Dear President Garrison,

I want to thank you and Monterey Peninsula College for the opportunity to join you at the Monterey Bay Public Higher Education Meeting. I was delighted to have been a part of the discussion, and will certainly consider the information provided in future legislation.

I look forward to continuing to work with you and MPC in the near future. Thank you.

Sincerely,

LUIS A. ALEJO

Contact: Ryan Guillen (916) 319-2027 Cell:(707) 280-6967

Governor Signs FORA Extension

(SACRAMENTO, CA) – Today, the Fort Ord Reuse Authority (FORA) sunset extension legislation authored by Assemblymember Bill Monning (D-Carmel), and co-authored by Senators Blakeslee and Cannella and Assemblymember Alejo, was signed into law by Governor Brown.

Assembly Bill (AB) 1614 extends the statutory sunset date of FORA by six years from June 30, 2014 to June 30, 2020, and requires the FORA board to approve and submit a transition plan prior to its dissolution to the Monterey County Local Agency Formation Commission.

"Governor Brown's approval of AB 1614 means that the economic recovery and reuse on the former Fort Ord military base can continue," stated Assemblymember Monning. "I will continue to engage with FORA and all stakeholders during its remaining years to ensure that both the economic and environmental goals of the area are achieved."

Outside the reassessment of FORA's base reuse plan and local planning, there are a number of ongoing and fixed term obligations on the former US Army base, such as the implementation of the Habitat Conservation Plan, the financing of contaminated building deconstruction, and the coordination of the planning and construction of the Central Coast Veterans' Cemetery, that other local agencies would need to perform but that are not equipped to implement. AB 1614 benefited from the support of Monterey County, its regional cities, the Ventana Chapter of the Sierra Club, and veterans' organizations.

"FORA needs additional years to ensure enforcement of the base reuse plan that was adopted in 1997 as a regional effort to transform the former Fort Ord into an economically thriving and environmentally protected area," stated Jane Haines, who testified in support of AB 1614 on behalf of the Sierra Club, Ventana Chapter. "Sierra Club has worked proactively with FORA, and we conclude that our goals would be best attained through FORA."

###

Assemblymember Monning was first elected to represent the 27th Assembly District in 2008 and reelected in 2010. The 27th Assembly District includes portions of Monterey, Santa Clara and Santa Cruz Counties. Prior to his election to the Assembly, Assemblymember Monning was a professor at the Monterey College of Law and a Professor of International Negotiation and Conflict Resolution at the Monterey Institute of International Studies.

Douglas Garrison, Ph. D., President Monterey Peninsula College 980 Fremont Street Monterey, CA 93940

RE: AB 1614/AB 1842 Signed into Law – Fort Ord Reuse Authority Extension/Cemetery Funding

Dear Dr. Garrison,

As you may already be aware, Governor Jerry Brown signed both AB 1614 and AB 1842 into law over this past weekend. AB 1614 extends the Fort Ord Reuse Authority (FORA) statutory sunset date to June 30, 2020 and allows the coordinated mission of regional recovery from the closure of Fort Ord to continue. Also, AB 1842 allows greater flexibility in securing funding options for the Central Coast Veterans Cemetery. Thank you for lending your support to both of these efforts.

Over the last nine months, the FORA Board has been tackling major issues, including how to implement the benefits of the newly designated Fort Ord National Monument, how to move forward with the recovery program, confirming the direction of the Base Reuse Plan, updating records management and audit oversight, executing the contractual obligations to finish the explosives removal on recovery properties and completing important infrastructure projects — all in support of the recovery mission. The extension of FORA offers crucial time to sustain ongoing efforts and to make adjustments to meet these challenges as there remains work yet to be done to ensure economic recovery from the closure through reuse of the former Fort Ord.

I hope your support for this crucial regional mission will be sustained in the coming years as we move toward realizing the recovery promises made to the Monterey Bay Region in the 1990s. I look forward to our continuing work toward these goals.

Sincerely,

Dave Potter FORA Board Chair

Dr. Brice W. Harris Named 15th Chancellor of the California Community Colleges Former Los Rios Community College District chief to lead nation's largest system of higher education

SACRAMENTO, Calif. — The California Community Colleges Board of Governors today announced the unanimous selection of former Los Rios Community College District Chancellor Brice W. Harris as the 15th chancellor to lead the 112-college system, the largest system of higher education in the country.

"Brice Harris is the right person at the right time to lead the California Community Colleges. I've known and worked with him for many years, and he is widely respected within the college system. He has the vision and leadership skills needed to navigate these tough fiscal times and keep us focused on improving student success," said California Community Colleges Board of Governors President Scott Himelstein.

Harris was the longest-serving chancellor at Los Rios, with nearly 16 years at the helm, and led two local bond measures that funded facilities improvements and allowed the district to serve thousands of additional students. The Los Rios district includes American River, Cosumnes River, Folsom Lake and Sacramento City colleges, and enrolls more than 85,000 students each semester. Harris oversaw the establishment of the district's fourth college, Folsom Lake, and provided the vision that made it home to a regional performing arts center, which was recently renamed in his honor.

Harris previously served as president of Fresno City College, and was a faculty member and vice chancellor in the Kansas City, Mo., community college system.

"It is humbling to be asked to lead such a tremendous system of colleges serving the educational needs of California. The California Community Colleges have helped educate generations of citizens, and these colleges are even more important to the future of our great state," Harris said. "Serving as the system chancellor at this time is very exciting. The efforts that retiring Chancellor Jack Scott and the board of governors have begun related to improving student success provide us all a clear road-map to a better future for our colleges and for California."

Harris has served on a host of local, state and national boards and commissions. He was the first educator to serve as president of the Sacramento Metropolitan Chamber of Commerce and also served as president of the Sacramento Area

Commerce and Trade Organization (SACTO). Harris serves on the American Council on Education (ACE) board, and was a member of the California Community College Chancellor's Office Student Success Task Force.

"I enthusiastically endorse the appointment of Dr. Brice Harris as the chancellor of the California Community Colleges. He is an outstanding educational leader, as evidenced by his superb leadership of the Los Rios Community College District," said former Chancellor Jack Scott, who retired earlier this month. "He will ably represent community colleges in state government, and I predict great progress for California community colleges under his leadership."

Harris did his post-doctoral study at the Harvard University Institute of Educational Management, received his doctorate in education at Nova Southeastern University, his master's in communication from the University of Arkansas, and his bachelor's in communication from Southwestern Oklahoma State University.

"I've known and worked with Brice for almost 20 years, going back to my days on the Sacramento City Council. He was an exemplary chancellor at the Los Rios Community College District, broadening higher education opportunities for tens of thousands of students through unprecedented renovation and expansion of the district's four colleges," said Senate President pro Tempore Darrell Steinberg. "As California Community Colleges enlarge their role in educating and training our state's workforce, I look forward to working with Brice as he takes on another leadership challenge."

As chancellor, Dr. Harris will receive an annual salary of \$198,500, plus a standard benefits package afforded to state employees. He begins his duties on Nov. 6, 2012

Harris lives in Fair Oaks, Calif., with his wife, Barbara, who is an elementary educator and he has three adult children also in the state.

The <u>California Community Colleges</u> is the largest system of higher education in the nation. It is composed of 72 districts and 112 colleges serving 2.4 million students per year. Community colleges supply workforce training, basic skills courses in English and math, and prepare students for transfer to four-year colleges and universities. The Chancellor's Office provides leadership, advocacy and support under the direction of the Board of Governors of the California Community Colleges.

California Community Colleges and California State University Launch New Associate Degree for Transfer Website – ADegreeWithAGuarantee.com

Website Serves as Comprehensive Resource for Information about New Transfer Degree

SACRAMENTO, Calif. – The California Community Colleges and the California State University have launched a new website that provides comprehensive information about the new Associate Degree for Transfer (AA-T/AS-T) pathway that lets students earn an associate degree and a bachelor's degree, with no wasted units. The website, ADegreeWithAGuarantee.com, is the ultimate resource for students and parents to learn about the Associate Degree for Transfer.

"An Associate Degree for Transfer will ease the transfer process for California community college students to transfer to a CSU campus and ADegreeWithAGurantee.com is the best place for students and parents to get information about this exciting new program," said Acting California Community Colleges Chancellor Erik Skinner.

The key features of the website include:

- Complete details on how the new transfer pathway works
- Up-to-date information about the transfer majors available by California community college campuses that are matched to similar bachelor's degrees at California State University campuses
- Interactive maps that help students find a campus
- Application information
- A degree progress checklist

Testimonials from students who have earned an Associate Degree for Transfer and successfully transferred to a
 California State University campus

"ADegreeWithAGuarantee.com explains how the new transfer pathway works and the many benefits for students to earn an Associate Degree for Transfer," said Ephraim P. Smith, California State University executive vice chancellor and chief academic officer. "This is an excellent tool and we're excited to share it with students, parents and the people who will help them make informed decisions about pursuing their bachelor's degrees."

The Student Transfer Achievement Reform Act (Senate Bill 1440, Padilla) became law in 2010 and requires the California Community Colleges and California State University to collaborate on the creation of AA-T and AS-T degrees. Upon earning these degrees, students will be guaranteed admission to a California State University campus with junior standing. While not guaranteed admission to their campus of choice, students will be given priority consideration for admission to a California State University campus that offers a program that has been designated as "similar" by California State University. Once enrolled at California State University campus, students will be able to complete a Bachelor of Arts or Science degree with no more than 60 additional units.

Community colleges offer more than 450 new associate degrees for transfer in 20 of the most popular transfer majors, and more are being added. These degrees provide pathways to more than 300 baccalaureate degrees across the California State University system. ADegreeWithAGuarantee.com will be updated frequently as more degrees become available every term.

About the California Community Colleges

The California Community Colleges is the largest system of higher education in the nation composed of 72 districts and 112 colleges serving 2.4 million students per year. Community colleges supply workforce training, basic skills education and prepare students for transfer to four-year institutions. The Chancellor's Office provides leadership, advocacy and support under the direction of the Board of Governors of the California Community Colleges. About the California State University

The <u>California State University</u> is the largest system of senior higher education in the country, with 23 campuses, approximately 427,000 students and 44,000 faculty and staff. The CSU awards about 99,000 degrees annually and since its creation in 1961 has conferred nearly 2.4 million. The CSU is renowned for the quality of its teaching and for the job-ready graduates it produces. The mission of the CSU is to provide high-quality, affordable education to meet the ever changing needs of the people of California. With its commitment to excellence, diversity and innovation, the CSU is the university system that is working for California.

Doug Garrison President, Monterey Peninsula College 980 Fremont Avenue Monterey, CA 93940-4799

Dear President Garrison,

On behalf of the American Cancer Society, thank you for your college's participation in the 2011-2012 Coaches vs. Cancer campaign. We deeply appreciate the time, energy, and enthusiasm of Monterey Peninsula College's men's and women's basketball programs, student athletes, and campus body. We would like to present special recognition to Coach Blake Spiering, Coach Wendy Bates, and Athletic Director Lyndon Schutzler.

The work by your institution was a terrific example of the power of partnership and collaboration. Your college's athletic department provided an excellent educational and community service involvement opportunity for its student athletes, while supporting a life-saving mission.

The 2011-2012 community college Coaches vs. Cancer campaign was very successful. Fifty-five community college basketball programs participated and raised over \$30,000, while generating vital awareness. The two year fundraising total is more than \$58,000. Teams donned pink attire, honored cancer survivors, and fundraised by donating a portion of ticket sales, raffles, half-time activities, t-shirt sales, and season-long collections. We would like to offer a special congratulations if your college is on the top five fundraisers listed below. These funds and awareness programs are crucial in our mission to save lives and create a world with more birthdays.

The California Community College men's and women's basketball coaches and the American Cancer Society are committed to making these activities an annual event. Last year's campaign brought community colleges throughout California together and exceeded expectations. In 2013, we want to build upon that momentum by raising our statewide goal for the 2013 Community Colleges of California Coaches vs. Cancer campaign to \$50,000! We know that with your support we can accomplish that and so much more.

Thanks to very generous supporters like you, we have created hope for more than 11 million cancer survivors. Thank you for your college's help to create a world with more birthdays. We look forward to activities for the 2013 campaign.

