must work 83 hours in a week. To afford a one-bedroom apartment, the number is 94 hours. A person needs to work 108 hours in a single week to pay for a two-bedroom apartment, and 152 hours for a three-bedroom apartment."

Those figures do not include food, utilities, car repair, medical bills or any other necessities that might compete for a person's dollars, she said.

Those stark realities were the rallying cry that attracted hundreds of residents — some homeless — to MPC for a five-hour summit designed to identify the issues surrounding homelessness and to discuss possible solutions.

The symposium comes as the Monterey City Council is set Tuesday to discuss possible new ordinances to address frequent complaints from residents, tourists and the business community about homeless people and panhandlers downtown and in other areas. One ordinance under discussion would make it a crime to sit or lie on sidewalks or other public spaces.

10-year plan

Saturday's symposium featured breakout sessions on topics that included health care, public policy, faith-based initiatives and shelters. The sessions were largely town-hall style gatherings that solicited input from those attending.

One session was titled "Our Community's 10-Year Plan to End Homelessness." The plan was created in 2010-11 by HomeBase/Center for Common Concerns, a nonprofit public-policy law firm based in San Francisco, using input from "a wide array of community stakeholders."

The plan, accepted by the boards of supervisors in Monterey and San Benito counties, calls for access to housing and housing services, and transition services for people who have just been released from jails, medical facilities and foster programs.

Much of the strategy involves streamlining processes, improving communication and eliminating the bureaucratic red tape that tends to clog the system.

"Let's say a single male comes to a shelter that is for women and children only. So that person is told, 'I'm sorry, you don't qualify here.' That person then might have to go from program to program to program, trying to find

http://www.montereyherald.com/ci_23275211/monterey-symposium-examines-homelessness?IADID=Search-www.montereyherald.com somewhere to be, and therefore might be more likely to simply give up," said HomeBase attorney Carolyn Wylie. "Instead, we'd have a coordinated system in which the person could make one telephone call, or be sent to a center that is a one-entry point. It would be a coordinated system where all people could go (to find solutions to their problems)."

Looking for solutions

Audience members pointed out specific issues commonly faced by the homeless, including what they called a tendency to regard them as "second-class citizens" and to dismiss their problems.

They suggested a need for free transportation to get the services they require. They asked for more responsive, more flexible agencies. They advocated local jobs that pay a living wage, and more affordable housing.

"I think it's important to try to lower the cost of living, rather than try to increase income, for the homeless," said Charles Wilson, a Peninsula resident with homelessness in his history and a computer science degree on his résumé. "Rent should not be more than one-third of income for anyone."

Another woman called for the decriminalization of homelessness and an end to harassment by law enforcement officers of people living and sleeping in public places.

One homeless man, who said his street name is "Bones," said current laws make getting assistance difficult for anyone with a felony drug conviction.

"It's against federal law for drug offenders to use federal funds for a lot of this stuff. I don't have any drug convictions, but I have felonies on my record, which is what's holding me back from getting a real job," he said. "People who have serious drug problems and get out of prison and can't get their stuff together because of these federal laws that stand in their way ... that really screws things up for everybody. The guy is on the street, he's a drug addict, he doesn't have a job, he can't get any kind of federal assistance because it's against the law, and the cycle just continues."

Dennis Taylor can be reached at 646-4344 or dtaylor@montereyherald.com.

Local golf notebook: MPC's Phillips inducted into California JC Hall of Fame

By JERRY STEWART Herald Correspondent Monterey County Herald
Posted:

MontereyHerald.com

THE HERALD

MAY 22, 2013

* When, after 30 years of patrolling the sidelines, former Monterey Peninsula College football head coach Luke Phillips said he wanted to step down, school officials granted him his wish.

But there was also a catch.

"They said yes but went on to say they didn't have a golf coach," Phillips said. "So they told me they were going to reassign me. I said show me where I sign up."

Turned out, it was another great move for Phillips.

Last week, Phillips, now 85, was inducted into the California Community College Men's Golf Coaches Association Hall of Fame. He's the only coach to be a member of two California Community College Athletic Association Hall of Fames, having previously been tabbed for the football hall.

During his tenure as golf coach at MPC (1987-2001), the Lobos racked up eight Coast Conference titles, six NorCal Championship crowns and one state title. The state title came in his inaugural season at the helm.

"I had never really coached golf," Phillips said. "When we won state my first year I thought, 'Well, this is easy.' I was fortunate to have some great players."

Some of those who went through Phillips' program include current Lobos head coach Justin Russo and Cypress Point head pro Casey Reamer, former NorCal champion Santana Steudler and former Arkansas All-American Andrew Dahl. Others who'd go on to turn pro include Jason Lotz, Steve Carter and Bill Greenlee.

Taking from his football days, Phillips used coaching mantras such as attitude, promptness and respect for oneself and others. He also made sure his players had their own swing coach.

"I was more of a manager than I was an instructor," Phillips said. "Some of the guys had to be disciplined, they wouldn't play by the rules. A lot of the kids had really big egos. But they were different than football players. Just different athletes."

Along with having talent, Phillips also had the backing of the Monterey Peninsula golf circles. Among those Phillips said were instrumental in his success were Pebble Beach Co. Senior Vice President of Golf RJ Harper, late Rancho Canada/Laguna Seca Golf Ranch owner Nick Lombardo, former Monterey Peninsula CC head pro Mike Chapman, current VP director of Rancho Canada Todd Pontti and former Cypress Point head pro Jim Langley.

"They all provided access to their courses," Phillips said. "I got a lot of help from the local golf people."

Getting to play Spyglass Hill, Pebble Beach GL and Cypress Point didn't hurt with recruiting either. At one time or another, MPC featured players from Japan, Sweden and England.

"When I was recruiting, I just had to send out postcards of the local courses," chuckled Phillips. "It was an advantage a lot of coaches didn't have."

Upon Phillips' retirement, former Stevenson golf coach Wally Goodwin, who'd since moved on to coach Tiger Woods at Stanford, noted that his friend was "a great coach." "Luke is spirited and humorous and has a great rapport with the kids," Goodwin said.

These days, Phillips stays busy working on his own game.

"It was a great journey for me and added so much to my coaching career. It was the best coaching job a golf coach could ask for. The amenities, the people, the environment," Phillips said. "I've always been fortunate to be in the right place at the right time. I don't take any of my success for granted. I really enjoyed it."

Tiger at Frys.com Open?: The odds that Tiger Woods will play in this year's Frys.com Open at nearby CordeValle GC look pretty good. Why? Woods will host his private Tiger Woods Invitational at Pebble Beach, a fundraiser for his foundation, on Oct. 14-16. The Frys.com Open, which will open the 2013-2014 PGA Tour season, is on Oct. 10-13.

Last year, Woods, Rory McIlroy and six other players including 2012 U.S. Open winner Webb Simpson played in the Turkish Airlines World Golf Final. According to Frys.com Open tournament director Jeff Sanchez, there's an agreement that says as part of Woods and those players' release to play in Turkey, they're obligated to play in the Frys at least once in 2013, 2014 or 2015.

Being that Woods' Pebble Invitational begins the day after this year's Frys, one has to wonder if he'll start his Northern California visit at CordeValle. Then again, Woods usually only visits his Invitational one of the three days to put on a private clinic.

"We don't have any commitment from Tiger, but we'd love to have him," Sanchez said. "It'd be a tremendous boost to the field to have the No. 1 player in the world and the No. 1 draw in golf. We're hopeful he'll support us this year. It'll be the first year to fulfill his obligation."

