Change Log

April 30, 2014

- Added summaries reports of student technology needs survey, network health and security audit, VDI preparation assessment, server-farm virtualization and health assessment and Wi-Fi validation to *Appendix B*
- Page 9: added who conducted the assessments under “Reports from Expert Services”
- Combined and edited the Executive Summary and Purpose to emphasize focus on student needs
- Reorganized Areas that need attention

- Moved IT Department Section and Instructional Tech & Distance Ed to after the Strategic Elements. Changed narrative for IT staffing from “required” to “recommended” as way to reduce consulting needs.

May 5, 2014

- Page 11 “Guiding Principles”: Combined #2 and #4
- Page 27 modified the Scope of Goal 5
- Made grammar and spelling edits throughout the document
- Added initiative 5.a.4 “Develop a system to prioritize and rank current and future initiatives.”
- Added to and changed the order and formatting of “Areas that Need Attention”

May 8 2014

- Added to Needs attention section:
A reliance on in-house technology solutions vs. vendor supported solutions has put MPC in a very vulnerable situation. The in-house designed technology solutions often fall short of reasonable expectations. In addition vendor supported solutions and consulting can be held financially liable if contractual obligations are not fulfilled.

May 9 2014

- Added summary for employee survey to Appendix B

Changes Post College Council: May 13th

- Modified Initiative **1.c.1** (pg. 17) and **Technicians and Audio/Visual** (pg.34) to bring them in line with the suggestion of performing a Feasibility Analysis/Business Process Analysis on the validity of centralizing IT services
- Added initiative **4.a.4 Hire Network Operations Manager**. This was added to help further emphasis the importance and need for a network operations manager.
