

BP 2745 Board Self-Evaluation

The Board of Trustees is committed to assessing its own performance as a Board in order to identify its strengths and areas in which it may improve its functioning. In order to evaluate progress towards achieving the District's goals, the Board will annually schedule a time and place at which all members will participate in a formal self-evaluation.

The Board shall be evaluated as a whole and not as individuals. The evaluation will focus on the internal Board operations and performance and will evaluate success in achieving last year's goals. Working with the Superintendent/President, the Board members shall develop goals for the upcoming year against which the Board shall be evaluated. A self-evaluation instrument will be based on these goals. Each Board member will complete a self-evaluation instrument independently.

In addition, the Board will seek anonymous staff, faculty, student and community input through a representative sampling of each group. The sampling will be by position (example, President of the Academic Senate). The ensuing evaluation will be based on the resulting composite picture of the Board's strengths and weaknesses. The Board will discuss the tabulated results as a group and report its outcome at a public meeting.

The evaluation process shall include the establishment of strategies for improving Board performance. A summary of the evaluation will be presented and discussed at a Board session scheduled for that purpose. The results will be used to improve board performance, academic quality, and institutional effectiveness. Goals will be set for the following year's performance and evaluation.