Watching Cal: Among those keeping an eye on Cal Berkeley's record season have been Palma senior Jay Burlison and Stevenson junior Seb Crampton. Burlison signed with the Bears in November. Crampton has committed and will sign this fall.

"It's very impressive. I've got some big shoes to fill, no doubt," Crampton said.

"I think it's awesome," Burlison said. "I can't wait to get around those guys. I think they'll make me better."

Both Burlison and Crampton went with Cal due to the coaches, the golf program and the academics.

"For me, they were the perfect combo of great golf and academics," Burlison said.

According to Burlison, after he signed he "hounded" Crampton to go to Cal. The two discussed it during a casual round with Michael Decker at MPCC.

"I really like Seb's game and he's a great guy," Burlison said. "It's going to be a blast."

Ball Drop: Players and guests at Hospice Foundation's new fundraiser tournament, 'Back to the Valley' (May 31 at Corral de Tierra CC) will see a helicopter drop balls, representing donations, onto the driving range.

The farthest ball will win a prize. Teams of foursomes will play in a scramble format, with a gourmet taco bar social and live auction following play. Fees are \$200 per player and include golf cart, reception and taco bar. Fees are additional for a putting contest and the ball drop (to be held between 5 p.m.-6 p.m.). For more information or to enter, please call 333-9023 or visit

www.hospicegiving.org.

Bayonet Deal: Bayonet/Black Horse GC is offering play on either course for only \$59 this Thursday and Friday. Cart is included. On Memorial Day, fees are \$79. Please call 899-7271 for tee times.

Monterey Pines: Mike Jaye won the recent Monterey Pines Golf Association Match Play Net Championship. Runner-up was Bill Kivlehan, with Frank Giordano taking third. The course will host a Demo Day (Ping, Titleist,

*Lauds mayor for sensitivity to homeless

My heartfelt support to the mayor and City Council of Monterey for voting in favor of a humane approach to the issues of homelessness, hunger and poverty, as opposed to criminalizing the poorest among us.

No doubt the results of the Monterey Peninsula College symposium on homelessness, hunger and poverty had a significant effect on council members and staff, because it was mentioned more than 20 times by elected officials, staff members and residents. By taking this course, we are holding the spirit of John Steinbeck in the light.

As he wrote in Cannery Row: "It has always seemed strange to me. The things we admire in men — kindness, and generosity, openness, honesty, understanding and feeling — are the concomitants of failure in our system. And those traits we detest — sharpness, greed, acquisitiveness, meanness, egotism and self-interest — are the traits of success. And while men admire the quality of the first, they love the produce of the second."

Seaside's Open Ground Studios brings artists together

By ANDY STINY Herald Correspondent Monterey County Herald

Posted:

MontereyHerald.com

THE HERALD

MAY 26, 2013

Art is often not created in a vacuum. That's why a group of local artists and Monterey Peninsula College art students founded a communal studio in Seaside.

The idea took root last spring when a group of students started talking about a need for space to work, said Denese Sanders, an MPC art teacher, artist and the studio's founding director.

They asked, "How could it be a community studio?" Sanders said Friday night at a party for about 50 invited guests at Open Ground Studios, which had a public grand opening celebration Saturday. "Community is what makes the world go round."

The studio, which Sanders said is the only one of its kind on the Monterey Peninsula, will offer equipment, artist work space and instruction in drawing, printmaking and book arts.

This month, Sanders' studio won the Monterey Bay Regional Business Plan Competition. The money from that award helped fund equipment and supplies.

"I love it," founding artist Debra Smith of Prunedale said of the new space. "Working by yourself, it's OK, but working in a community you see other people's work and it inspires you."

Pacific Grove printmaker Susie Berteaux said she "gets new ideas and techniques from other people, and helping other people with their work really helps me."

Aside from inspiration, there are practical reasons for the studio, Sanders said.

"Studio space is extremely expensive in Monterey and artists are hesitant to rent if they are not sure if they can be productive by themselves," she said.

"People need community to work in. Solitude can be great in some cases, and it can be limiting as well," she said.

The studio signed a one-year lease in February at 1230 Fremont Blvd. with landlord Edward Lo, who allowed the group to hold meetings there until they could gauge the level of support.

"This is a community effort," Sanders said. "I am leading it, but I am not leading it alone."

The studio has memberships at varying price levels, including those for founding artists and for the public. Sanders likened the general memberships to museum memberships.

A February membership drive signed up 11 founding members and about 30 general members.

"We can take as many general members as possible," Sanders said.

There will be eight, five-hour open studio sessions a month, which could be good for artists who can work independently but who perhaps have a large project and need room to spread out, Sanders said.

A community gallery space is available to rent for art exhibitions and other events, and master class workshops taught by Fellows of Open Ground Studios (FOGS) are offered by "highly respected local and visiting artists," according to the studio's flyer.

Monterey print- and quilt-maker Roberta Brunet, a former student of Sanders, said Saturday she was immediately

http://www.montereyherald.com/ci__23325134/seasides-open-ground-studios-brings-artists-together?IADID=Search-www.r
taken with the studio idea.

"I came on a Friday afternoon and within an hour I plunked down my money," said Brunet, adding that she had no room to work at home.

"There are a lot of artists that need space to work," said Sandra Gray of the city's art and history commission, who attended Friday's party along with Mayor Ralph Rubio. "It's very hard to have a space in your own home sometimes."

Space isn't the only issue the studio addresses. Starting in July, MPC art students are subject to a new rule that no longer allows them to repeat art classes, Sanders said.

"For lifelong learners who have started to learn an art form, if they are not ready to be fully independent they are going to need a place to continue to practice with guidance," she said.

Sanders, an adjunct instructor, said she was also aware that with budget cuts at community colleges, her position could be in jeopardy.

"I had colleagues and friends who were all saying they wanted to have a community studio that would enable them to practice art independently of an academic environment," she said.

Sanders said the struggle for artists in today's world is never-ending.

"The arts are really difficult. It's hard to succeed in the arts, especially in this economy," she said. "I hope the Monterey Peninsula will embrace it."

VOTING OPEN TO PUBLIC FOR THE MONTEREY PENINSULA CHAMBER OF COMMERCE 27TH ANNUAL BUSINESS EXCELLENCE AWARDS

LAST YEAR'S NON PROFIT WINNER PICTURED ABOVE: THE FOOD BANK FOR MONTEREY COUNTY

Don't miss the chance to support your favorite local businesses by voting May 20-31

The Monterey Peninsula Chamber of Commerce's 27th Annual Business Excellence Awards (BEA) will be held on Thursday, July 18, from 6:00 to 10:00pm, at the Portola Hotel & Spa. Presented by Union Bank, this popular event is designed to honor those member businesses and organizations that have achieved excellence in their fields.

The 2013 ballot was published in ChamberLink on Monday, May 20. It is also available online at montereychamber.com/BEA2013.php until next Friday, May 31. All current MPCC members are listed on the ballot, with the exception of the 2011 and 2012 winners — they are ineligible for two years after winning.

Cover MPC, CSUMB baseball more

The Herald's lack of coverage of the baseball programs at Monterey Peninsula College and CSU Monterey Bay has been a real disappointment. In a very brief time CSUMB coach Walter White has taken his team to the postseason and MPC coach Daniel Phillips has brought the MPC campus a conference champion after a drought of 41 years. Why not provide us with an in-depth interview of each coach in a Sunday edition?

