

## Family Emergency Plan:

# Complete a Child Safety Plan!

The heart of a Family Emergency Plan is providing protection for your children if you can't be with them. Talk with your spouse or partner and decide who will take care of them.  
This is the person you most trust to:

- ✚ Take your children to the doctor
- ✚ Sign them up for school or extracurricular activities
- ✚ Sign them up for benefits or health insurance
- ✚ Travel with them

## Which Documents Should You Bring?

- ✚ Your photo ID (matricula, driver's license, or passport are accepted)
  - ✚ Your children's birth certificates
- Optional:*
- ✚ Your children's passports, if you have them and *if* you wish them to be able to travel with your chosen caregiver.
