Guests: Rebecca Glenny, Kayla Valentine, Juanita Vasquez, Shawn Anderson, Erig Ogata, Nancy Morales, Florence Gilliam, Paul Garza, Rosaleen Ryan

Item	Topic / Discussion / Comments	Action / Recommendation
1.	Welcome -David welcomed all.	
2.	Campus community comments - no campus community comments were shared.	
3.	Approval of May 19, 2020 Agenda	Approval / Consensus
4.	<p>MPC Draft Reopening Plan -David introduced the draft Plan (subject to change based on State and County health orders) and reviewed the different stages for General Institution; currently the campus is in Stage 0 - Shelter In Place. He emphasized the need for the campus to be flexible. For Fall 2020, three instruction scenarios were reviewed.</p> <p>David provided an in depth review of each Stage:</p> <ul style="list-style-type: none"> • Stage 1 - Initial Return-Significant Limitations; open to employees, not students except for very essential needs, not open to the public. • Stage 2 - Partial Return with Limitations ; open to employees for limited student services and instructional support- no public or non-college events. • Stage 3 - Full Return with Limitations; open to employees and all students, not public or non-college events. • Stage 4 - Full Return without Limitations; open to employees, students and public events. Online instructional and non-instructional will be offered to meet the demand. This stage is largely believed to coincide with a time with the availability of a COVID vaccine. <p>David invited comments/feedback. Member comments included the following:</p> <ul style="list-style-type: none"> • The Draft Plan illustrates much thoughtful consideration given to the many groups affected, including those with childcare needs. • Scenario 1 - for Fall Instruction, this face-to-face and online (with contingencies) is not likely by Fall; this scenario is provided for context and the campus is essentially in a modified stage one currently over the past few weeks. • MPC will utilize guidance provided by the County and State; once the Governor enacts plans to reopen schools (Stage 5), the District will reassess. • The Draft Plan is the District's internal plan. • Hybrid instruction provides a degree of flexibility in the case of illnesses, a return to shelter in place or to create more instructional space. • The Infectious Disease Outbreak Plan (IDOP) contains additional protocol with regard to reactions in the wake of an illness. • Funding for future safety improvements were discussed. • Face to face instruction will be a challenge if social distancing measures are in place; courses will need to be evaluated on a case by case to determine if alternative spaces are needed to accommodate the student numbers alongside the distancing rule. 	

	<ul style="list-style-type: none"> • The District must explore all options towards transitioning back to more face-to-face instructions following State and local guidelines. Initially, the Shelter in Place order for Monterey County was in place with an ending date that continues to be updated. • Assessment of work spaces, faculty office spaces and other spaces will be a key component of the reopening plan. <p>Next steps include sharing this Draft document with other groups on campus (AAAG, Academic Senate, Public Forums on Thu., 12noon & 5p.m. and Friday at 8 a.m. The document provides the framework to address future unseen circumstances and invite input as circumstances unfold.</p> <p>David invited input from the group throughout the discussion.</p>	
5.	<p>Next meeting- May 26, 2020 Adjournment at approximately 3:30.</p>