Both coaches have a style of getting the best from their players. Both schools have made an effort to recruit and mentor players who are "character" players who thrive on hard work and dedication. Each team has a combination of local players and players from a wide range of communities who have come together to establish winning programs. Both teams are involved in community service and each team has invited youth baseball teams to shadow them for practice sessions.

This is a great experience for our younger players in the area. I'm not a sports editor, but it seems to me that there are interesting stories here.

Golf

U.S. Open Sectionals: Carmel High grad Kraig McLeod, Palma and Monterey Peninsula College alumnus Andrew Dahl and former CSU Monterey Bay standout Erick Justesen will be in the mix when Sectional qualifying for this year's U.S. Open is held Monday.

McLeod will be at Tumble Creek GC in Washington, while Dahl will be at Old Warson CC in St. Louis. Justesen, a former caddie at Pebble Beach, will be at Big Canyon CC and Newport Beach CC. Justesen played in the 2010 U.S. Open at Pebble Beach.

Mac About Town: After a long weekend of music...more music

Mac McDonald Mac About Town Monterey County Herald

Posted:

MontereyHerald.com

THE HERALD

MAY 30, 2013

So, I take it everyone has had their fill of great music over the long Memorial Day weekend? There was funk, R&B, reggae rock, country, roots rock, blues, retro soul and even more reggae rock.

The California Roots Festival sold out all three days and I took in both days of the Santa Cruz Blues Festival, one of my two favorite music festivals of the year (the other is my longtime favorite, the Monterey Jazz festival). There was also the Clam Chowder and Calamari Festival, which had three days of bands and music.

But one of the best shows of the weekend was last Friday's performance at the Golden State Theatre by He's My Brother She's My Sister, which I believe is one of the best club shows I've seen in years, certainly one of the two best lobby shows I've witnessed (Soft White Sixties and Stone Foxes are right up there).

The band, which features a tap-dancing percussion dynamo (Lauren Brown dances on top of a bass drum while playing three floor toms), upright bassist, lap guitarist and the brother-sister singing tandem of Robert and Rachel Kolar.

The band plays with a ton of energy, passion and humor and has a solid catalog of great tunes, many taken from the latest album "Nobody Dances in This Town" (check out "Clackin' Heels" for a good, toe-tapping chuckle). I hope they return, my guess is at a bigger venue with a couple of hits under their colorful belts.

OK, so onward and upward, not to rest on any laurels, there are a raft of great shows this week, perhaps not on par with Slightly Stoopid or Tedeschi Trucks Band (one of the highlights of my weekend), but solid nonetheless.

On the local front, several developments. Soulful singer Jaqui Hope will be performing her last show at the Monterey Plaza Hotel's lounge on Friday night from 5:30-9:30. Hope will be pursuing other opportunities in the area, but I'm sure we'll be seeing her singing again...somewhere.

Joining her will be keyboardist Bill Spencer, who himself is moving on to other opportunities, which I'm not sure I can divulge just yet. He can be found with his own band, Bill Spencer & Prime Pocket, Thursday night at Sly McFly's.

Jazz singer Scotty Wright is a busy man, playing with his band, the Fry-Wright Band,, as well as Aporia, but Thursday night from 7-9 he'll be playing the new Safari Club at the Bay Park Hotel just off Highway 1 and Munras Avenue in Monterey.

Wright will be joined by pianist Bob Phillips, bassist Pete Lips and saxophonist (also with Aporia) Stu Reynolds. Ten bucks at the door helps the promoter Kiki Wow pay the band.

Speaking of Phillips, he's playing Saturday night at the Hyatt Regency Monterey's weekend jazz sessions. On Friday night you'll find local guitar legend and Barry Manilow axeman Mike Lent dazzling the crowd. That's 7 p.m. both nights, no cover.

And former Lent bandmate and bassist extraordinaire (and he plays a mean guitar, too) Dennis Murphy plays host to the 30-voice jazz ensemble Urban Renewal, which holds its spring concert Friday night at 8 at Monterey Peninsula College Music Hall.

Special guests that night include Franklin Street Voices as well as the small group Baker's Dozen.

The combo backing all these voices include saxophonist Gary Meek, keyboardist Michael Martinez, drummer Mike Shannon and possibly Murphy on bass, although he's also a member of Urban Renewal so we'll see how well he

http://www.montereyherald.com/entertainment/ci_23348771/mac-about-town-after-long-weekend-music-more?IADID=Search
multi-tasks.

Cost is \$20 in advance, available at brownpaper

tickets.com or 920-1310, or \$25 at the door.

And lest I forget, singer, songwriter and guitarist Jay Burriss plays Saturday night at 9:30 at London Bridge Pub in Monterey.

Burriss is back in action after breaking his arm while bicycling and will celebrate the release of his new song "Fireball," which is now available on iTunes, Spotify etc. Check out his website at www.jayabu.com for music, art and more.

And check details on shows by Jeffrey Halford, Jackie Bristow and Robert Turner in this week's Best Bets.

Halford, a rootsy singer-songwriter and guitarist who has been called a "Hemingway with a bluesy guitar," plays Saturday night at the Golden State Theatre in Monterey. The show opens at 9 p.m. with Big Sur's Songs That Hotbox Harry Taught Us.

New Zealand singer-songwriter Bristow, who recently opened for Bonnie Raitt in her native land, kicks off a multi-stop Central Coast tour with a show Wednesday night at 7 at the Henry Miller Memorial Library in Big Sur. She'll played a handful of dates on the Peninsula next week.

And jazz pianist Turner, whose soulful style has been likened to Gene Harris and Ramsey Lewis, plays Saturday night at 7 at the Safari Club in Monterey.

And, tickets for the First City Fest, which features Modest Mouse and MGMT, on Aug. 24-25, go on sale at 10 a.m. Friday at firstcityfestival.com. Register at the site and get earlybird tickets through Thursday night.

GENTRAIN SOCIETY LECTURE

Asilomar Centennial.

Roxann Jacobus, retired Asilomar State Park Ranger, will chronicle Asilomar's history. Founded in 1913, Asilomar was the first women's summer camp and conference grounds in the United States owned by a woman's organization. Its original buildings were designed by architect Julia Morgan. California State Parks purchased Asilomar in 1956. Today, Roxann offers Asilomar talks and walking tours of the park's cultural and natural history.

✧ Chamber Celebrates July 4th

Save the date! The Pacific Grove Chamber of Commerce is pleased to announce the **FOURTH OF JULY HOMETOWN CELEBRATION** to be held Thursday, July 4th from 11:00 a.m. to 3:00 p.m. at Caledonia Park - Tommy Stillwell Court (Behind the Post Office). Entertainment will be provided by The Firefly Band of Pacific Grove and Moonalice, San Francisco's renowned jam band who opened for U2 in 2010.

A delicious BBQ lunch will be offered and includes Grove Market half chicken or hot dogs, baked beans, garlic bread, salad and dessert all at a price of \$10 (kids \$5). In the tradition of National Archives, celebrate the 237th anniversary of the adoption of the Declaration of Independence with a dramatic reading presented by the Pacific Grove Rotary Club as part of the festivities. The Declaration will be read by local actors playing the parts of Benjamin Franklin (Ron Cohen), Thomas Jefferson (Keith Decker), and John Adams (Mitchell Davis). Also featured will be an introduction by Dr. Richard Kezirian, chairman of the MPC History Department and Professor of History and Politics at the Leon & Sylvia Panetta Institute for Public Policy. Complimentary games, bounce houses, free popcorn and free snow cones will be available for the kids. The Chamber volunteers will hand out complimentary flags during the celebration. A special ceremony will be held to honor all veterans.