Sincerely,

Jay McCullough, Chief Income Development Officer

Subject: Finalists for Monterey Peninsula College's Superintendent/President

Four finalists have been named for the position of Superintendent/President of Monterey Peninsula College. The candidates will speak at open forums and interview with the Governing Board during the week of October 1. College employees and students are invited to attend the open forums, which will be held in <u>Lecture Forum 101</u>. Attendees at the open forums are invited to provide feedback on the candidates for consideration by the Governing Board by sending email comments to Barbara Lee, Associate Dean of Human Resources, who will compile all comments for review by the Board. <u>All email comments after the open forums must be received by 5:00 pm on October 4.</u>

Dr. Angela Fairchilds

Dr. Angela Fairchilds is the President of Woodland Community College in the Yuba Community College District in northern California having led that institution to achieve initial accreditation and become the 110th California community college. She earned a Ph.D in Higher Education Administration from the University of Arizona and has thirty years of experience in higher education, the past twelve years in California community colleges. She also holds a Bachelor of Science in Management [Golden Gate University] and MBA in Information System [Golden Gate University]. She is speaking at the forum from 1-2 pm on October 1.

Dr. Kathryn Jeffery

Dr. Kathryn Jeffery will speak at a forum on October 2 from 11-noon. Dr. Jeffery holds a PhD in Educational

Administration from the University of Texas at Austin and is the President of Sacramento City College in the Los Rios Community College District in Sacramento. She has thirty-nine years of experience in higher education primarily in California community colleges. She also holds a Bachelor of Music Education [Oklahoma State University] and a MS in Applied Behavioral Studies in Education [Oklahoma State University].

Dr. Larry Buckley

Dr. Larry Buckley has a PhD in History from the University of Hawai'i, Manoa and serves as the Interim President of San Bernardino Valley College, where he previously was the Vice President of Instruction. He has served the Hawai'i and California community college systems for over twenty-eight years. He also holds a Bachelor of Arts and MA in History [University of Hawai'i, Manoa]. Dr. Buckley will speak at the forum on October 3 from noon – 1 pm.

Dr. Walter Tribley

Dr. Walter Tribley is the Vice President of Instruction of Wenatchee Valley College and chief administrative officer of the Wenatchee Valley College - Omak Campus in central Washington. He earned a PhD from Washington State University in Biochemistry and Biophysics and has over fifteen years of experience in higher education. He also holds a Bachelor in Science in Secondary Science Education and Biological Sciences and a MS in Biological Sciences [University of Idaho]. <u>His forum is 11 - noon on October 4.</u>

All open forums will be videotaped and posted as soon as possible. We encourage students, faculty members, classified staff, and managers to submit questions to be asked at the open forums by sending them to Barbara Lee [blee@mpc.edu] at least two hours before each forum. The forums will be facilitated by Robert Griffin from PPL Inc. which is supporting the Board in the search process.

###

Finalists for MPC presidency to meet board, community

By CLAUDIA MELÉNDEZ SALINAS

Herald Staff Writer

Next week, Monterey Peninsula residents will have an opportunity to meet the four finalists seeking to replace outgoing Monterey Peninsula College President Doug Garrison.

Larry Buckley, interim president of San Bernardino Valley College; Angela Fairchilds, president of Woodland Community College; Kathryn Jeffery, president of Sacramento City College; and Walter Tribley, vice president of instruction of Wenatchee Valley College in Washington, emerged as

Buckley

candidates

applicants.

the top candidates after an

MPC presidential search

committee interviewed 12

"This is the last stage of the process," board presi-dent Lauren Steck said. "It's

been long and thorough, and very important. This

will be the most important

Fairchilds

out of 53

1

Jeffery

job the trustees do."

Trustees will interview the candidates the same day they answer questions from the community.

First up will be Fairchilds, whose forum will be Oct. 1. Fairchilds, 58, holds a Ph.D. in education from

Please see MPC page A13

MPG

From page A1

the University of Arizona, and has been with the Woodland Community College in the Yuba Community College District since 2004, first as its executive dean then as its first president. Fairchilds led the college in its initial accreditation, which later became California's 110th community college.

"My experience and interests are closely aligned with the goals of (MPC) and I look forward to working with the board, the faculty, and staff in planning the future with a shared core commitment to serve our students," Fairchilds said in an email. "I felt a very strong connection to the college during my first visit and found everyone to be very welcoming."

On Oct. 2, the 59-year-old Jeffery will interview. She earned a doctorate in education administration at University of Texas at Austin in 1999, and has been president of Sacramento City College in the Los Rios Community College District since

Jeffery said the size of MPC and its relationship to the community were the main factors in her decision to apply.

"I believe I have the skill set that would fit within that community," she said.

Buckley, appointed interim president of San Bernardino Valley College in the San Bernardino Community College District in February, will be interviewed Oct. 3. Buckley, 52, holds a Ph.D. in history from the University of Hawaii, Manoa. He began his academic career as a community college teacher in Hawaii. He has been vice president of instruction at San Bernardino Valley College since January 2010.

Tribley, vice president of instruction of Wenatchee Valley College and chief administrative officer of its Omak Campus in central Washington, will be interviewed Oct. 4. He earned a doctorate in biochemistry and biophysics from Washington State University, and has more than 15 years experience in higher education.

Wenatchee Valley College offers diverse career paths to enter the medical field, one of the reasons Tribley joined the college in 2002. According to the Wenatchee Business Journal, before arriving Washington Triblev worked for Atairgin Technologies Inc. in Irvine and at Seminole Community College in Sanford, Fla.

Garrison announced his retirement in February. He'll remain as interim president of MPC until the end of the year.

Finalists for MPC president to visit next week

Monterey Peninsula residents will have a chance next week to meet four finalists seeking to replace outgoing Monterey Peninsula College (BCM) Superintendent/President Doug Garrison. Larry Buckley, interim president of San Bernardino Valley College; Angela Fairchilds, president of Woodland Community College; Kathryn Jeffery, president of Sacramento City College; and Walter Tribley, vice president of instruction of Wenatchee Valley College in Washington; emerged as top candidates after an MPC presidential search committee interviewed 12 candidates out of 53 applicants.

Trustees will interview the candidates the same day they answer questions from the community. The candidate forums take place at MPC's Lecture Forum 101 and are scheduled as follows:

- Angela Fairchilds, Oct. 1, 1-2 p.m.;
- Kathryn Jeffery, Oct. 2, 11 a.m.noon;
- Larry Buckley, Oct. 3, noon-1 p.m.;
- Walter Tribley, Oct. 4, 11 a.m.-noon.

Garrison announced his retirement in February. He'll remain as interim president of MPC until the end of the year.cRead the full article, with background about each candidate, here.

MPC presidential candidate makes impression with humor

By CLAUDIA MELÉNDEZ SALINAS

Herald Staff Writer

Angela a Fairchilds comes across as an affable, straightforward person who enjoys a good joke — as exemplified by her response to what the future holds for community colleges.

"Five years from now, we should be getting ready to

get through our next crisis," she said, an expression that made most people in the audience chuckle.

"Sometimes you have to use humor," she said.

Fairchilds, 58, is the first finalist being interviewed this week for the presidential post at Monterey Peninsula College. Three more candidates will be

interviewed, first by the community then by the college trustees. They will be asked the same

questions.

It's the last step of a process that began earlier in the year, soon after President Doug Garrison announced he was retiring at the end of the school year.

Fairchilds may have been speaking in jest, but the knowing, nervous laughter that came from the audience reveals an anxiety very much present at almost every educational institution in California.

Please see Fairchilds page A4

Fairchilds

Fairchilds

From page A2

What's going to happen to education if Proposition 30, the ballot measure used by Gov. Jerry Brown to balance the state budget, fails in November? How will schools will deal with decreased funds?

It's a question on every educator's mind, and it was also posed to Fairchilds. How will she deal with new changes approved by the Legislature to revamp the community college's mission, both with existing money or if more budget cuts become a reality?

"Some of the recommendations are going to be very costly, and very difficult to implement," she said. The Student Success Initiative is a series of measures aimed at giving priority to students on a career path, rather than

If you go

> What: MPC candidate forums

When: Kathryn Jeffery, Tuesday, 11 a.m. - noon; Larry Buckley, Wednesday, noon - 1 p.m.; Walter Tribley, Thursday, 11 a.m. noon.

> Where: Monterey Peninsula College, Lecture Forum 101

those who want to continue taking life enrichment classes.

The changes are transforming colleges into "cookie cutters," she said.
The Legislature "started

The Legislature "started to tell us how to serve our students when they don't understand who our students are," she said.

As part of those changes,

As part of those changes, students won't be able to repeat most classes, a change that did not sit well with many life-long learners on the Monterey Peninsula.

Fairchilds began her presentation by retelling her life story: born and raised in England, she came to the United States as a young military wife. She later divorced, became a

single mother, and remembers her doing homework with her children on the dinning room table. She gave up college for getting married, and she didn't return to school until she was 26, when she needed to update her skills to hang on to her job. Fairchilds continued with her education until earning a doctorate in education from University of Arizona.

Fairchilds has been at the helm of the Woodland Community College in the Yuba Community College District since 2004, first as its executive dean then as its first president. She led the college in its initial accreditation, which later

became California's 110th community college.

"I'm (the) poster child of what education can be," she said. "Through those experiences I began to see what education could do."

After her presentation, Fairchilds answered several questions, ranging from what she would do to increase enrollment to why she wanted to work at MPC.

"It's a stable college, you have your act together," she told an audience of about 80 people, mostly teachers and administrators. "You don't have to worry about the putting things in place, we can get to the nitty gritty, if 30 passes, if it doesn't pass, and get to plans to expand the Marina center and how we can keep moving. I want to be part of that. I hope you can see me in that role."

Claudia Meléndez Salinas can be reached at 753-6755 or cmelendez@montereyherald.-

MPC candidate outlines goals

By CLAUDIA MELÉNDEZ SALINAS Herald Staff Writer

As a former college counselor, Kathryn Jeffrey seems to rely heavily on her people skills. This week, as she toured Marina, she asked community members why the Monterey Peninsula College Center is important to them.

"This is a two-way street, this interview process," she told about 80 MPC teachers and administrators at a forum Tuesday. "One of the things I heard repeatedly is

the (community's) great sense of pride in the school."

Jeffrey, 59, president of Sacramento City College, is the second candidate being interviewed to replace outgoing MPC President Doug Garrison. The last two candidates,

Larry Buckley and Walter Tribley, will be interviewed Wednesday and Thursday, respectively.

Jeffrey, a music educator, loves theater, food and the arts in general. She received a doctorate in education administration from University of Texas at Austin in 1999 and has been president of Sacramento City College in the Los

Rios Community College District since 2008. She has served as president of the Hennepin Technical College in Minnesota and as top administrator at the College of Southern Nevada in Las Vegas.

After an introduction, Jeffrey was asked many of the questions posed to the first candidate, Angela Fairchilds. What is her experience in looking for new sources of money? What is

Please see MPC page A4

Jeffrey

MPG

From page A2

her vision for the new education center and the public safety training center? How will implementing new legislation at MPC impact the college community?

In Sacramento, Jeffrey has been involved in a capital campaign for the college's "program of distinction," nursing. The program has raised \$9 million.

"I know in the community you have been very involved with the redevelopment of Fort Ord," she said. "I want to connect with you to find where the dollars are. Even if I don't become president, I want you to tell me anyway."

Like Fairchilds, Jeffrey relied heavily on humor, something most participants responded well to.

Jeffrey believes in the

If you go

- > When: Larry Buckley, Wednesday, noon - 1 p.m.; Walter Tribley, Thursday, 11 a.m. - noon.
- ➤ Where: Monterey Peninsula College, Lecture Forum 101

"shared governance" process, which means different constituencies in the college community (classified, students, teachers) participate in making decisions.

Shared governance "has worked well with you," she said. "I have not worked anywhere shared governance has not worked."

Gov. Jerry Brown recently signed into law the Student Success Act, a package of reforms aimed at helping students expediently earn a two-year degree or certificate of completion. To achieve this goal, students with defined goals will be given preference over students taking enrichment classes.

