RESOLUTION NO. 2013-2014/133

WHEREAS, the U.S. system of regional peer-review accreditation has been well-established and provided essential guarantees of quality in America's post-secondary institutions since the 1950's; and

WHEREAS, the keys to the overall success of this unique system are a spirit of collaboration and mutual respect between the regional commissions and their member institutions and a shared focus on the needs and interests of the students who attend these institutions; and

WHEREAS, the current relationships between ACCJC and a number of its member institutions have deteriorated and become overly adversarial, as evidenced by the following:

- The extraordinary frequency and severity of sanctions levied by the ACCJC against California community colleges compared to sanction levels and types seen in other regions, as well as in four-year institutions in California accredited by WASC-Senior (WASC is the only regional accrediting agency to have separate bodies for accrediting two- and four-year institutions)*

- *Articles and complaints prepared and approved by organizations such as the Community College Council of the California Federation of Teachers, the Community College Association of the California Teachers Association, the California Community College Independents, and the Faculty Association of the California Community Colleges*
- *The creation of two separate task forces by two different State Chancellors in order to grapple with the issues surrounding the accreditation of the system's colleges; and*

WHEREAS, publicity surrounding the loss of accreditation of City College of San Francisco (CCSF) has resulted in an unfortunate spate of negative publicity for ACCJC, which is unhealthy for the accreditation agency as well as for the accreditation function itself;

WHEREAS, one of the central complaints stemming from ACCJC's denial of accreditation to CCSF is that its deliberations are conducted in secret, lacking any form of transparency;

Resolved, That Monterey Peninsula College hereby expresses its deep concern over the deteriorating nature of the relationships between the ACCJC and California community colleges; and

Resolved, That Monterey Peninsula College urges the ACCJC to acknowledge the deteriorating nature of those relationships and to work to improve them;

Resolved, That Monterey Peninsula College urges the ACCJC to model and exemplify effective and transparent self-evaluation practices by acknowledging and addressing any areas of non-compliance identified in evaluations by the USDE Accreditation Group and the National Advisory Committee on Institutional Quality and Improvement (NACIQI); and

Resolved, That Monterey Peninsula College urges the ACCJC to document and make public what steps it will take to address any areas of non-compliance.