For more information contact the Chamber at (831-373-3304) or www.pacificgrove.org

Defense Language Institute Color Guard at last year's July 4th Celebration.

6/6/13

Heinz Helmuth Hubler

1934 - 2013

MONTEREY - Heinz Helmuth Hubler, age 78, passed away May 16, 2013 in Orem, Utah. He was born September 26, 1934 in Biel-Bienne, Switzerland to Gottlieb and Alice Zenger Hubler.

As a young man, Heinz wanted to have a career as a watchmaker, but found that his poor eyesight

prevented this. Heinz served in the Swiss Army Reserves and then moved to the United States, eventually attending Brigham Young University (BYU) to pursue a degree in sociology. It was at BYU where he met the former Carolyn Cartwright, whom he married in 1956. Following graduation from BYU, he en-

listed in the U.S. Army and served for two years, being stationed throughout the United States.

After his military tour of duty, Heinz began working for the Red Cross, eventually finding himself in Vietnam, just shortly before the War. He was then transferred to Monterey to work with the Red Cross at the former Fort Ord. After two years at Fort Ord, he became the new Community Services Director at Monterey Peninsula College (MPC). He was employed by MPC for the next 25 years. His duties included organizing events and entertainment, community classes and curriculum and also starting a travel study program

Following his retirement from MPC, Heinz started a travel business, and guided tours not only to his home country of Switzerland, but to many destinations all over the world. Heinz was also an accomplished performer and singer; and briefly as a young man staged an amazing balancing act as a circus performer. Heinz was also an accomplished photographer and frequently had his work published in travel magazines.

Heinz is survived by his wife, Carolyn; his children, Kenneth Hubler, Colleen (Terry) Fowler, Craig (Tricia) Hubler, Clinton (Lea) Hubler, Alice (Tim) Metcalf, and Brian (Beth) Hubler; 23 grandchildren, six great grandchildren; and a brother, Gottlieb Hubler. He was preceded in death by his parents and two granddaughters.

A Memorial Service will be held Saturday, June 8, 2013 at 10:00am at the Church of Jesus Christ of Latter Day Saints in Skyline Forest at 1 Forest Knoll Road, Monterey.

Class Notes: Scholarship recipients honored

The Monterey County Herald Monterey County Herald

THE HERALD

JUNE 9, 2013

The following graduates were recognized Saturday at the 15th annual Scholarship Breakfast hosted by the Coalition of Scholarship Organizations:

- Tevin Edward and Quentin A. Minor, Everett Alvarez High School.
- Rachel E. Carter, Marina High School.
- Jordan Collignon, Jessica Diaz Quiane, James L. Hill III, Lanja Karadaghi, Amanda E. Luckie and Kyle Neeley, Monterey High School.
- Nala Alleyne-Johnson, North Salinas High School.
- Jamie Mosana Mann, Pacheco High School.
- Mileena Marie McKelvey, Kala Renee Robinson and Alanna M. Wright, Salinas High School.
- Christine Aviles, Jonquis Bouyea, Tyller D. Byrom, Juana Contreras, Martin Contreras Chavez, Adam Fraga, Kaitlin Harvey, Deja Howard, Ryan Kausin, Natthaporn Laitha, Sabrina Neal, Maria Sanchez and Janettia S. Williams, Seaside High School.
- Bria Adams, York School.

Also honored were CSU Monterey Bay sophomore Yesenia Lucas and Patricia Sosa, a sign language interpreter and student at Monterey Peninsula College.

Cynthia Anne Vinson received her Ph.D. in public policy and public administration from George Washington University in Washington, D.C.

Vinson, from the Pacific Grove High School class of 1984, graduated early in 1983.

Kristine-May Olivas of Salinas has been named to the dean's list at Eastern New Mexico University in Portales, N.M.

Franco Pacheco of Seaside has graduated with a master of science degree in education from Saint Joseph's College in Standish, Maine.

Jackson Greer of Salinas has been named to the dean's list at Marquette University in Milwaukee, Wis.

Logan K. Allen of Carmel Valley received a bachelor of science degree from Washington and Lee University in Lexington, Va.

Sophia Albov of Monterey and Paul Tschida of Marina were recently initiated into the Honor Society of Phi

Kappa Phi.

Honor Burn of Monterey earned a bachelor of arts degree in liberal arts at Sarah Lawrence College in Yonkers, N.Y.

Jessica Schanzer of Monterey received a bachelor of arts degree from Connecticut College in New London, Conn.

Monday is the application deadline for iLead+Design, a two-week "community action studio" in which high school students will identify problems in the community and come up with solutions.

The class will be held 9 a.m. to 3 p.m. June 17-28 at the Monterey Institute of International Studies, 420 Calle Principal, Monterey.

Cost is \$350. Scholarships are available.

For information, call 372-6098, email Joyce@Lyceum.org or see www.lyceum.org.

Monterey County Home Charter School is enrolling students and will hold meetings at 6 p.m. Tuesday and June 25 at the school, 901 Blanco Circle, Salinas.

For information and to sign up, call 755-0331.

A Summer Algebra Institute will be held soon for students who are entering sixth through ninth grades. The institute is free and is recommended for students interested in preparing for an Algebra I course. It is not a substitute for Algebra I.

A parent information meeting and pre-screening testing will be held 6p.m. Monday and Tuesday at the Greater Victory Temple, 1620 Broadway Ave., Seaside.

For information, call 394-2774.

Coast-Tel Federal Credit Union awarded scholarships to the following: Veda Frumkin, Christopher Ho, Alec Irwin, Shae Scar, Zachary Strenfel and Daniel Vallejo, \$500 each; and James Kragh, \$1,000.

Military briefs

Air Force Airman Darren J. Rickard and Air Force Airman 1st Class Michael F. White have graduated from basic military training at Joint Base San Antonio- Lackland in San Antonio, Texas.

Rickard is a 2012 graduate of Marina High School and is the son of Adela Mapp of Monterey.

White is a 2006 graduate of Monterey High School and is the brother of Jessica Gulley of Seaside.

Class Notes, Military Briefs and Births appear weekly on a space-available basis. For information, call Clark Coleman at 646-4356.

MPC Meeting of the Board of Trustees: June 26, 2013
Superintendent/President's Report: Dr. Walt Tribley

1. MPC graduation ceremonies ran smoothly and were well-attended. From the certificate-generating programs to the general commencement, the events were very meaningful. With 204 students walking at our general commencement, 2013 was a great year for student participation.
2. Presented budget-related information to the campus community in an open forum, as well as to Academic Senate and College Council. The purpose of these meetings was to provide transparency and clarity as to the issues that face us and the short-term actions we are taking to help offset our FTES deficit.
3. Met with Trustees Dunn Gustafson, Steck, and the President of the Gentrain Society, Mr. Breedlove regarding the issues facing non-credit courses for life-long learners in the CCC system. We discussed the timing of proposed policy changes that would negatively impact apportionment funding for non-credit FTES/lifelong learning courses. The Fall of 2015 will be the first semester that would be impacted by previously-proposed policy changes, if those changes are implemented. The college remains in strong support of Gentrain and other lifelong learning opportunities for our communities, and will continue to run pilots of such courses via community education to prepare for the possibility that funding will be eliminated and the college would need to rely solely on community education to deliver lifelong learning courses.
4. Attended the retirement celebration for Mr. Anderson as well as a celebration for Professor Fuller.
5. CalWorks, EOPS/CARE & TRIO/SSS ceremony. What a testament to the great work our student services and faculty do with our students.
6. Attended the Scholarship Ceremony. MPC students received a record amount of scholarship funding this year.
7. Attended the Seaside HS scholarship ceremony with Trustee Brown and Mr. Birt Johnson.
8. Employee recognition BBQ was a huge success and a great team-building event for all MPC employees. A list of all awardees was distributed to All Users. Mr. Carsbia Anderson's last BBQ was well-attended.
9. Attended the Citizens' Bond Oversight Committee meeting.
10. Interviewed candidates for several open faculty positions.
11. Met with Laura Loop, Michael Gilmartin, Rosaleen Ryan, and Mike Torres regarding the proposed changes to the multi-criterion selection process.
12. Met with Celine Pinet, Laura Franklin, and the Math Department regarding staffing mathematics appropriately. I also met with the Basic Skills Committee as they work on prioritizing their projects and budget for 2013-2014.
13. Attended the meeting of the board for the South Bay Regional Consortium in May. We were provided an update to the Chancellor's Office's review of the consortium. The review is ongoing and the consortium is preparing a draft of a response document for the Chancellor's Office regarding their review. I articulated MPC's position regarding the need to retain the 45%-55% split of apportionment revenue (45% retained by the participating colleges in the consortium) as