The new law will require incoming students to be assessed with one test common to the community college system. Some say these and other changes will be costly at a time when further budget cuts could become a reality.

Jeffrey was vague when asked how she would enact changes required by Student Success. Her answers weren't specific about how the college could increase student attendance to make up for fewer students in 2011-12.

Last year, enrollment was down at MPC by about 290 students, and because of California's budget complexities, the college received about \$1.4 million for students it did not educate. The college needs to "pay back" the money it received by serving more students this year. If enrollment doesn't come up, the school could face more budget cuts.

"Through collaboration, we have to have conversations about what we think could work," she said. "If you take a few more students, that adds productivity but it can add to the fatigue."

Five years from now, Jeffrey sees the college growing and engaged in "solution building" — a term she said she preferred to "problem solving."

"I see us being engaged in the role of actively finding solutions to things that keep us up at night," she said. "I see us really taking advantage of connections with each other to find bright ideas, to encourage people to come forward and be part of the solution."

MPC candidate a storyteller

FORESAW MOVING TO AREA

By CLAUDIA MELÉNDEZ SALINAS

Herald Staff Writer

Larry Buckley, interim president of San Bernardino Valley College, was the third candidate interviewed for the job of superintendent/president at

Monterey College.

By the end of the forum Wednesday, there should have been no doubt what one of his main strengths is.

Buckley, 53, is a historian. A skilled raconteur.

He had a story to tell not just about his biography, but in answer to most

Peninsula questions.

He left Hawaii in 1993 after living there for more than a decade. The Hokkaido earthquake and the ensuing tsunami devastated the Japanese economy and tourism in the Hawaiian islands. At the time, Buckley was on con-

tract, his job and many others wiped out.

He began visiting MPC in 1995, he said, and in 2000, after becoming dean of instruction at Lake Tahoe Community College, he wrote in his journal where he would go someday.

With Lake Tahoe, "I predicted it," he said, opening his brown bound journal to the appropriate page. "My next prediction: I'll become

Please see MPC page A4

Buckley

MPG

From page A2

a president of the Monterey Peninsula College.

"I want to be here," he said. "I can finish my career and retire from here — not before I'm 54. This is a special place. You know that, I know that. I decided the fates have lined up and I'm what the college needs right now."

Earlier this year, Buckley was appointed interim president of San Bernardino Valley College, but he has not been "an interim caretaker," he said. "I've been dealing with some of the most difficult times in the college's history."

The times won't become easier any time soon, if his prediction becomes a reality. Proposition 30 will not pass, he said, given that support for the tax measure on the Nov. 6 ballot has been dropping.

"For this college, that's a \$1.9 million midyear cut," he said. "Your electric bill is just under \$1 million a year. You (disconnect) electricity for two years, and still you won't be able to meet the costs of what this midyear cut is going to take."

Thanks to the college's leadership, MPC is in much better shape than others, Buckley said.

"I'm not getting married (without being) certain there's a dowry in place," he said, provoking laughter. "Dr. (Doug) Garrison and the trustees had a very conservative financial approach. You've done a lot of the heavy lifting."

To approach the dramatic cuts that would be needed in the worst-case scenario, Buckley said he would look at the district's revenues and expenditures. Eighty-six percent of expenses are linked to personnel salaries and benefits, while 92 percent of revenues are tied to student enrollment. If that formula changed — through grants

and foundation contributions
— the college would have
more money for more
programs.

To explain his vision on how college administrators should function, Buckley told the story of his first management meeting at San Bernardino Valley College. He showed them a 15-minute movie about Ernest Shackleton and his Imperial Trans-Antarctic Expedition. The expedition failed, but there were no casualties in the three-year frigid adventure. His expedition, and his methods to ensure he was surrounded by the best men for the job, are used by a Harvard business school professor to teach "Leadership in Crisis: Ernest Shackleton and the Epic Voyage of the Endurance."

"That's me," Buckley said.
"My approach is to pull around me skills that I don't have. I don't know anything about student services and I'm not going to pretend I do. I need to bring that team together to cross on that boat. That's how I operate."

Given the changes in the economic landscape, and the recently approved Student Success Act, which will implement changes obtain ensure students degrees or certificates, community colleges will look very different five years from now. To describe the changes, he quoted again from history, pulling ideas from Franklin D. Roosevelt in his first inaugural address.

"This is the time to be honest, to be candid and truthful about what we really are," he said. "The challenges are not going to be easy, there's no magic bullet. This is not a crisis that's going to pass. We know somebody who has his house underwater, a family member who's lost his job. This is not another crisis manufactured by the legislature of the bureaucracy. We have to have a new deal. The community colleges have to redefine themselves."

MPC PRESIDENT SEARCH

Interviews wrap up

TRIBLEY HAILS FROM WASHINGTON

By CLAUDIA MELÉNDEZ SALINAS

Herald Staff Writer

All candidates vying to become the next superintendent of Monterey Peninsula College have been interviewed. By now, trustees have likely identified their favorites.

Early Friday, they will meet to whittle down their

list to two or one candidate, whose campus they will visit in the next few days.

"I wish we could have a blend of all four," said Eric Ogata, a counselor who attended all the candidate forums.

"There's aspects of all four that would be important for this campus."

Tribley

Walter Tribley, vice president of instruction of

Wenatchee Valley College in Washington state, was the last candidate to be interviewed. Each forum has been attended by about 80 people. When Tribley asked the audience how many had seen all the candi-

dates, about two-thirds of them raised their hands.

Tribley, a biochemist, has

been a champion of nursing and other science and technology careers at his current college and throughout his career.

He began his professional path with a passion for biology, which he later channeled into teaching, he said.

In the past few years, funding for his college has declined by 30 percent, but the cuts made were done

Please see MPC page A3

MPC

From page A2

through consensus.

Nursing is a strong program at Wenatchee, and he praised MPC for its collaboration with Community Hospital of the Monterey Peninsula to maintain its local program. It would be a model to be replicated with other career paths, he said.

"We really need to turn to those partners, to find more sustaining ways for the college," he said.

Tribley said he favors "embedding" administrators in different parts of the college so there is greater communication across departments; a balanced approach to distance learning so classrooms are used more strategically; and focusing on implementing the first two recommendations of the Student Success Act.

Signed into law by Gov. Jerry Brown last week, the Student Success Act will reshape community college education to make sure students earn a certificate or a degree.

Tribley is the candidate who came the farthest and, in many ways, is perhaps the longest shot to be named president. He lacks general knowledge of the California community college system, a specific knowledge of Monterey and its student population, and the state connections some feel the next president will need, say people who attended his presentation.

"We need a candidate from California, someone who knows people in Sacramento," said Lauren Walsh, president of the Monterey Peninsula College Employees Association. "The role of the president is not just locally, but to voice our concerns at the state capital. I don't see the last candidate doing that."

Walsh attended all the forums but won't say if he favors one candidate over the rest. On behalf of the union, he has submitted his recommendation to the board of trustees, who will make the final vote. He used information provided by the California School Employees Association on making his selection.

The classified employees "feel this is a very important decision for the college. We've given our opinions to the board so the right candidate is chosen."

Ogata liked Tribley's scientific mind, how he described departments as pieces of the same puzzle.

"He'll see where we need to go or where we need to be," he said. "He'll put all the pieces together."

The first two candidates were very approachable, Ogata said, referring to Angela Fairchilds, president of Woodland Community College, and Kathryn Jeffrey, president of Sacramento City College. They interviewed Monday and Tuesday, respectively.

Larry Buckley, interim president of San Bernardino Valley College, "made relationships feel real," Ogata said, referring to his presentation Wednesday. "You can feel the connection to history."

While English instructor David Clemens found qualities to like in all four, he bemoaned what he called the "survival mode" the candidates demonstrated.

"That could lead to the extinction of all small classes as well as our nationally renowned Great Books Program and our new Creative Writing Program," he said. "Literature classes are already being rationed and eliminated. Losing the traditional curriculum, I believe, is ultimately suicidal, but in survival mode, no one looks past the present crisis."

Message from MPC Board Chair Dr. Loren Steck re Open Forums and Search Activities

To the MPC Community on behalf of the Governing Board:

Sometimes things don't go the way you anticipate.

When the Board of Trustees was designing the process to be used in the final phase of our Presidential search, we wanted to ensure that we had a core of strong questions that would be asked in the Open Forums. As a result, we asked campus constituencies to send questions in advance. We also wanted attendees to ask questions from the floors. What happened is that we received so many questions in advance — and the candidates' answers proved to be so expansive — that the opportunity for questions from the floor got squeezed out. For that I apologize.

A second and more important problem has occurred. We advertised the fact that we would videotape the Open Forums, and make those videotapes available for interested people to view before providing their feedback. However, the video camera malfunctioned. Nothing was recorded of the first candidate. Faced with the choice of releasing the videos of only three of our four finalists or with releasing none of them, we have reluctantly concluded that, in the interest of fairness, we cannot in good conscience release any of them.

If you were unable to attend the Open Forums, I know the lack of video prevents you from using candidate Forum responses to assist in your personal evaluations of them. For that I am again sorry.

I want to conclude on a slightly happier note: our initial plan was to begin deliberations on Friday morning. However, it is abundantly clear that this timeline does not allow enough time to get campus input, especially in the absence of video of all the candidates. So we have a new plan: the Board of Trustees will meet on Friday to remind ourselves of the characteristics we will be looking for, but we will not begin actual deliberations until Monday at 11:00am. The Board will look at campus and community input at that meeting. Please submit any feedback you have by 10:00am Monday to Barbara Lee. I hope this will give everyone enough time to provide meaningful input into the process. Thank you.

Subject: MPC's Announcement of Site Visit in S/P Search

On behalf of Dr. Loren Steck, Chair, for the MPC Governing Board:

Although the process is not complete and no final decision has been made, the MPC Governing Board – after careful deliberation – has scheduled a site visit to the Wenatchee Valley College District in Central Washington to gather more information about Dr. Walter Tribley. Dr. Tribley is currently Vice President of Instruction at the District, as well as the Administrator of the Omak campus.

The Board would like to express its appreciation to members of the campus and community who participated in the process by serving on the search committee and/or attending the campus Open Forums and/or providing feedback.

The results of the site visit will be discussed at the Regular Board Meeting on October 24, 2012.

MONTEREY

MPC TRUSTEES TO VISIT WASHINGTON

The Monterey Peninsula College trustees will visit the Wenatchee Valley College District in Central Washington to gather information about Walter Tribley, vice president of instruction at the district.

The visit doesn't mean a final decision has been made, board president Lauren Steck said in an email.

Tribley was interviewed by the MPC community on Thursday as part of its search for a superintendent/president. Some believed he was the least likely to make the final cut because of his limited knowledge of California community college system and the Monterey region in particular.

Other candidates in the running are Larry Buckley, interim president of San Bernardino Valley College; Angela Fairchilds, president of Woodland Community College; and Kathryn Jeffrey, president of Sacramento City College.

Doug Garrison is scheduled to retire by the end of the year.

The results of the site visit will be discussed at the regular board meeting on October 24.

