

Requests to the Board of Trustees from MPCTA Membership  
September 24, 2014

1) The Association would like the Board to investigate the District procedures for determining what classes make or not, particularly in the World Languages, but also in the general, so that contract language in class scheduling is followed not just to the letter but in spirit, and therefore no necessary courses are lost due to low enrollments.

2) The Association would like the Board to investigate the business instructor hiring procedures in terms of salary schedule placement, and in general look into faculty input in discipline hires to be sure that faculty voice is at the forefront.