there was discussion related to the possibility to increase the percent that the consortium retains. MPC staff has participated in other meetings related to the consortium since that meeting to address issues pertaining to admissions and records, publication of course information, as well as curriculum alignment.

14. Attended "Light Up The Sky" with Trustee Dunn Gustafson.
15. Attended the Leon Panetta Institute 2013 Lecture Series: "Middle East Turmoil: Chaos or Reform?"
16. Attended the graduation ceremony for Leadership Monterey Peninsula.
17. Met with the President of the MPC Foundation and the Executive Director.
18. Met with Peggy and Jack Baskins along with Beccie Michael and John Mahoney. This meeting was to get to know the Baskins and thank them for their ongoing support of the college and foundation.
19. Travelled to Wenatchee to be present at my youngest daughter's graduation and work on our house to prepare it for sale.

Academic Senate Annual Report 2012-2013

Fred Hochstaedter

May 2013

Executive Summary

It was a year of rapidly accelerating change. Things are changing faster than I've ever seen in the Community College System. Either that, or I'm finally figuring out what's going on. People that know me well tell me it's probably a little bit of both.

We said goodbye to our previous President and wished him well in retirement. We welcomed a new President to the college and wished him well in his efforts to navigate us through this new landscape of increasing demands and decreasing resources.

The Student Success Initiative, the Chancellor's Office Scorecard, and the accreditation agency among others all continue to press for ever-more accountability in an environment of decreasing resources. Legislators clamor for increased numbers of graduates and transfers from our system, even suggesting the use of online courses developed by outside vendors to ensure student access to classes. Accountability demands are leading to numbers without context, a worrisome approach that invites inappropriate comparisons and misbegotten conclusions. Media outlets and critics seem to love data summaries like the Scorecard because it's quick, easy to work with, and generates controversy. Those in academia hate it because data quality and the context that support the data are left behind like discarded cigarette butts along the roadside. They worry that suggested shifts in funding models from accessibility to completion will cause the value and meaning of a college education to decline. State Academic Senate President Michelle Pilati summed it up well, saying that the community colleges are operating in an "environment that is effectively encouraging a diminishment of quality while asking for a product of demonstrable value" (March 2013 update http://www.asccc.org/newsletter_archive).

MPC faced these types of issues early in the academic year when it tried to respond to a sudden change in the Chancellor's Office requirements for Basic Skills funding requirements. With little notice late in the previous academic year, the Chancellor's Office released a new reporting mechanism that required all funded activities be tied to quantitative "success goals" based on cohort data provided by the Data Mart Cohort Tracking Tool. In response, the MPC Basic Skills Committee tried to establish "success goals" that established a percentage increase in students progressing through certain basic skills courses. Faculty members on the Basic Skills Committee, along with members of their departments, had serious concerns about the report format and approach, essentially saying that basing an evaluation of a project solely on quantitative data without any supportive context is wrong and potentially misleading, and that it represents a shift in philosophy away from a holistic approach supporting all students to a myopic focus on progression in English and Math. Like a slap in the face on a cold morning, MPC was introduced to the new quantitative accountability paradigm.

It is within this environment that the MPC Academic Senate operated this year. Trying to be proactive in a reactive environment, the Academic Senate looked for ways to define, promote, and protect the meaning and quality of an MPC education while at the same time recognizing that it needs to participate in the accountable world in which it operates. It hoped to develop and implement processes that provide context to those quantitative metrics that are becoming an increasingly prominent part of our landscape.

Recognizing these challenges, the Academic Senate endeavored to provide the context and meaning for the quantitative metrics we continue to see. The SLO Committee submitted a "platform" that envisioned more prominence for learning outcomes and encouraged the college to become an outcomes-based institution by participating in both the quantitative and qualitative aspects of the SLO process. It is only through engaging in both quantitative and qualitative methods that the institution can convey the story of

the whole institution without forgetting the faces of the students that it serves. The SLO Committee and the Academic Senate continue to strive to create and implement procedures that are flexible enough for each division and department to use as a framework for addressing their own issues and needs.

In accreditation matters, the Academic Senate reviewed and recommended submission to the ACCJC (Accreditation Commission for Community and Junior Colleges) follow-up reports, a mid-term report, and material to be included in its annual report. In response to the follow-up report, the accrediting agency informed the institution that it had removed the deficiencies for two of the recommendations, but that deficiencies remained for the other two. These remaining deficiencies, in part, led to the development of the platform to encourage the college to become more of an outcomes-based institution.

The MPC Academic Senate participated in the institution's ongoing board policy review efforts with the idea of quality education in mind. In its recommended policy revisions, the Academic Senate endeavored to ensure that faculty primacy is retained in recommendations to the board regarding academic and professional matters such as curriculum and program development. The Academic Senate approved 16 board policies to be forwarded to other shared governance groups for eventual recommendation to the President to be brought to the board.

If an institution wants to promote and maintain quality, it must be able to define it, talk about it, and recognize it when it sees it. To that end, the Academic Senate collaborated with the Institutional Committee on Distance Education to develop a rubric that articulates the characteristics of quality in the online classroom. These guidelines are intended to form the baseline for faculty training and mentoring as the institution continues to increase its offerings in this area. The rubric deals with all aspects of teaching online, including both technical issues and pedagogic issues that arise when teachers don't see their students face to face.

Attaining a quality education is often a difficult undertaking for many students. Recognizing that they need support from all sides in order to reach this goal, the Academic Senate sought to improve the collaboration and communication between student services and instructional faculty around issues of transfer and completion. Presentations were developed to educate students and faculty about the new 1440 Transfer Degrees. Plans were initiated to develop 300-level courses that would introduce students to the content of the courses they typically have trouble with as they begin their academic careers. The aim is that these courses will improve student engagement and overall success for those students who may be taking basic skills math and English at the same time.

A more detailed summary of accomplishments related to the goals set at the beginning of the semester follows. Original goals and objectives are in **bold**.