Subject: Welcome to the Party! MPC's 65th Anniversary Celebration, 11-4, Saturday

Attachments: 65th Poster Schedule Final.pdf

On behalf of Dr. Doug Garrison and the Governing Board to the MPC Community:

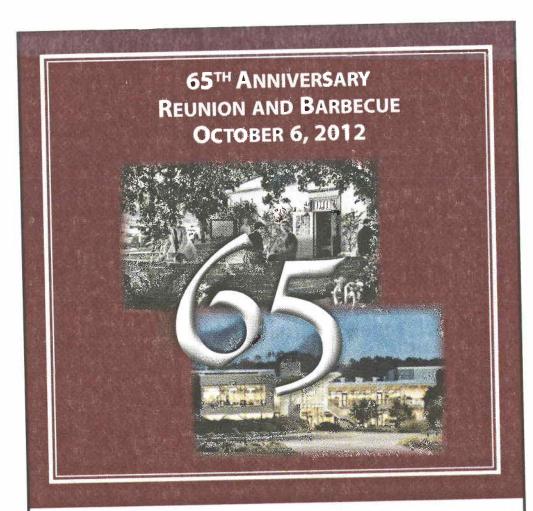

What a wonderful college – there are so many departments represented tomorrow at MPC's 65th Anniversary Celebration with awesome demonstrations, films, handouts, and happenings! This is going to be a fun event for our students, and your entire family and friends: bring the kids, your spouse or best other, a neighbor, or a colleague. Take time for yourself to view the range and breadth of the full curriculum at MPC. Did you know:

- ✓ Social Science is having a film festival! 11:00 Sociology; 11:30 Psychology; 12:00 Political Science; and 12:30 Economics
- ✓ World Languages is represented with French, Arabic, Japanese, ASL and Chinese! English and Speech are in HSS from 11-4!
- ✓ ASMPC is hosting tours, dozens of student clubs, FOOD for sale (tri-tip sandwich, Mexican lunch plate, egg rolls, and hot dogs) and kids games/bounce house!
- ✓ MUSIC: of course there is live music! The Jazz Band (25 members!) is playing 1-2:30pm, and ASMPC has live Reggae with the Tony Miles Band, 12-3pm
- ✓ Auto Tech what is the science of speed? Find out from 1-3!
- ✓ Hospitality has culinary cooking and treats get your red hot chili!
- ✓ Biology have you seen the brand new marine life lab? 11-2 is open in Life Science!
- ✓ Nursing Simulation Lab how do those nursing students work with life-like adults and children?
- ✓ Time for flu shot? The VNA has them for \$30; bring your medical card for insurance billing, 11-4
- ✓ TOO many activities to list: Fire Truck! Mars Rover! MATE robots! Library tours and popcorn! Bookstore open! Fantasy Costumes! Google Earth! Amazing Skulls in Anatomy! Gentrain Lecture! New Continuing Education! Alumni BBQ @ 3pm! Free football game for all @ 6pm!
- ✓ SEE ALL THE ACTIVITIES, TIMES AND PLACES ON THE ATTACHED FLYER. EVERY EMPLOYEE AND GUEST WILL RECEIVE A FLYER WHEN THEY ARRIVE ON CAMPUS.

Finally, you are all MPC. Have a great time on Saturday. Thank you for the dedication to the students of our community.

On behalf of Dr. Doug Garrison and the Governing Board.

Monterey Peninsula College 65th Anniversary Celebration

Saturday, Oct. 6, 11 a.m. to 4 p.m.

• Where: Monterey Peninsula College, 980 Fremont St., Monterey

• Cost: Free - \$30

• Age limit: Not available

Description

While many people think about retirement when they hit age 65, MPC is chugging along. They open their doors wide open with myriad free events like live music, bounce houses and drawings for football tickets to the 6pm MPC vs. West Valley game, a barbecue by the MPC Alumni Association (3pm, \$30 for barbecue and football ticket, 655-5507) before the game, and an open house during which many departments will demonstrate what they do. The Gentrain Society invites history buffs to a lecture, Computer Science takes people on a (virtual) visit to mars via robot, the Theatre Department shows off their wares and constructs a fantasy costume, the Music Department does a jazz performance, the Auto Tech folks demonstrate the science of speed, the Art Department will guide visitors through the making of a cyanotype "sunprint" and the Veteran's Mobile Van parks it on campus. The bookstore, library and Child Development Center offers tours, activities and exhibits, and information about enrollment, financial aid, internships and continuing education is doled out. [WR]

11am-4pm; 3pm barbecue; 6pm football game. Monterey Peninsula College, 980 Fremont St., Monterey. Free (free parking); \$30/barbecue. 682-0973, www.mpc.edu/65.

MPC marks 65th anniversary with open house

Monterey Peninsula College celebrates its 65th anniversary with an Open House from 11 a.m.-4 p.m., Saturday, Oct. 6. Activities will include lectures, demonstrations and performances, live music, bounce houses, food, face painting and prize drawings including football ticket giveaways.

All college departments will be open and hosting activities ranging from history lectures from the Gentrain program, jazz performances from the Music Department, mini-classes and lectures, tours and activities in the Child Development Center, bookstore and library. In Computer Science, visitors can plan and execute a robot's command sequence while virtually roving Mars; the Social Sciences Film Festival will showcase short films; The Theatre costume shop will be open, with a discussion of "The Evolution of a Fantasy Costume." Underwater robots, a kid's magic show in Chemistry, the science of speed in Auto Tech, cooking in the Hospitality Program, and living marine life in Biology will also be featured.

Information on continuing education, how to enroll in college, financial aid, internships, and counseling services involving transfers, graduation, and certificate requirements are

offered. Both the school of nursing and the fire academy (fire truck included) will open their doors, and the Veteran's Mobile Van will be on campus for veterans and their families.

The MPC Alumni Association will host a barbeque starting at 3 p.m. in the Student Center before the football game. Tickets are \$30 and include a ticket to the MPC football game against West Valley at 6 p.m. For tickets, call 655-5507 or see mpc.edu/foundation.

Monterey Peninsula College designated a 'military-friendly school'

Monterey Peninsula College (BCM) has been named a "military-friendly school" by G.I. Jobs magazine, placing it among the top 15 percent of colleges and universities doing the most to embrace America's military members, veterans and spouses as students. The magazine polled more than 12,000 schools nationwide in

determining the results, examining criteria such as efforts to recruit and retain military and veteran students.

The college currently has 721 military or veteran students enrolled, with full-time veteran counselors or advisors on staff, specialized career placement resources for veterans, subsidized child care facilities for military dependents and a veteran-specific page on its website. The college also participates in the Yellow Ribbon Program and offers scholarships and tuition discounts for military students and veterans.

MIIS and CSUMB were also named to the list, as reported in last week's issue. G.I. Jobs

Magazine's list of top veteran-friendly schools can be viewed at

www.militaryfriendlyschools.com.

BACK ON TRACK

LOBOS HOLD OFF LOS MEDANOS TO EARN FIRST WIN OF SEASON

MPC wide receiver Ronald Saxton takes a catch upfield after shaking off a tackle from Los Medanos defensive back Josh Burris in the first quarter on Saturday in Monterey.

MPC football holds off Los Medanos to earn first win of season

By JERRY STEWART Herald Correspondent Monterey County Herald

Monterey Herald.com

It's still early, but it was a big one.

Coming off a pair of season opening blowout losses, Monterey Peninsula College got some much needed energy back in Saturday night's home opener, knocking off a solid Los Medanos (Pittsburg) squad, 33-26.

For the Lobos (1-2), it could be déj vu. Last year, MPC started the season off with two losses. They then ran off seven wins in a row.

"It's a good reward," Lobos head coach Mike Rasmussen said. "We persevered. We worked hard in practice and this is a product of that. It was a total team effort."

Things looked shaky when the Mustangs (2-2), who came into the contest ranked No.18 in Northern California, took a 20-13 lead midway through the third quarter.

But MPC immediately answered the call, getting a 61-yard kickoff return from Nicholas Alarcon that eventually led to a one-yard touchdown pass from Cole Houston to Cody Hendricks that cut the Mustangs lead to 20-19.

Later, at the start of the fourth quarter, the Lobos took their first lead of the game when Alarcon scrambled into the end zone from seven yards out.

And it was then that MPC had to pass its gut check.

Following Alarcon's TD run, which gave MPC a 27-20 lead, Los Medanos put together a 69-yard scoring drive that was capped by a one-yard touchdown plunge by Shawn Vasquez. The Mustangs, however, decided to go for the two-point conversion to take the lead. They faiedl, as Lobos Ofa Hautau and Kyle Todd stuffed Vasquez short of the goal line.

Still nursing a 27-26 lead, MPC got some breathing room when Alarcon scored on a four-yard TD run with 4:27 remaining to make it 34-26.

But the Mustangs again didn't quit. In the final seconds, Los Medanos got down to the Lobos' 40-yard line. They'd be shut down when on a third-and 10 when Michael Behr was sacked by James Karasek. On fourth down, Behr was again put under pressure, enough so that his last gasp desperation pass was thrown after he'd already crossed the line of scrimmage.

"It was a great effort. We came back with a lot of heart," said Houston, who had a huge night, passing for 240 yards and running for another 93. "There was some talk about how we started last year 0-2 and then went on a streak. But this is a different team. We want our own identity."

Houston, who hails from Oregon, and Seaside alumnus Ronald Saxton were a lethal combination. Saxton caught seven passes for 87 yards. Leading the MPC ground game was Alarcon, who finished the evening with 104 yards on 16 carries.

"Our offensive line was able to fire off and we were able to control the line of scrimmage," Houston said. "That, and the defensive stands, was the difference."

Defensively, the Lobos got a pair of interceptions from Andre Cornell and another pair of sacks from linebacker Nathan Delsid.

Los Medanos' Behr also had a big night, completing 23 throws for 338 yards. Vasquez ran for 182 yards.

A sign that thingscould change for MPC came on Los Medanos' first possession of the game. The Mustangs reached the Lobos' one-yard line but on a fourth and goal were left empty handed.

Now the Lobos, who next travel to Reedley, just need to reel off another six wins in a row to match last year's feat. Or maybe not.

"One game at a time," Rasmussen said with a grin.

MONTEREY Celebration of life for Stock scheduled

A celebration of life for Morgan Stock, the late founder of Monterey Peninsula College's drama program, will be held at 11 a.m. Saturday at the school's outdoor amphitheater, 980 Fremont St

St. Stock died Aug. 28 at age 93.

ISURE

Travels with Herald

auren Schutzler, from left, Kim Reeder, Jack Santora, and Lyndon and Vicki Schutzler — from Monterey, all — enjoy a day at the beach in Rimini, Italy, where Jack plays in the Italian Professional Baseball League. Lauren and Kim play professional softball in nearby Montegranaro. Vicki, a teacher at Salinas High School, and Lyndon, the athletic director at Monterey Peninsula College, traveled to Italy to watch softball and explore the region. When they visited Jack, his first comment was, "Too bad we don't have a copy of The Herald." Well, they did. And here's the proof.

Send us your photos

E-mail your Travels with Herald photos mdegive@ montereyherald.com, or send by post to Mike de Give, P.O. Box 271, Monterey 93942. Please include names and hometowns of those pictured, a brief description of what's going on in the picture and a daytime phone number, in case we have any questions.

MPC Theater Co. explores relationship humor with 'Barefoot in the Park'

By LILY DAYTON Herald Correspondent

eople say that opposites attract — but can they get along well enough to last? If anyone can answer that question in a whimsical way, it's Neil Simon.

The Monterey Peninsula College Theater Company presents Simon's Tony-Award-winning "Barefoot in the Park," opening Friday at the historic Bruce Ariss Wharf Theater on Fisherman's Wharf in Monterey.

There will be a preview performance Thursday night. Each show will be offered with the option of a Dinner & Theatre package, which includes a prix-fixe menu at Isabella's Italian Seafood and tickets for the show (\$37.45 per person).

Directed by Peter DeBono, MPC professor emeritus, the production stars two of DeBono's former students, Adriane Oglietti and Chris Deacon. The show also features Denise DeBono and James Brady.

"I've been fascinated by Neil Simon for almost my whole career as an actor," said Peter DeBono, who added that this will be the 10th Simon production that he's directed. In fact, the first production DeBono ever played in as an acting student was Simon's first play, "Come Blow Your Horn."

"Barefoot in the Park" is Simon's second play, and what DeBono said he loves most about this play is that "it's very funny, but also based in real relationship issues. I'm finding that the roots of the humor that everyone appreciates about (Simon's) work are based on relationships between people."

This play tells the story of a young newlywed couple — Paul, a conservative, cautious, responsible

Please see Barefoot page 17

SKY RAPPOPORT/MPC Theater Company

Newlyweds Corie (Adriane Oglietti) and Paul Bratter (Chris Deacon) in the MPC Theater Company's production of Neil Simon's "Barefoot in the Park."

Barefoot

From page 15

attorney, and Corie, a spontaneous, adventurous, wild child — who find their honeymoon is over all too quickly when they move into the realities of marriage in a cramped, fifth-floor, walk-up apartment with no heating system or elevator.

"It's an odd couple story in a way," said Deacon, who plays the part of Paul. "Paul really acts as an anchor for Corie. With her flightiness, she'd be on the moon if it wasn't for Paul."

"She jumps right into things; he looks before he jumps. But they balance each other," said Oglietti, who plays the part of Corie. She added, "I kind of want her to rub off on me a little, as far as jumping in and enjoying life, and not worrying so much."

DeBono has updated this production so it takes place in the present, rather than in the '60s as Simon wrote it.

"Neil Simon has a lot of telephone business in his plays, so I had to put in lines about cell phone connections and that sort of thing," he explained. "I wanted to play it as a present piece, in terms of costumes and reference, so I had to throw in a couple modern references like Steven Spielberg."

He added that the Wharf Theater is the perfect venue for this show, with the small stage complementing the set that's supposed to depict the hemmed-in quarters of the newlyweds' apartment. "It's really cool that this establishment is still there," said Deacon, whose father, Dave Deacon, is also a former student of DeBono's — and used to perform at the Wharf Theater. "It's amazing; I'm sitting in the dressing room where hundreds of other actors have sat, including my dad."

Like Oglietti, Deacon has also learned something from these characters and their comical situation. "The characters act on impulse and let the heat of the argument get the best of them," he said, "but they really are good for each other. They serve as a lesson to us all."

Subject: Transition in the MPC Foundation

Good afternoon.

The success of an institution involves contributions from many people whose efforts are motivated by their individual passions. At times, people decide to make transitions in their lives based on their passions. Robin Venuti has decided to make such a change, to focus more fully on her passion for fundraising. We have much to thank Robin for in her role as Executive Director of the Foundation. She has contributed to significant gains in the Foundation. Please join me in wishing her well in her future career.

Please note a message below from Robin.

Thanks,

Doug

Douglas R. Garrison, EdD. Superintendent/President Monterey Peninsula

MESSAGE TO MPC FROM ROBIN VENUTI:

Dear All:

I have sat in this Executive Director chair for two and a half years and after serious reflection, this is what I have come to know.

My real passion is fundraising and I am proud of the work that I have done here. It has been a great learning and growing experience. What I have really loved is that I could match any donor's needs to a department of the college. Here is what I see as some of our biggest wins: The establishment of the Peggy Downes Baskin Faculty Advancement Endowment, the upgrading of the simulation lab at the Maurine Church Coburn School of Nursing, the establishment of several new scholarship programs including the support for veterans and/ or their dependents and support for high school seniors coming to MPC from the five public high schools in our district. Additionally, I am proud of the incredible growth seen in private foundation support and finally, the reinstitution of the Legacy Society.

After thoughtful consideration, I have decided to move on to a position where the majority of my time would be spent doing the work that I feel passionate about and do best.

I have enjoyed working with all of you and appreciate all you have done to support me and the Foundation. I know I can count on you to continue to work closely with Allison, Gina and Charlotte and our Board of Directors to grow the Foundation. There is so much opportunity to do just that.

Given these reflections, my last day at the Foundation will be September 30.

Sincerely, Robin

Robin Venuti, CSPG Executive Director

Subject: Celebrate the Life of Morgan Stock, founder of MPC Drama Department, Aug 29,

11:00am

Attachments: Morgan Stock 8.28.12.pdf

On behalf of Gary Bolen,

MPC Theatre and the Stock family will be hosting a celebration of life for our MPC drama founder, Morgan Stock, in the amphitheater at MPC on Saturday, September 29th beginning at 11:00 a.m. The public is invited to celebrate his life -- many knew Morgan so well and for so many years. As you know, Morgan was the wellspring from whom all current theatre companies in the past 60 years grew on the Peninsula.

Please join us Saturday. Thank you.

Gary Bolen

- > To the MPC Community we are saddened to report the passing of Morgan
- > Stock at 93 years of age on August 28, 2012. His obituary was
- > published today in the Monterey Herald, and the family wants everyone
- > to know that a celebration of his life will be held at MPC's
- > Amphitheater on Saturday, September 29th at 11:00am.
- > Donations in his name in lieu of flowers are directed to the MPC
- > Theatre for the Morgan Stock Theatre Arts Trust which provides
- > financial support to our theatre arts students.

Introduction

I am pleased to announce that Francisco Tostado has accepted the position of Director of Student Financial Services. With the retirement of Claudia Martin, Francisco has started his first day with us on Monday, October 8.

He comes highly regarded from Cabrillo College where he has been a counselor and Financial Aid Advisor for many years. He holds a Master Degree from San Jose State University and a Bachelor Degree from CSU Sacramento. Francisco is fluent in Spanish and English.

Please join me in welcoming Francisco to the MPC family.

Eligibility to participate in 403(b) retirement plan

Subject: Eligibility to participate in 403(b) retirement plan

Attention All Employees:

You are eligible to participant in the 403(b) retirement plan sponsored by Monterey Peninsula College.

Participation is voluntary.

What is a 403(b) plan?

A 403(b) plan, also known as a Tax-Sheltered Annuity (TSA) plan, is a tax-deferred retirement plan for employees of certain tax-exempt, governmental organizations or public education institutions. An employer may sponsor a 403(b) plan to provide a benefit to its employees of the opportunity to save for retirement on a tax-deferred basis. Please note the MPC plan does not allow for catch-up contributions.

Why contribute to a 403(b) plan?

Participating in your plan can provide a number of benefits, including the following:

Lower Taxes Today

The 403(b) contributions you make are on a pre-tax basis. This means that you are taxed on a lower amount of income.

Tax-deferred Growth

In your 403(b) plan, interest and earnings accrue tax-deferred. This means that your interest will grow tax-free until the time of your withdrawal. The compounding interest on your 403(b) plan can allow your account to grow more quickly than saving in a taxable account where interest and earnings are generally taxed each year.

Taking the Initiative

Contributing to a 403(b) retirement plan can help you take control of your future retirement needs. Other sources of retirement income, including state pension plans and, if applicable, Social Security, often do not adequately replace a person's salary upon retirement. A 403(b) plan can be a great way to provide you with additional income at retirement.

Possible Tax Credits

If you contribute to the plan, you may be able to receive a tax credit, which could reduce your overall federal income tax paid for the year.

How do I get more information?

To obtain additional information about participation and about the savings products made available under the plan, please visit the 403(b) website at www.nbsbenefits.com/403b. You may also contact Shirley Kim at skim@mpc.edu or 831-645-1392.

You can also find the 403(b) availability notice on our website

at: http://www.mpc.edu/humanresources/Benefits/Pages/default.aspx

FW: Ca Shake out Drill on Friday Oct 19th instead of Thursday

Attachments:

Bldg Response Team names-buildings only Oct 2012.pdf

This Thursday is the annual **California Shake Out**. Schools and organizations will be testing their emergency communications/preparedness plan using desk top drills and other exercises. MPC will conduct its own drill on <u>Friday</u>, <u>Oct 19th at 10 am</u> instead of Thursday and will test the communication plan between the EOC (Emergency Operations Center) and BRT (Building Response Team). The plan is as follows:

- 1) Friday, 10 a.m. EOC members will report to the Large Admin Conf Rm. <u>There may or may not be a public</u> announcement of the drill using our phone system and classroom speaker system.
- 2) 10:15 10:25 available BRT members have been instructed to call in to one of the three EOC contact numbers (listed below and atop the attached BRT list) to report on the status of their building/area and provide a name and contact number. If you are not a BRT member you should just be familiar with who your BRT person(s) is. See attached list.
- 3) EOC members will track the incoming calls from BRT members and collect info, then direct available persons to conduct building inspections of areas who have not reported in. Were this an actual emergency, the communication exchange would help the EOC in determining the extent of the emergency and campus conditions in order to develop a plan of action.

Dr. Garrison's Retirement and SAVE THESE PARTY DATES!

On behalf of the MPC Governing Board and Executive Assistant Carla Robinson:

This is a bittersweet email – as we make plans to say goodbye to Dr. Doug Garrison, we also want to make time to wish him a rousing farewell and congratulations on his upcoming retirement as Superintendent/President. To mark this occasion, not one but two retirement parties are planned for December! Please mark your calendars and look for the invitations in early November.

Retirement Party #1: Friday, December 7, 3:00-6:00pm in the Library – this is the all-inclusive MPC Retirement Party combined with the Annual Administrators' Holiday Open House. Come for the turkey (thank you, Carsbia – he's cooking up four!), the food, the fun, and the friendship. We will celebrate in the Library with time for recollections, refreshments and raconteur!

Retirement Party #2: Wednesday, December 12, 4:00-7:00pm at the Marriott Hotel's Ferrante Room – for our wonderful community supporters, friends, current and retired Trustees, Faculty and Staff, Rotary members, and area education partners – an invitation to all our friends for a final sendoff with refreshments, no-host bar, music, and an awesome view of Monterey! The cost will support just the party fees. The community will be encouraged to contribute to the "Dr. Douglas Garrison Educational Excellence Fund." More details to follow.

Finally, on behalf of the Governing Board, thank you for your engagement in our search for the next Superintendent/President. We are all MPC!

Update on MPC Foundation Staffing

I am very pleased to announce that Sharon Crino will be joining the MPC Foundation as Interim Executive Director on October 29th. We expect that she will serve the Foundation for approximately three to four months. In that capacity, she will assist the search process for a permanent Executive Director. The Foundation Executive Committee has already initiated the search process which will be conducted by a sub-committee of the Foundation Board of Directors.

Ms. Crino brings a wealth of experience to the Interim role. She has served in the interim capacity for non-profit organizations of varying sizes and mission. Her most recent interim assignment was for the Northern Nevada Chapter of the American Red Cross. From 2008 to 2011, Sharon was the CEO of the American Red Cross, Monterey Bay Area Chapter located in Carmel. During that time, Sharon managed and led the successful merger of two Red Cross chapters to form the new regional chapter. Prior to her positions at the American Red Cross, Sharon held senior level executive positions in the health care industry and the Eastman Kodak Company.

Sharon has resided on the Monterey Peninsula on and off since 1982.

Please join me in welcoming Sharon Crino to Monterey Peninsula College.

Douglas R. Garrison, EdD. Superintendent/President Monterey Peninsula College 980 Fremont St. Monterey, CA 93940 831-646-4060

Congratulations to Fall Faculty & Staff Advancement Awardees!

CORRECTION MADE: 22 APPLICANTS WERE FUNDED.

On behalf of the MPC Foundation:

MPC Foundation Faculty and Staff Advancement Awards

Fall 2012 Grant Recipients

The Monterey Peninsula College Foundation is delighted to announce the Fall 2012 MPC Foundation Faculty and Staff Advancement Award winners which were approved October 1st.

These awards are the result of the successful 2011 President's Circle fundraising campaign. In addition to other areas of support given to the college, the MPC Foundation Board was able to allocate \$40,000 to the 2012 Faculty and Staff Advancement Awards. The Fall 2012 awards are the second half of this allocation. Funds from the George J. (Bob) Faul Academic Excellence Award also support the awards this semester.

There were 27 applicants representing 22 faculty and 5 staff requesting a total of \$33,372. In total, 22 proposals were awarded for funding of \$21,036. Eight proposals were fully funded and 14 were partially funded. Eighteen grants were awarded for professional development and four were in support of instructional materials. A list of the recipients follows. Congratulations to all!

Professional Development Awards

<u>John Anderson:</u> Partial funding to attend a meeting of the Music Association of California Community Colleges in San Diego, CA.

Joseph Anderson, J.D.: Partial funding to attend the Institute on Violence, Abuse and Traumas (IVAT) 10th Annual Hawaii Conference.

Linda Bergen: Full funding to attend the Lindamood Bell Interactive Workshop in San Luis Obispo, CA.

<u>Kendra Cabrera:</u> Partial funding to attend the Center for Cross-Cultural Studies Group Site Visit to learn about Spanish study abroad programs in Seville, Spain.

Barbara Cristi-Michael: Full funding to attend the Modern Language Association Conference in Boston, MA.

<u>Sharon deMaria-Osgood:</u> Full funding to acquire a U.S. Master's Swim Level 1 and 2 Certification in Mountain View, CA.

<u>Elizabeth Dilkes-Mullins:</u> Partial funding to attend the World History Association Annual Conference in Brooklyn Park, MN.

<u>Laura Franklin:</u> Partial funding to attend the Executive Leadership Institute Conference on Continuing Education in Tucson, AZ.