1. Institutional Issues

Feed the accreditation beast (Fred)

In part because of accreditation issues—MPC removing deficiencies in only two of its four recommendations—and in part because of recognition of increased accountability expectations throughout the state, the SLO Committee developed and then shared with the institution the SLO Platform to increase the prominence of SLOs and the Reflections process. The main point of the platform reads, *“The institution must act as a team to demonstrate the value of an MPC education by using SLOs to demonstrate what MPC students learn, the degree to which they've learned it, and how the institution has endeavored to improve.”* It recommended that SLOs and the Reflections process be integrated into institutional goals, component goals, and into the hearts and minds of all MPC personnel. MPC needs to encourage the attitude that in addition to being great educators and service providers, “student learning is what we do and we can demonstrate its quality and value.” In addition,

because adjuncts are responsible for so much of the learning that occurs at MPC, they need to be more fully integrated into the Reflections process. The document was unanimously endorsed at the Academic Senate and at all three advisory groups.

<http://www.mpcfakulty.net/senate/SLOs/SLOCommitteePlan4-24-13.pdf>

- **Participate in writing the Mid-Term Report and shepherd it through the shared governance process.**
 - ✓ Through the SLO Committee and the Academic Senate, faculty members wrote several sections of the follow-up report and then helped present it at various shared governance committee meetings such as AAAG and the College Council.
 - ✓ The experience of writing these reports led to several improvements in the SLO/Reflections process.
- **Recruit faculty members to participate in this process**
 - ✓ Although the spectrum of faculty members involved in writing the mid-term report was not as great as originally envisioned, the report had strong faculty input and was vetted at the Academic Senate as well as other shared governance groups.

Plan flex day events that are informative, inspirational, motivational, and/or engaging to all those that attend (Flex Day group)

The Fall and Spring Flex Days were carefully planned and executed to perfection. Post-flex-day surveys indicated a high level of enthusiasm for the breakouts that were offered and good suggestions for the future. Sessions that had especially high praise were the OnCourse workshop organized by the Basic Skills Committee and the mental-health-related breakouts offered by Diane Boynton and the BART (Behavior Assessment Response Team). For the Fall 2013 semester, the Academic Senate looks forward to a keynote address by Diane Boynton.

- **Address the lack of a chair on the Flex Day committee.**
 - ✓ Kevin Bransfeild chaired the committee for the Fall semester. Grace Anongchanya and Kelly Fletes took over for the Spring semester. The flex committee is in good hands.

Review Board Policies that relates to academic and professional matters

As part of its discussion on board policy, the Academic Senate made two recommendations to the institution. These recommendations were made in an effort to increase transparency in administrative procedures that are closely related to many of the board policies. Currently, administrative procedures and appendices to board policies are not readily available to everybody. At a later meeting, the Academic Senate made a recommendation about the naming of the President in the Board Policies. It preferred the term “Superintendent/President” over “CEO” in line with MPC’s current culture and naming practice.

- Recommendation 1: The Academic Senate recommends that wherever MPC board policies mention appendices or administrative procedures, that these appendices or administrative procedures be published in an easily accessible location, like in the same document, or right next to the board policies on the web site.
- Recommendation 2: The Academic Senate recommends that MPC clarify the distinction between a BP appendix and an administrative procedure, or choose one or the other term and then consistently use it in all BPs.
- Recommendation 3: The Academic Senate recommends that the President be referred to as the “President” or “Superintendent/President” in all of these board policies. The CCLC (Community College League of California) draft policies contain the phrase [CEO], indicating that each institution should choose their own phrase. The Academic Senate believes the term “CEO” is too corporate for the culture at MPC.

➤ **Participate in the new board policy review effort to adopt a large number of board policies this academic year.**

- ✓ The Academic Senate generally took the CCLC draft policies and edited them slightly to make sure they complied with MPC practice and to ensure that the institution relied upon the Academic Senate or Curriculum Advisory Committee for recommendations regarding academic and professional matters such as curriculum and program development.
- ✓ The Academic Senate reviewed and recommended 16 policies during the academic year. These included:
 - Instructional Service Agreements (ISAs)
 - Contract Education
 - College Catalog
 - Graduation Requirements for Degrees and Certificates
 - Library Services
 - Open Enrollment
 - Course Repetition
 - Academic Calendar
 - Articulation
 - Multiple and Overlapping Enrollments
 - Field Trips and Excursions
 - Academic Freedom
 - Pre-requisites and Co-requisites
 - Nursing Program
 - Program, Curriculum, and Course Development
 - General Education
- ✓ The full summary of recommended board policies is at <http://www.mpcfaculty.net/senate/boardpolicy12-13/BPRecsSummary12-13.pdf>

Support the continuing development of distance education at MPC (Catherine, ICDE, Fred)

- **Work collaboratively with ICDE to establish a philosophy that articulates the role, scope, and meaning of high-quality distance education at MPC**
- ✓ A working group was convened and a rubric describing quality distance education was developed. A rubric previously developed by Chico State was used as a starting point.
 - ✓ The rubric describes all aspects of distance education, including website design, syllabus and outcomes, student support, and assessment and evaluation.
 - ✓ As of this writing, the DE Quality rubric is being reviewed by the Academic Senate.
 - ✓ The current draft of the DE Quality rubric may be found at http://www.mpcfaculty.net/senate/Distance%20Ed/MPCOnline_BestPracticesGuidelines_4-29-13.pdf
- **Review the second ACCJC follow-up report and approve its submittal.**
- ✓ This report was completed, reviewed by the Academic Senate and submitted to the ACCJC. The ACCJ subsequently accepted it and “removed the deficiency” related to this recommendation.

2. Goals Initiated by the Academic Senate

Support faculty development and effectiveness by making enhanced use of the existing faculty evaluation process using peer-based mentorship. (Kevin, Andres, Elias)

- **Solicit best-practices from around the campus as guidelines for the post-evaluation support of all faculty, both new and experienced, in areas such as:**

- Course content
 - New use of technology
 - Pedagogical strategies
 - Student assessment
 - Community outreach
 - Diversity issues
 - Campus service
 - Pre-chair mentoring
 - MPC Foundation support
- **Develop a process to assist evaluation committees with post-evaluation strategies that clearly outline goals, timelines, and support for faculty that will address constructive recommendations born from the information gained during evaluation.**
 - **Outline a process that will be of benefit to all faculty members, as well as their evaluation committee. It will help maintain a consistent thread of evaluation throughout all stages of our career, and provide an entry point for our next round of self-evaluation and reflection.**
 - ✓ Met with Dean Laura Franklin to discuss the current mentoring process and determine how they might work to improve it.
 - ✓ Reviewed the recently published ASCCC (Academic Senate for California Community Colleges) paper “Sound Principles for Faculty Evaluation”
<http://www.mpcfacity.net/senate/ASCCC/SoundPrinciplesForFacultyEvaluationSpring2013.pdf>
 - ✓ Reviewed the ASCCC Spring Plenary Resolution (19.03) “Develop Training Guidance for Faculty Engaged in Peer Evaluations”, which directed the ASCCC to work with statewide bargaining organizations and other relevant constituencies to develop training materials and/or other guidance to help local colleges and districts establish effective training processes for faculty engaged in peer evaluation
 - ✓ Became motivated to gain traction in the fall to merge MPC’s mentoring process with the best of the ideas from the ASCCC.

Continue to investigate the feasibility of instituting +/- grading at MPC (Steve-our honorary senate representative)

- **Pursue investigation of +/- grading by soliciting information from students.**
- **Approach student leadership and ask them to do some kind of 'awareness' or 'discussion' or 'focus group' on +/- grading.**
- **Analyze the results of the student discussion.**

The Academic Senate should determine whether it should pursue this idea next year.

Encourage and improve communication and collaboration between instructional faculty and student services to support student success. (Instructional and Student Services Group)

This was one of the Academic Senate’s most successful efforts of the year. In addition to the accomplishments listed below, under the original objectives, this group made substantive progress in two additional areas.