<u>Lauren Handley:</u> Full funding to attend the Western Political Science Association Annual Meeting in Los Angeles, CA.

<u>Mary Johnson:</u> Partial funding to attend the Professional Development Conference held by the National Association for the Education of Young Children in San Francisco, CA.

Elias Kary: Full funding to attend the 111th American Anthropological Association Annual Meeting in San Francisco, CA.

Vincent Lewis: Partial funding to attend the 2012 California Perkins Conference in Sacramento, CA.

<u>Gamble Madsen:</u> Partial funding to attend the 48th International Congress on Medieval Studies in Kalamazoo, MI.

<u>Margaret McKeon Grych:</u> Partial funding to achieve a Permaculture Design Certificate through online distance education.

Susanne Muszala: Partial funding to attend the 2013 On Course Conference in Los Angeles, CA.

<u>Tuyen Nguyen:</u> Partial funding to attend the California Mathematics Council Community College's Conference in Monterey, CA.

<u>Daniel Phillips:</u> Full funding to attend the 2013 American Baseball Coaches Association Convention in Chicago, IL.

Kali Viker: Partial funding to attend the Asilomar Leadership Skills Seminar in Asilomar, CA.

Instructional Equipment Awards

Kacey Giammanco: Partial funding to purchase textbooks for the TRiO/SSS Lending Library.

<u>Eduardo Gil de Montes:</u> Full funding to create a testing environment to develop an MPC branded app for Apple devices, which provides campus resources and information for students.

Karoline Grasmuck: Partial funding for a DXTTRIII Plastic Skull so dental assisting students can practice taking x-rays.

<u>Anthony Villarreal:</u> Full funding for IBM SPSS Statistics Standard Authorized User Initial Fixed Term License and a year of support as part of an overall effort to develop a Sociology Lab.

Congratulations to all those receiving funding; the formal letter will be out in interoffice mail to you shortly. To all faculty and staff, thank you for all the work you do for MPC.

Sincerely,

Monterey Peninsula College Foundation 980 Fremont Street Monterey, CA 93940

MPC Active Bond/Facility Projects Update October 9, 2012

<u>Humanities</u> / Old Student Services / Business Humanities — The project is receiving State matching funds. Phase 1 (Old Student Services Building) construction has been completed. Construction on Phase 2 (Humanities Building) will begin in January of 2013 with completion scheduled for November of 2013.

<u>Theatre</u> – The standing seam metal roofing is substantially complete. Drywall has been installed and interior painting has started. Tile and fixtures are being installed in the bathrooms. Ceiling work above the theatre seating is almost complete, and scaffolding will be disassembled. Work has begun on the orchestra lift. Work is progressing as scheduled and completion is still scheduled for the spring of 2013.

<u>Life Science / Physical Science Buildings</u> – There are two phases in this project with the First Phase being the Life Science building which has been completed. Hazardous materials abatement and demolition on the Physical Science building has been completed. Construction is off to a good start, and the Physical Science building is expected to be completed in the summer of 2013.

Gym First Floor – Construction is nearing completion, and the project will be finished well before the contractual completion date of November 30, 2012. All of the lockers have been installed and the furniture has been delivered. Work has begun on completing the "punch list" items. Final cleaning and touchup work will be scheduled for the week of October 15th. The athletic department will start moving in at the end of October.

<u>Swing Space</u> – The "Swing Space Village" is located adjacent to and south of the Theatre, and classes are being conducted in the building. The General Classrooms Building has been modified and is accommodating the Physical Science department. Planning has begun on future Swing Space needs for buildings such as the Humanities building, the Student Center and the Arts Complex.

Infrastructure – Site work (lighting, parking lots, sidewalks) will be ongoing for the next few years.

<u>Pool / Tennis Courts</u> – The Architect has finished the design drawings and after construction drawings are completed, plans and specifications will be submitted to DSA in the fall of 2012.

<u>Student Center</u> – The Architect has almost completed Construction drawings and will submit the drawings to DSA in December of 2012. It is anticipated the project will bid in the spring of 2013 with construction commencing in June of 2013. Completion is scheduled for the summer of 2014.

<u>Arts Complex</u> – The Arts Complex project is comprised of the major renovation of the Art Studio and Art Ceramics Buildings and minor modifications to the Art Dimensional Building. Construction Drawings have been submitted to DSA for review and approval. It is anticipated this project will bid in the spring of 2013.

<u>Music Building</u> – At the September Board meeting, the Architect presented a proposed plan that included construction of a new Music building. MPC is also applying for matching State funding for the renovation of some of the existing Music buildings.

<u>Facilities Committee</u> – The Committee meets on a regular basis to review project budgets and schedules. The next meeting is scheduled for October 19th.

Cost Control Report

10/9/2012

	Old Student Services / Humanities / Business							
	Budget	Current Projection	Variance	Comments				
Design Phase	\$ 1,280,000	\$ 1,100,000	\$ 180,000	Design includes Architect, DSA fees, printing, etc.				
Constructn bid	\$ 4,780,000	\$ 4,110,000	\$ 670,000	Actual bid amount.				
C.O. Contngcy.	\$ 478,000	\$ 411,000	\$ 67,000					
Test & Inspect.	\$ 240,000	\$ 231,000	\$ 9,000					
Cnstr Mgmt Fee	\$ 383,000	\$ 330,000	\$ 53,000					
Equipment	\$ 132,000	\$ 132,000	\$ -	Equipment partially State funded				
Other	\$ 397,000	\$ 300,000	\$ 97,000	Includes hazmat, demolition and IT				
Total	\$ 7,690,000	\$ 6,614,000	\$ 1,076,000					

Summary: It is important to recognize that this is a State "match" funded project (State will fund \$3,318,000 and MPC will fund \$3,296,000). The original budget of \$3,845,000 that MPC was to contribute has now been reduced to \$3,296,000 due to the bids coming in lower than the budget. This results in a potential savings to the MPC bond budget of \$549,000 which may be allocated in the future to a contingency fund. Phase 1 (Old Student Services Building) is within budget and has been completed ahead of schedule. Phase 2 (Humanities Building) construction will begin in January of 2013. The gap in the construction phasing was planned for the most cost effective use of Swing Space.

Life Science / Physical Science							
	Budget	Current Projection	Variance	Comments			
Design Phase	\$ 2,600,000	\$ 2,500,000	\$ 100,000	Design includes Architect, DSA fees, printing, etc.			
Constructn bid	\$ 9,400,000	\$ 7,352,350	\$ 2,047,650	Actual bid amount.			
C.O. Contngcy.	\$ 940,000	\$ 735,000	\$ 205,000				
Test & Inspect.	\$ 350,000	\$ 350,000	\$ -				
Cnstr Mgmt Fee	\$ 650,000	\$ 624,250	\$ 25,750				
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.			
Other	\$ 560,000	\$ 938,400	\$ (378,400)	Includes hazmat, demolition, IT and future allowance.			
Total	\$14,500,000	\$12,500,000	\$ 2,000,000				

Summary: The current projection anticipates a \$2,000,000 savings to the budget as a result of the bids being substantially lower than the bid budget. The savings may be allocated in the future to the contingency fund. The Life Science building has been completed on schedule and within budget. Hazardous materials abatement and interior demolition have been completed on the Physical Science building. The project is scheduled for completion in the summer of 2013.

	Theatre							
	Budget	Current Projection	Variance	Comments				
Design Phase	\$ 880,016	\$ 995,400	\$ (115,384)	Design includes Architect, DSA fees, printing, etc.				
Constructn bid	\$ 6,900,000	\$ 7,783,055	\$ (883,055)	Actual bid amount.				
C.O. Contngcy.	\$ 690,000	\$ 778,000	\$ (88,000)					
Test & Inspect.	\$ 250,000	\$ 250,000	\$ -					
Cnstr Mgmt Fee	\$ 385,000	\$ 385,000	\$ -					
Equipment	\$ -	\$ -	\$ -	Furniture and Equipment will be from a separate fund.				
Other	\$ 200,000	\$ 200,000	\$ -	Includes hazmat, demolition and IT				
Total	\$ 9,305,016	\$10,391,455	\$ (1,086,439)					

Summary: The current projection anticipates an overage of \$1,086,439 (largely due to the low bid being \$883,055 over the bid budget). This shortfall may be mitigated by using funds saved from the projected savings of the Old Student Services / Humanities / Business and the LIfe Science / Physical Science projects.

	Gym First Floor					
	Budget	Current Projection	Variance	Comments		
Design Phase	\$ 341,600	\$ 341,600	\$ -	Design includes Architect, DSA fees, printing, etc.		
Constructn bid	\$ 3,063,583	\$ 3,063,583	\$ -	Actual bid amount.		
C.O. Contngcy.	\$ 326,000	\$ 326,000	\$ -			
Test & Inspect.	\$ 149,917	\$ 149,917	\$ -			
Cnstr Mgmt Fee	\$ 168,900	\$ 168,900	\$ -			
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.		
Other (Hazmat)	\$ 150,000	\$ 150,000	\$ -	Asbestos abatement		
Total	\$ 4,200,000	\$ 4,200,000	\$ -			

Summary: The project costs are within the current projection of \$4,200,000. The project is nearing completion ahead of schedule and within budget. The athletic department will start moving in at the end of October 2012.

			MPC Educ	cation Center at Marina
	Budget	Current Projection	Variance	Comments
Design Phase	\$ 1,044,000	\$ 1,044,000	\$ -	Includes Architect, DSA fees, etc. for permanent facilities
CEQA/Design	\$ 286,500	\$ 286,500	\$ -	Temporary facilities design and environmental services
Constructn bid	\$ 4,309,949	\$ 4,309,949	\$ -	Actual bid amount for permanent buildings
C.O. Contngcy.	\$ 430,994	\$ 430,994	\$ -	At this time the forecasted change order contingency appears adequate
Test & Inspect.	\$ 275,000	\$ 275,000	\$ -	
Cnstr Mgmt Fee	\$ 288,000	\$ 288,000	\$ -	
Equipment	\$ 366,000	\$ 366,000	\$ -	Furniture and equipment
Site demo	\$ 782,800	\$ 782,800	\$ -	Includes hazmat, demolition and haul-off of six existing buildings
Utility Services	\$ 725,000	\$ 725,000	\$ -	Also included are contingencies for MCWD, PG&E and AT&T
Site work	\$ 287,000	\$ 287,000	\$ -	Includes parking lot
Temp Facilties	\$ 304,757	\$ 304,757	\$	Relocatable buildings used during construction
Other	\$ -	\$ -	\$ -	
Total	\$ 9,100,000	\$ 9,100,000	s -	

Summary: The project was finished under budget. The past projection anticipated a \$1,900,000 savings to the budget (the original budget was \$11,000,000). The savings have been transferred to a Contingency line item in the Master Budget. The budget of \$9,100,000 appears to be more than adequate, and we are now projecting the final cost will be approximately \$8,300,000. The anticipated additional savings of \$800,000 will be transferred to a contingency once all costs are compiled. Costs are currently being finalized.

Infrastructure Phase III / Miscellaneous							
	Budget	Current Projection	Variance	Comments			
Design Phase	\$ 386,000	\$ 386,000	\$ -	Design includes Architect, Const. Mgmt., DSA fees, printing, etc.			
Constructn bid	\$ 5,400,000	\$ 5,400,000	\$ -	Projected.			
C.O. Contngcy.	\$ 540,000	\$ 540,000	\$ -				
Test & Inspect.	\$ 140,000	\$ 140,000	\$				
Equipment	\$ -	\$ -	\$ -	Furniture and equipment will be from a separate fund.			
Other	\$ -	\$ -	\$ -				
Total	\$ 6,466,000	\$ 6,466,000	\$ -				

Summary: Infrastructure Phase III includes Parking Lot J, the PE Elevator, Greenhouse, data cabling, parking lots B & C and other site work (sidewalks & lighting, etc.)

Subject: [ADVOCATES] FINAL ACTIONS ON BILLS OF INTEREST

FINAL ACTIONS ON BILLS OF INTEREST

Dear Colleagues,

Below is a list of our bills of interest noting the final disposition and a brief description. For details and specific bill language, please go to the Legislative Counsel's website: www.leginfo.ca.gov. I'm also attaching a version of our matrix listing chaptered and vetoed bills. Although we have taken steps to ensure accuracy, please let me know if you find an error so that it will be corrected immediately.