- ✓ Discussions were initiated on creating 300-level courses designed to give students an introduction to traditionally difficult subjects. Rationale for this new type of basic skills class includes
 - Making the first few semesters of a basic skills student’s experience more varied and enriching by including courses beyond English and Math
 - Providing exposure to a major that students might not have otherwise considered
 - Enabling students to make more educated decisions about choosing their major, as the Student Success Initiative will be encouraging students to declare their majors earlier in their education
- ✓ Efforts were initiated to develop informational workshops for students to introduce them to the nuts and bolts of some of the popular majors such as biology. A student survey is

currently being developed to elucidate topics of high interest to students. The workshops would include the following kinds of topics

- Emphasizing the importance of sequencing courses
 - Providing information on four-year universities to continue their studies
 - Offering information on careers in the discipline
- **Establish collaborative effort between instructional faculty, counseling faculty and student services staff to develop and present a pilot transfer workshop specific to a discipline or division. The workshop will include information about SB 1440 transfer AA degrees.**
- ✓ In collaboration with the working group, Kim Mansfield and Amber Kerchner developed a presentation about the transfer degrees that was shared with the Academic Senate on November 15.
 - ✓ These pilot presentations were an effort to get instructional faculty feedback, to inform faculty about the challenges and opportunities of transfer degrees, and encourage their participation in future efforts.
 - ✓ They went on to give this presentation to the Humanities and Social Sciences Divisions.
- **Initiate a process that explores and cultivates the sharing of SLOs between instruction and student services and programs. Identify areas of shared aims and align strategies to meet students' needs.**
- ✓ The SLO Committee received strong Student Services representation from Grace Anongchanya. Prompts on the Program Reflections form were updated and designed so that programs from across the institution could respond and use the form in a profitable manner.

Address Instructional Technology Issues (Catherine, Alexis, Sue)

- **Summarize past notes on technology concerns (e.g., Tech Triage survey results, minutes from our meeting with Steve Ma last Spring, etc.) to present to the new Director of Information Services and Associate Dean of Instructional Technology.**
- ✓ A summary of technology concerns was developed and given to the new Director of Information Services, along with a box of chocolate, upon his arrival.
 - ✓ Chocolate and pledges of support were also given to the new Associate Dean of Instructional Technology.
- **Invite these individuals for constructive dialog to convey faculty concerns.**
- ✓ The technology concerns collected by the Academic Senate were included in and informed the draft Technology Master Plan currently under review by the institution. Upon presentation of the Tech Master Plan to the Academic Senate, many helpful comments and critique were delivered to the Technology Committee.
 - ✓ A principal result of these comments is that delivery of the final draft of the Technology Master Plan will be adjusted to the Fall 2013 semester so that a truly informative plan that can aid the institution in its planning efforts can be developed and presented to the institution.

Participate in improvement of technology implementations related to instruction and user-centeredness.

- **Prepare a summary of past institutional discussions regarding technology concerns (e.g. Academic Senate minutes, "Tech Triage" survey responses, etc.) for the incoming Associate Dean of Instructional Technology and Director of Information Services to provide a context for technology concerns from the faculty perspective.**
- **Share the summary of concerns with the Instructional Technology and Director of Information Services.**
- ✓ Accomplishments in these areas are summarized above.

- **Collaborate with the incoming Associate Dean of Instructional Technology and Director of Information Services on plan for addressing the concerns and communicating the response to faculty.**
 - ✓ These collaborations took place via the Technology Committee, the DE Quality working group, and presentations to the Academic Senate where feedback and suggestions for improvement were gathered.

Address to Board of Trustees from Loran J. Walsh, MPCEA Chapter President

Good Afternoon Board Members,

26 June 2013

Today I am sharing with you a copy of an employee's medical statement. This statement demonstrates that even with our insurance employees must still pay in for medical bills. This employee shows that she had to pay \$404.00 before surgery and still must pay \$788.48 out-of-pocket and there are still claims out there. This was an unexpected and unbudgeted expense that the employee had to come up this money. I have heard we are rich in benefits and poor in salary- I think an unexpected \$1000.00 bill and still growing shows we have neither. I am also sharing with the board another employee's statement of medical coverage. I am sharing these statements- so you can see what our employees endure with our insurance coverage.

Also I am sharing with you a salary comparison that was shared with me. We can see the disparities that there are amongst employees.

I attended the last part of our Union Steward training offered by CSEA on Saturday, June 1 2013.

I also was able to attend an Immigration Symposium and Town Hall with SEIU at Hartwell College on Sunday, June 2 2013- with Sam Farr- our Congressman and the Secretary- Treasurer of SEIU; also present were three Hartnell Board Members.

I attended my second Monterey County Central labor Council meeting on Wednesday, June 5 2013- giving MPCEA a further reach into the Central Labor Council and joining labor in a call for action on immigration reform and other labor issues.

It appears our negotiations with the District are ending. The District per our agreement gets to keep our COLA- 1.57% because the district did not reach its cap, that and a change in insurance set a sides the District should meet this year's budget shortfall.

Once again MPCEA is thankful for no layoffs.

As always,

"There is No Class without Classified"

The CESA mission is: "To improve the lives of our members, students and community."

**MPC FOUNDATION
DONATIONS BY FUND
MAY 2013**

Child Development Center	\$	68,910.00
Faculty Breakfast	\$	980.00
FASA (Academic Excellence)	\$	75.00
FAMPC	\$	160.00

**HIGHLIGHTS OF
REGULAR BOARD MEETING**

May 16, 2013

1. *Robin McCrae, Chief Executive Officer, introduced Karen Araujo, Interim Executive Assistant. Lori Andre is out of the office for several weeks and Karen will fill in meanwhile.*
2. *Clive Stewart, Program Officer for Genesis House, offered an update on the many recent improvements and repairs to the facility. 26 clients are there now. Mary Carbone will get materials and volunteers for the next phase. The accreditation site survey will be on the 16th and 17th of July. An Open House will be scheduled shortly thereafter.*
3. *Finance Committee member Harvey Kuffner reported the agency is in a good situation right now. It is \$114k ahead in revenue over expenses. A contract pending for providing mental health services will result in an increase of \$90k for CHS when it goes through. The contract amendment for this year and a new 3-yr contract effective July 1 are in the signature phase.*
4. *A budget proposal will come back to the board next month for approval as the fiscal year ends 6/30/13.*
5. *The committee is seeking to refinance two mortgages and is looking at the options offered by two banks (Wells Fargo and Rabobank). A report will be given next month.*
6. *The committee is also comparing and considering line of credit options with Wells Fargo, Rabobank and the Nonprofit Finance Fund.*
7. *Bette Grace & Associates' final review of the agency's retirement plan reflected very positively on the staff and how the organization is run.*
8. *It was determined that Mary Ann Carbone will serve as chair and Curt Parker will serve as vice chair on the FY 13-14 Board of Directors.*
9. *In addition to items mentioned above, next month's agenda will include:*
 - *Bette Grace & Associates' full report;*
 - *details on the CPO's request for new computers and software; and*
 - *the results of Mary Ann Carbone's discussion with Robin McCrae about material prices for stairs at Genesis House, if needed.*

**The next board meeting is scheduled for Thursday, June 20, 2013,
from 11:00 a.m. to 1:00 p.m. at the Sand City Hall, 1 Sylvan Park, Sand City, CA.**

Legislative Update

1. We have a working budget for the upcoming year. More funding, in general, for the CCC system as predicted overall including funding for a COLA (1.57%). (Staff is reporting on our proposed budget that includes information related to the approved budget from the State.)
2. AB 955 Das Williams' (D-Santa Barbara): Bill to allow community colleges to offer extension programs for credit, during summer and winter intersessions. This bill passed out of the Senate Education Committee and is heading for the Senate Appropriations Committee.
3. Work on AB 806 AB 806 (Wilk) has been on hold.