SPONSORED BILLS

- SB 1070 (Steinberg): Reauthorizes the career technical education program established by SB 70 (Scott) in 2005. Funding comes from QEIA. Signed by the Governor.
- SB 1402 (Lieu): Reauthorizes the economic and workforce development program. Signed by the Governor.
- SB 1456 (Lowenthal): Student Success Act of 2012. Targets matriculation funds for student orientation, assessment, and education planning and establishes an eligibility requirement for the BOG Fee Waiver based on academic and progress standards to be determined by the BOG. Signed by the Governor.

OTHER BILLS OF INTEREST

- AB 178 (Gorrell): Extends exemptions from earnings limitations for CalSTRS retirees under certain conditions that expired on June 30, 2012. AB 178 extends the sunset date for the exemptions until July 1, 2014. An urgency measure, AB 178 became effective immediately upon signature. Some sections of AB 178 were also affected by AB 340 (Furutani). Position: Support. Signed by the Governor on July 17, 2012.
- AB 340 (Furutani): Amends statutes affecting public employee pensions. Among other changes, AB 340
 establishes a cap on the amount of compensation that can be used to calculate a retirement benefit for new
 members; prohibits the purchase of service credit for all members; reduces the retirement formulas for new
 employees, etc. Signed by the Governor.

- AB 1899 (Mitchell): Requires that refugees admitted to the United States on a special "T" or "U" nonimmigrant status shall be exempt from paying nonresident tuition at the California State University and the California Community Colleges. **Position: Support. Signed by the Governor.**
- AB 2133 (Blumenfield): Changes the time period in which California Community Colleges, California State Universities, and Universities of California grant priority registration for enrollment of veterans to a four year period within 15 years of leaving state or federal active duty when they start their college education. **Position:** Support. Signed by the Governor.
- AB 2171 (Fong): Authorizes community college boards of trustees to deny, permit, or place conditions on the enrollment of a student applicant who has been expelled from a community college for specified violent acts, and that the person poses a risk to the safety of others. **Position: Support. Signed by the Governor.**
- AB 2442 (Williams): Establishes the California Hope Public Trust to provide financial support to the UC, CSU and California Community Colleges funded by transfers of state-owned property that are suitable for development. AB 2442 was Held by the Appropriations Committee at the fiscal deadline, but was released and passed both houses. Vetoed by the Governor.
- AB 2478 (Hayashi): Exempts former members of the Armed Services from paying nonresident tuition at community colleges for one year after discharge as long as the student files an affidavit with the community college stating that he or she intends to establish residency in California. **Position: Support. Signed by the Governor.**
- AB 2462 (Block): Requires the Chancellor's Office determine for which courses credit should be awarded for prior military experience. Position: Support. Signed by the Governor.
- ACR 159 (Gorell): Encourages the three systems of higher education to consider and adopt the American Council
 on Education credit recommendations to give veterans due credit for their military experience. Assembly
 Concurrent Resolutions (ACR) do not require the Governor's signature/action. Position: Support. Chaptered by
 the Legislature.
- SB 721 (Lowenthal): States the intent of the Legislature that budget and policy decisions regarding postsecondary education generally adhere to specified goals. Also states the intent of the Legislature to identify and define appropriate metrics in order to monitor progress toward the achievement of those goals. **Position:**Support. Vetoed by the Governor.
- SB 1052 (Steinberg): Establishes the California Open Education Resources Council which would determine a list
 of the most popular lower division courses to develop into open source materials. Position: Support. Signed by
 the Governor.
- SB 1053 (Steinberg): Establishes the California Digital Open Source Library administered by CSU in coordination with CCC and UC to house open source materials and provide free or low cost online access to these materials for students, faculty and staff. **Position: Support. Signed by the Governor.**
- SB 1264 (Vargas): Adds any athletic coach, assistant coach and graduate assistant involved in coaching to the list of individuals who are mandated reporters at a public or private postsecondary institution. Signed by the Governor.
- SB 1280 (Pavley): Authorizes community college districts, to use best value procurement methods until January 1, 2018 for the purchase of supplies and materials exceeding \$50,000 if the district determines that it can expect long-term savings through the use of objective performance criteria other than price. **Position: Support. Signed by the Governor.**

SB 1509 (Simitian): Extends the sunset date for using design-build contracts through January 1, 2020. The
design-build process allows the community college district to bid on the project's design and construction
together, and accept bids based on quality with cost as a consideration. Position: Support. Signed by the
Governor.

BILLS OF INTEREST THAT DID NOT REACH THE GOVERNOR'S DESK (FAILED PASSAGE)

THIS LIST INCLUDES BILLS THAT FAILED EARLIER IN THE PROCESS – INCLUDING BILLS OF INTEREST HELD BY THE APPROPRIATIONS COMMITTEES

- AB 852 (Fong): Requires earning and retaining annual reappointment rights for part time faculty to be negotiated through collective bargaining. Placed on the Inactive File (no Senate floor vote).
- AB 1500 (J. Perez): Repeals the tax law affecting multistate businesses, and instead requires that calculations regarding the California income tax liability be based on the percentage of business sales in California. This formula is referred to as a "single factor formula." AB 1500 is an urgency bill and double-joined with AB 1501.
 Position: Support. Failed passage in the Senate on the final day.
- AB 1501 (J. Perez): The companion measure to AB 1500 creating the Middle Class Scholarship Program. Also provides \$150 million to community college districts, distributed on a full-time equivalent student's basis, to help defray college costs. **Position: Support. Failed passage in the Senate on the final day.**
- AB 2164 (Dickinson): Authorizes a community college district to be reimbursed for district funds used for
 construction projects that have been approved by the Board of Governors, Department of Finance and the State
 Public Works Board and have received apportionment funding in the state budget from the Legislature should a
 state bond be passed by December 2012. Position: Support. Held by the Appropriations Committee.
- AB 2534 (Block): Requires the Chancellor's Office to establish a voluntary pilot program to authorize a
 community college district to implement a career technical education program that takes into account
 experiential learning in a military setting toward earning college course credit, certificates or an associate
 degree. Position: Support. Held by the Appropriations Committee.
- AB 2591 (Furutani): Provides a general fund backfill for property tax revenue shortfalls to ensure that community colleges receive the funds allocated annually in the Budget Act. Position: Support/Sponsor. Held in the first house, Assembly Appropriations Committee.
- AB 2655 (Swanson): Authorizes community colleges to receive full funding for credit courses offered in correctional institutions. **Position: Support**. **Held by the Appropriations Committee**.
- SB 1062 (Liu): Expands the minimum qualifications for the civil service classification, career executive assignment (CEA), to include higher education experience, or experience in the legislature. **Position:**Support/Sponsor. Passed both houses, but was returned to the legislature without a signature.
- SB 1271 (Corbett): Establishes a workgroup that will review and make recommendations on how to improve the Field Act. The workgroup will have a representative from the Chancellor's Office and a community college district. Position: Support. Held by the Appropriations Committee.
- SB 1356 (De Leon): Allows taxpayers to receive a tax credit for 65 percent of any contributions made to the newly established Higher Education Investment Tax Credit Program Special Fund. Held by the Appropriations Committee.

• SB 1466 (De Leon) was double joined with SB 1356. SB 1466 would have changed the maximum annual household income for Cal Grant, but would be operative only if SB 1356 was enacted. Because SB 1356 was held in the Appropriations Committee, SB 1466 was **gutted and amended** to a bill on Los Angeles Police Officers.

Gov. Brown Signs Student Success Act of 2012 into Law, Ushering in Improvements at California Community Colleges New law will help students complete educational goals, bolster economy

SACRAMENTO, Calif. – Gov. Jerry Brown today signed into law the Student Success Act of 2012, the legislative cornerstone of a California Community Colleges reform initiative aimed at improving educational outcomes for students and better preparing the workforce needed for California's changing economy.

The legislation authored by Sen. Alan Lowenthal (D-Long Beach) will help more California community college students reach their goal of earning a degree, certificate, career advancement or transferring to a four-year institution.

Acting California Community Colleges Chancellor Erik Skinner said the law will usher in some of the most significant improvements to the community college system in more than a decade.

"Gov. Brown signed this bill into law because he knows it will put more students on the path to completing their educational goals and that will make California more competitive economically," Skinner said. "This bill came from the Student Success Task Force that was convened almost two years ago and is resulting in some much needed changes to the way we educate our students."

The Student Success Act of 2012 will:

Restructure the way student support services are delivered to improve the assistance that students receive at the beginning of their educational experience. The bill targets existing student services

resources to support orientation, assessment and education planning services and lays the groundwork to expand these services as more resources become available.

- Provide that campuses using an assessment instrument for student placement utilize a statewide system of common assessment once available, to improve consistency and efficiency within the 112-campus system.
- Require colleges receiving student support service funds to post a student success scorecard to clearly communicate progress in improving completion rates for all students and closing the achievement gap among historically under-represented students.
- Require students whose fees are waived because of their economic need to meet minimum academic standards.

Lowenthal's bill, co-authored by Sen. Carol Liu, D-La Canada Flintridge, enjoyed support from a broad coalition of students, business leaders and social justice organizations. The Academic Senate for California Community Colleges also supported the bill as did the Student Senate for California Community Colleges.

"Our goal - our primary goal - has to be one offering students a better path to graduation," Lowenthal said. "It is unacceptable that more than 50 percent of community college students are not graduating or transferring within six years. This bill is the first step toward a refocused community college system that is rededicated to student success and achievement."

"By refocusing matriculation services, SB 1456 will help more students to identify their goals and move ahead in their college experience, without their colleges having to counter-productively cut other programs they may need," said Mendocino College student Aaron Bielenberg, a senator with the Student Senate for California Community Colleges. "Furthermore, by demanding that students must maintain minimum academic standards to receive the Board of Governors Fee Waiver, and providing the support and safety nets necessary to do so, we incentivize students to work harder."

The law will be phased-in over a reasonable period of time as funding allows. The California Community Colleges Board of Governors and the California Community Colleges Chancellor's Office have already begun work on implementing many of the recommendations of the Student Success Task Force. For more information, go to http://bit.ly/PP5FSY.

The <u>California Community Colleges</u> is the largest system of higher education in the nation. It is composed of 72 districts and 112 colleges serving 2.4 million students per year. Community colleges supply workforce training, basic skills courses in English and math, and prepare students for transfer to four-year colleges and universities. The Chancellor's Office provides leadership, advocacy and support under the direction of the Board of Governors of the California Community Colleges.

This ran in the Santa Cruz Sentinel on Sunday

OPINION: Proposition 30: What's at stake

(Santa Cruz Sentinel) George Blumenthal, Eduardo Ochoa, Brian King, Douglas Garrison and Willard Lewallen

...Before you step into the voting booth this November, there are three key things to know about Prop. 30. First, fully 89 percent of the funds provided by Proposition 30 would go to K-12 schools; 11 percent would go to community colleges. Second, this infusion of new revenue would help the state meet its obligation to fund K-12 education. It would break the cycle of budget cuts and give elected officials an opportunity -- for the first time in years -- to invest in priority areas, including higher education. Third, passage of Prop. 30 would have ripple effects throughout California's system of higher education. It would protect the University of California and the California State University systems from \$250 million "trigger cuts" that would take effect immediately if the initiative fails. It would also allow UC and CSU to avoid hefty mid-year tuition hikes. For California's community colleges, passage of Prop. 30 would prevent \$551 million in "trigger cuts." ... By addressing the critical need to fund K-12 education, Prop. 30 would set the stage for a multi-year funding agreement between the state, UC and the California State University system. Such an agreement would help maintain quality and preserve access to higher education in California.

California Community College Trustees Endorse Proposition 39

Measure Will Generate Much Needed Funds for Education

SACRAMENTO – The Yes on Proposition 39 campaign announced today that the California Community College Trustees (CCCT) have endorsed Proposition 39, the November 2012 ballot measure that will close a corporate tax loophole to recover \$1 billion in revenues and help fund California's thread-bare education system.

"By closing this tax loophole, California's Community Colleges will be able to serve 20,000 additional students and invest in job creation in the areas that we provide training for in our colleges," said Isabel Barreras, President, California Community College Trustees. "This is a common sense measure that will help California's economy and students."

The CCCT is one of two major organizations that make up the Community College League of California. The CCCT consists of members selected and voted on by the 72 community college districts in California. These members represent and look out for the best interests of our state's education system- voting to support policies they believe will further this goal. CCCT's decision to endorse Proposition 39 is symbolic of the major educational benefits the measure will provide.

"The California Community College Trustees is an important and influential education institution; their endorsement is a crucial step in illustrating the many benefits Prop 39 will have for all Californians," said Tom Steyer, Campaign Co-Chair for Yes on Proposition 39. "Prop 39 will return more than \$1 billion to California every year, revenues that will be subject to Prop 98 requirements, meaning almost half of what goes to the General Fund will be expressly dedicated to funding our state's devastatingly underfunded public education system."

Senator Kevin de León (D-Los Angeles), Campaign Co-Chair for Yes on Proposition 39, echoed Steyer's sentiment, "Our community colleges and public schools shouldn't be suffering in order to allow out-of-state companies to game our tax system with this glaring loophole. Prop 39 is a long overdue solution that will generate an influx of dollars and jobs. The support of the California Community College Trustees demonstrates the direct link Prop 39 has to bettering California's education system."

Proposition 39 will add fairness back to California's tax system by implementing a single sales factor for multistate companies operating in the state. This will eliminate the incentives out-of-state companies currently have to not employ many Californians or invest in property here, two factors that are keeping their taxes lower than their California-based counterparts.

For the first five years, Proposition 39 will dedicate half of the revenues recovered to job-creating energy efficiency and clean energy programs. These programs will include projects at schools and government buildings such as installing solar panels, upgrading old heating and cooling systems, swapping out old windows and installing other energy-saving technologies.

The other half of the revenues will go to our state's general fund – helping to balance the budget and sending hundreds of millions of dollars to our public school system, social and health services, transportation and prisons. After five years, all of the revenues will go into the general fund, a permanent investment in our state's future.

Proposition 39 is supported by a diverse coalition of groups and individuals, including the California Federation of Teachers, San Francisco Chamber of Commerce, California Nurses Association, American Lung Association - California, CA NOW, California Alliance for Retired Americans, California Church IMPACT, Latin Business Association, California Labor Federation, CleanTECH San Diego, Los Angeles/Orange Counties Building & Construction Trades Council, Los Angeles Times, Sacramento Bee, San Jose Mercury News, and the California League of Conservation Voters.

For more information on Proposition 39, please visit <u>www.yesonprop39.com</u> and follow us on twitter at <u>www.twitter.com/yesonprop39</u> and on Facebook at <u>http://www.facebook.com/CleanEnergyJobsAct</u>

Paid for by Yes on 39 - Californians to Close the Out-of-State Corporate Tax Loophole.

Major Funding by Thomas F. Steyer and Californians for Clean Energy and Jobs, sponsored by environmental organizations and business for clean energy and jobs.

FW: robynn's final version Prop30andProp38 pdf.pdf

Friends and Colleagues,

There is much confusion regarding Proposition 30 and Proposition 38, the educational funding propositions on the November 2012 California State ballot.

The Monterey Peninsula College Academic Senate has prepared this document to help clarify the content and impact of these two propositions.

While both propositions support funding for education through temporary tax increases, there are VERY important differences in the two propositions.

Proposition 30 maintains the current level of funding for K-12 and the California Community Colleges, State Universities and the University of California. Proposition 38 maintains the current level of funding for K-12 only. It does not include higher education.

If both of these propositions pass, the one receiving the most votes will cancel out the other one. As Prop 30 includes both K-12 and higher education, if it receives more votes than Prop 38, the funding for all of public education will be maintained at the current level. If however, Proposition 30 passes, but Proposition 38 passes with a higher number of votes, Proposition 30 will be nullified, triggering immediate cuts for higher education. These "trigger cuts" total \$5.4 billion.

The size of these cuts for Monterey Peninsula College would be \$1.5 million in 2012-2013, and an additional \$2.3 million in 2013-2014. Although the college has not decided upon specific cuts, it will not be possible for MPC to meet its financial obligations without enormous reductions in operations, programs, faculty and staff.

Please read the attached document from the Community College League of California for more details.

Thank you,

Monterey Peninsula College Academic Senate

Date: August 27, 2012 (version 3.0)

To: Interested Parties

From: Scott Lay, President and CEO

Re: Propositions 30 and 38

As our colleges reconvene for another year of providing our citizens the skills and knowledge necessary for a strong California, our office is receiving a lot of questions about the impact of Proposition 30 and Proposition 38 on community colleges. There remains a great deal of confusion and the campaign season will likely only heighten it.

The League has taken a support position on Prop. 30 and is neutral on Prop. 38.

As with all state ballot measures, both measures require a simple majority (50% + 1 vote) for voter approval. However, under the California Constitution and language in the measures, only the one with the greatest number of votes will take effect, even if both receive a majority.

In this analysis, I use revenue estimates of the Legislative Analyst's Office available at: http://www.lao.ca.gov/handouts/state admin/2012/Prop 30 31 38 39 Aug 8 12.pdf

Proposition 30: Temporary Taxes to Fund Education. Guaranteed Local Public Safety Funding. Initiative Constitutional Amendment.

Sponsor: Governor Jerry Brown

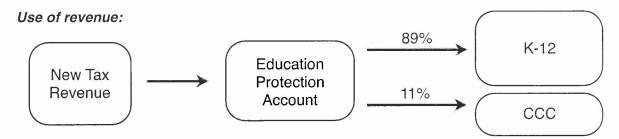

Tax provision(s):

- Raises the state's sales tax by 0.25% (one-quarter cent) from January 1, 2013-December 31, 2016.
- Raises marginal personal income tax rates on filers making over \$250,000 (joint filers earning \$500,000) in a progressive manner by 1% to 3% for tax years 2012 through 2018.

Revenue estimate (in millions):

- 2011-12: \$2,816
- 2012-13: \$4.872
- 2013-14: \$5,671
- 2014-15: \$6,098
- 2015-16: \$6,402
- 2016-17: \$5.977
- 2017-18: \$5,434
- 2018-19: \$2,216

The revenue projections from the increase in marginal rates of personal income could deviate significantly due to underlying economic factors and particularly the earnings of high-income individuals.

Effect on Proposition 98:

All of the money generated by Proposition 30's temporary tax increase <u>would count</u> toward the Proposition 98 guarantee. This has two effects:

- the new tax revenue increases the existing Prop. 98 funding guarantee for schools and community colleges over the duration of the taxes; and
- the revenue distributed through the Education Protection Account is attributable to the state's required funding to Prop. 98, "freeing up" state general funds for other state programs and debt retirement.

In 2012-13, the budget provides \$2.9 billion in additional Proposition 98 funding as a result of the revenue raised by Proposition 30.

The "Triggers"

The budget adopted by the Legislature provides that, if Proposition 30 fails, both the new funding provided by the measure and an additional amount ("the trigger") will be cut from both K-12 and community colleges for a total of \$5.4 billion. This deeper cut is made possible by shifting \$2.6 billion in general obligation bond payments into the calculation for the existing Prop. 98 funding guarantee, which has the effect of underfunding the guarantee without a suspension that requires a two-thirds vote.

For more information on the measure's impact on community colleges, see the side-by-side chart at the end of this memo.

Proposition 38: Tax to Fund Education and Early Childhood Programs. Initiative Statute.

Sponsor: Molly Munger

Tax provision(s):

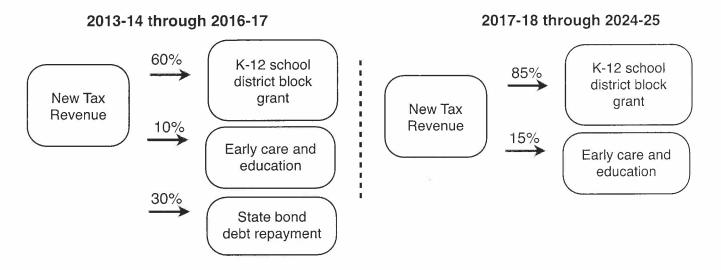

• Increases marginal personal income tax rates on filers making over \$7,316 (\$14,642 for joint filers) in a progressive manner by 0.4% - 2.2% for tax years 2013 through 2024.

Revenue estimate (in millions):

- 2012-13: \$5,596
- 2013-14: \$9,903
- 2014-15: \$10,663
- · 2015-16: \$11,256
- 2016-17: \$11,817
- · 2017-18: \$12,414
- 2018-19 through 2024-25: increasing amounts, depending on economic factors

As with Proposition 30, the revenue projections from the increase in marginal rates of personal income could deviate significantly due to underlying economic factors and particularly the earnings of high-income individuals.

Use of revenue:

Effect on Proposition 98:

Proposition 38's new revenues <u>would not</u> count toward the Proposition 98 guarantee. This has two effects:

- the new tax revenue does not affect the Proposition 98 guarantee, meaning that the funding is "on top of" the existing guarantee for the programs that receive money through Proposition 38; and
- the state may not "count" the revenue that K-12 districts receive through Proposition 38 toward the Proposition 98 minimum funding guarantee; consequently, community colleges will not be able to receive our usual 11% share because the Prop. 38 K-12 funds are technically not Proposition 98 funds.

Proposition 38 would provide \$3 billion in state budgetary relief from 2013-14 through 2016-17 by funding state general obligation bond payments otherwise payable by the general fund. However, unless the Legislature votes to suspend Proposition 98, the state will likely need to seek additional budget cuts or tax revenues to close the state's structural budget shortfall. While the size of the out-year budget deficits are in dispute and are highly variable based on the state's economic recovery, they likely would exceed the \$3 billion provided by Proposition 38 in each of the operative years of the debt payment backfill.

Direct Funding Impact on Community Colleges of Proposition 30 and Proposition 38

	With No Ballot Measure	Proposition 30	Proposition 38
2012-13	-\$338.6 million (base)*	\$209.9 million (base)	-\$338.6 million (base)***
2013-14 and beyond	likely at least -\$338.6 million**	at least \$209.9 million (base)	likely at least -\$338.6 million**

^{*} In addition to the \$338.6 million base reduction, \$209.9 million in new funds provided in the 2012-13 budget would be eliminated for a total "trigger cut" of \$548.5 million.

District-specific information on the impact of the ballot measures passing is available at:

www.ccleague.org/budget

For questions, contact Scott Lay (scottlay@ccleague.org) or Theresa Tena (ttena@ccleague.org) at (916) 444-8641.

^{**} Because the Proposition 98 guarantee for 2012-13 would be reduced by the trigger cuts, the 2013-14 future community college budgets would be built on this lower amount unless the Legislature overappropriates Proposition 98 or provides a significantly larger share of the K-14 guarantee to community colleges.

^{***} Although Proposition 38 has no direct impact on community colleges, if it passes with more votes than Proposition 30, then the trigger cuts for community colleges (and K-12, UC and CSU) take effect pursuant to the 2012-13 budget act.

THE HERALD OCTOBER 15, 2012

res on Prop. 30, No on Prop. 38

There is much confusion regarding Proposition 30 and Proposition 38, the educational funding propositions on the November ballot. While both support funding for education through temporary tax increases, there are very important differences in the two propositions.

Proposition 30 maintains the current level of funding for K-12 and the California Community Colleges, state universities and the University of California. Proposition 38 maintains the current level of funding for K-12 only.

If both propositions pass, the one receiving the most votes will cancel out the other one. As Prop. 30 includes both K-12 AND higher education, if it receives more votes than Prop. 38, the funding for all of public education will be maintained at the current level. If, however, both propositions should pass, but Proposition 38 passes with a higher number of votes, Proposition 30 will be nullified, triggering immediate cuts for higher education. These "trigger cuts" total \$5.4 billion.

The impact on Monterey Peninsula College will be approximately \$1.5 million in immediate cuts, with another \$2.3 million in cuts in 2013-2014. It will not be possible for MPC to meet its financial obligations without enormous reductions in some combination of operations, programs, faculty and staff.

The continued academic health of MPC and all community colleges is at stake. Remember: "Yes" on 30, "No" on 38.