MPC
Active Bond/Facility Projects Update
June 11, 2013

Humanities / Old Student Services / Business Humanities – The project is receiving State matching funds. Phase 1 (Old Student Services Building) construction has been completed. Construction on Phase 2 (Humanities Building) is significantly ahead of schedule, and the new goal for completion is August 20, 2013. Drywall has been installed and interior painting has begun. Ceilings will be installed after the interior painting is completed. Sidewalks and seat walls have been poured, and landscaping work continues. Electrical, mechanical and plumbing work continues. Every effort is being made to complete this project ahead of schedule.

Life Science / Physical Science Buildings – There are two phases in this project with the First Phase being the Life Science building which has been completed. At the Physical Science building, casework and cabinets are being installed. Electrical, mechanical and plumbing systems are almost completed, and testing has begun. The Physical Science building is expected to be completed in July 2013.

Swing Space – The “Swing Space Village” is located adjacent to and south of the Theatre, and classes are being conducted in the building. The General Classrooms Building has been modified and is accommodating the Physical Science department. The plan to accommodate the needs of the Arts Complex and Student Center (food service, book store, and other departments) is being implemented. Modifications to Swing Space will be completed before the commencement of fall classes.

Infrastructure – Site work (lighting, parking lots, sidewalks) will be ongoing for the next few years.

Pool/ Tennis Courts – The project will go to bid in July 2013. It is anticipated work will commence in the summer of 2013.

Student Center – Bids were received and were over budget primarily as a result of extensive seismic and structural work that is needed to receive DSA approval. The overage will be covered by the savings that resulted from the Arts Complex bid that was under budget. Work will commence upon Board approval of the bid. Completion is scheduled for late summer of 2014.

Arts Complex – The Arts Complex project is comprised of the major renovation of the Art Studio and Art Ceramics Buildings. Very competitive bids for this project were received May 14, 2013 resulting in the project costs to be well within budget, and savings will be sufficient to cover the overage on the Student Center. Construction will commence after Board approval in the summer of 2013 with completion scheduled for the summer of 2014.

Music Building – MPC is applying for matching State funding for the renovation of some of the existing Music buildings.

Facilities Committee – The Committee meets on a regular basis to review project budgets and schedules. The last meeting was held May 31, 2013, and the committee was informed of the status of the projects and the forecasted budgets.

Cost Control Report

6/11/2013

Life Science / Physical Science

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,080,000	\$ 1,080,000	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 7,400,000	\$ 7,400,000	\$ -	Actual bid amount.
C.O. Contngcy.	\$ 980,000	\$ 980,000	\$ -	
Test & Inspect.	\$ 210,000	\$ 210,000	\$ -	
Cnstr Mgmt Fee	\$ 625,000	\$ 625,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.
Other	\$ 505,000	\$ 505,000	\$ -	Includes hazmat, demolition, IT and future allowance.
Total	\$10,800,000	\$10,800,000	\$ -	

Summary: The present budget is now \$10,800,000. The original budget was \$14,500,000, but the bids and construction costs were lower than originally budgeted. As a result, \$3,700,000 has been transferred to other project budgets. The present budget is \$10,800,000 (as approved by the Board in November 2012). The Physical Science building is scheduled for completion in the summer of 2013.

Theatre

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 976,000	\$ 976,000	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 7,790,000	\$ 7,790,000	\$ -	Actual bid amount.
C.O. Contngcy.	\$ 779,000	\$ 779,000	\$ -	
Test & Inspect.	\$ 220,000	\$ 220,000	\$ -	
Cnstr Mgmt Fee	\$ 385,000	\$ 385,000	\$ -	
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.
Other	\$ 350,000	\$ 350,000	\$ -	Includes hazmat, demolition and IT
Total	\$10,500,000	\$10,500,000	\$ -	

Summary: The present budget is \$10,500,000 (as approved by the Board in November 2012). The project has been completed. Final costs are being compiled and finalized.

Old Student Services / Humanities / Business

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,100,000	\$ 1,100,000	\$ -	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 4,110,000	\$ 4,110,000	\$ -	Actual bid amount.
C.O. Contngcy.	\$ 411,000	\$ 411,000	\$ -	
Test & Inspect.	\$ 231,000	\$ 231,000	\$ -	
Cnstr Mgmt Fee	\$ 330,000	\$ 330,000	\$ -	
Equipment	\$ 132,000	\$ 132,000	\$ -	Equipment partially State funded
Other	\$ 300,000	\$ 300,000	\$ -	Includes hazmat, demolition and IT
Total	\$ 6,614,000	\$ 6,614,000	\$ -	

Summary: It is important to recognize that this is a State "match" funded project (State will fund \$3,318,000 and MPC will fund \$3,296,000). The original budget of \$3,845,000 that MPC was to contribute has now been reduced to \$3,296,000 due to the bids coming in lower than the budget. This results in a potential savings to the MPC bond budget of \$549,000 which may be allocated in the future to a contingency fund. Phase 1 (Old Student Services Building) has been completed. Phase 2 (Humanities Building) construction continues and is ahead of the contract construction schedule completion date of November 2013.

Arts Complex

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 565,000	\$ 450,000	\$ 115,000	Design includes Architect, DSA fees, printing, etc.
Constructn bid	\$ 3,400,000	\$ 2,400,660	\$ 999,340	Actual bid amount.
C.O. Contngcy.	\$ 310,000	\$ 240,000	\$ 70,000	
Test & Inspect.	\$ 140,000	\$ 130,000	\$ 10,000	
Cnstr Mgmt Fee	\$ 155,000	\$ 120,000	\$ 35,000	
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund
Other	\$ 1,154,000	\$ 1,383,340	\$ (229,340)	Includes contingency for future Art Dimensional construction
Total	\$ 5,724,000	\$ 4,724,000	\$ 1,000,000	

Summary: The construction bid was well within budget. Savings from this project will be used to offset the higher costs for the Student Center project. The "Other" budget is higher than typical projects because work needs to be done on the Art Dimensional building (this work will be done in the future).

Student Center

	Budget	Current Projection	Variance	Comments
Design Phase	\$ 320,000	\$ 370,250	\$ (50,250)	Includes architect fees, DSA fees, bid drawings, etc.
Constructn bid	\$ 3,800,000	\$ 4,525,000	\$ (725,000)	Actual bid amount
C.O. Contngcy.	\$ 380,000	\$ 452,500	\$ (72,500)	10% of construction bid
Test & Inspect.	\$ 120,000	\$ 128,000	\$ (8,000)	
Cnstr Mgmt Fee	\$ 190,000	\$ 226,250	\$ (36,250)	
Equipment	\$ -	\$ -	\$ -	Furniture & Equipment will be from a separate fund.
Other	\$ 190,000	\$ 250,000	\$ (60,000)	Includes hazmat abatement, demolition, IT and other costs.
Total	\$ 5,000,000	\$ 5,952,000	\$ (952,000)	

Summary: The forecasted budget is now projected to be \$5,952,000. The original budget was \$5,000,000. The reason the construction bids came in higher than budgeted is primarily due to considerable additional structural requirements by DSA. The current projected budget overage will be compensated by the savings from the Arts Complex budget which was well under the budget.
